**NOTES & HIGHLIGHTS**

For Column J in Executive Report, it is an average of the last 3 years that may include any values from the current year (ex. if 2023 is the inputted year, it will take an average from 2020-2022 and combine it with the current calendar years data). Additionally, MGD stands for Millions Gallons Per Day and SDA stands for System Development Approval. Customers need to have approval to connect to the system because our engineers need to determine that the pipes can handle the additional flow or if an expansion needs to be performed.
