Notes & Highlights

- 1- Special Phased: Large construction projects, such as casinos, sport or entertainment pavilions, high-rise hotels, and/or convention centers. The projects are most time submitted in phases rather than in one plan submittal.
- 2- Commercial: Most commercial projects fall in this category, from warehouses to strip malls to stores.
- 3- Commercial Short: These are small commercial projects (short refers to what we call "short log" and we can plan review quicker). Generally, they are minor additions or tenant improvements/remodels of existing office spaces.
- 4- Commercial 7 Day: Created as an outcome of the Clark County Development Process & Fee Ad-Hoc Committee.
- 5- Residential: Most non-tract residential projects fall in this category, from custom homes to garages/carports and larger residential additions.
- 6- Residential Standard: This is really residential standard plans, which are what most tract builders use, meaning they have a set of plans covering 4 or 5 models, then they build several homes of each model within a tract.
- 7- Residential Short: As with commercial short, this is minor residential work, from small remodels or additions to block walls, etc.
- 8- Revisions: These are changes that require plan review for an existing, permitted job. Includes all scope of work, but again, is only changes to previously approved plans for a currently permitted project.
- 9- Updated 10/01/2023 to include all 1st Reviews by plans examiners even when they did not select the "First Review" tab.
- 10- January 2024 revenues increased significantly due to one time event; There is a moratorium on the installation of Evaporative Coolers for properties that did not have a building permit issued by COB on 2/1/24. More permits than normal were issued to avoid the moratorium.
- 11- April 2024 geotechnical step was added to the workflow in error at the end of permit review. This error did not affect the customer's timeline, but did affect our plan review timelines.
