

Support Infants, Children, & Teens

IN CLARK COUNTY FOSTER CARE

Family Services

Impactful sponsorship opportunities

On any given day, there are **3000+ foster children** under the care of **Clark County Department of Family Services**. It is our goal to **nurture every child** and provide foster families with **special opportunities**, that they may not otherwise afford.

Along with our **community partners**, we host several events throughout the year to provide **critical support** services to ensure that **foster children** have what they need to **feel loved**.

In an ongoing effort to provide loving homes to abused and neglected children, Clark County Department of Family Services continually recruits new foster families.

Your gift offers so much more than financial support. Your gift helps retain qualified foster families, and teaches our foster children that people care about them.

Did you know...

- There are not enough qualified, trained, and licensed foster homes in Clark County to care for foster children, leaving children on campus at Child Haven for longer than anticipated.
- Many foster children go to live with family members who may be on a fixed income, like their grandparents. This makes it difficult for family members to afford the costs associated with raising a child, especially during the holidays or at back-to-school time.
