	Daniel Lee - PRESENT	Craig Valdez - PRESENT
	Vida Chan Lin - PRESENT	Sonny Vinuya - EXCUSED
		Sharifa Wahab - EXCUSED

Secretary: Gloria Wells, (702) 455-3503, Gloria.Wells@ClarkCountyNV.gov

County Liaison: Emily Nowlin, (702) 455-3222, Emily.Nowlin@ClarkCountyNV.gov
Beatriz Martinez, (702) 455-0560, Beatriz.Martinez@ClarkCountyNV.gov

- I. **Call to Order**, Pledge of Allegiance, Roll Call (see above), and County Staff Introductions: Gloria Wells, Secretary; Emily Nowlin, County Liaison; Beatriz Martinez, County Liaison

The meeting was called to order at 7:07 p.m.

- II. **Public Comment**- This is a period devoted to comments by the general public about items on this agenda. No discussion, action, or vote may be taken on this agenda item. You will be afforded the opportunity to speak on individual Public Hearing Items at the time they are presented. If you wish to speak to the Commission about items within its jurisdiction but not appearing on this agenda, you must wait until the "Comments by the General Public" period listed at the end of this agenda. Comments will be limited to three (3) minutes. Please step up to the speaker's podium, if applicable, clearly state your name and address and please **spell** your last name for the record. If any member of the Commission wishes to extend the length of a presentation, this will be done by the Chair or the Commission by majority vote.

If you do not wish to attend the meeting in person, but would like to comment on an item appearing on this agenda, or provide a general public comment, please submit your comments via email to Beatriz.Martinez@clarkcountynv.gov, **before 4:00 p.m., August 12, 2020**. Please include your name, address and identify which agenda item you are commenting, and your comment. Comments will not be read into the record, but will be included as backup materials for the record. All comments received will be compiled into a document and shared with members of the public body, meeting attendees, and on the public body's website.

No Public Comment

III. Approval of the Minutes for the Regular Meeting on July 8, 2020. (For possible action)

Motion to approve by: Dorinda Burnett

Motion Passed/Unanimous

IV. Approval of the Agenda for August 12, 2020, and Hold, Combine, or Delete any items. (For possible action)

Vice Chair Tuan Pham made a motion to combine items a, b, c, d and e on the agenda under General Business for the purpose of discussing the final report.

Motion by: Dorinda Burnett to approve agenda with suggested changes

Motion Passed/Unanimous

V. Informational Items

a. None

VI. General Business (* items combined)

a. *Discuss the Commission's research duties and feasibility study. (For possible action)

b. *Discuss the drafting of the final report. (For possible action)

• **Received update from Vice-Chair Tuan Pham**

c. *Discuss the Commission's fundraising efforts and finances. (For possible action)

d. *Discuss the Commission's public relations, media, and events. (For possible action)

e. *Discuss the timeline of the Commission's duties. (For possible action)

f. Discuss scheduling a special meeting in August. (For possible action)

• **Motion by: Vida Lin to schedule special meeting on August 26, 2020 at 7:00 p.m.**

• **Motion Passed/Unanimous**

VII. Comments by the General Public- A period devoted to comments by the general public about matters relevant to the Commission's jurisdiction will be held. No vote may be taken on a matter not listed on the posted agenda. Comments will be limited to three (3) minutes. Please step up to the speaker's podium, if applicable, clearly state your name and address and please **spell** your last name for the record. If any member of the Commission wishes to extend the length of a presentation, this will be done by the Chair or the Commission by majority vote.

If you do not wish to attend the meeting in person, but would like to comment on an item appearing on this agenda, or provide a general public comment, please submit your comments via email to Beatriz.Martinez@clarkcountynv.gov, **before 4:00 p.m., August 12, 2020**. Please include your name, address and identify which agenda item you are commenting, and your comment. Comments will not be read into the record, but will be included as backup materials for the record. All comments received will be compiled into a document and shared with members of the public body, meeting attendees, and on the public body's website.

VIII. Next Meeting Date: *August 26, 2020 (Special Meeting).

IX. Adjournment: 8:07 p.m.

ASIAN AMERICAN PACIFIC ISLANDERS COMMUNITY COMMISSION

2020 REPORT FOR CLARK COUNTY

WELCOME MESSAGE

The **Asian American Pacific Islander Community Commission** (AAPICC) of Clark County is proud to present to you this comprehensive insight of the fastest growing multi-culture population in Clark County, Nevada for more than two decades now --- the Asian American and Pacific Islander (AAPI) community.

This report, which fulfills the first of three phases of our sworn duties as AAPI Commissioners, defines the history, population, socio-economic needs, organizations, and leaders of several cultural groups that comprise the AAPI community in our county.

This report also represents the concerted effort of: (1) each member of the AAPI Commission who gathered and submitted data and survey results; (2) selected research writers and consultants from the academe; and (3) friends and supporters in the AAPI community who helped in many different ways because they understand the value of this report.

We sincerely thank the Board of Clark County Commissioners who unanimously approved the creation of the AAPI Community Commission that we now serve.

We especially thank Clark County Commissioner **Tick Segerblom** and former Commissioner on the President's Advisory Commission on AAPIs, Ms. **Rozita Lee**, who both advocated for the revival of the defunct Asian Commission of Clark County with a fervent hope that its original mission of having a much needed AAPI Center will be manifested.

To everyone who took part in completing this report, we sincerely thank you and share with you the honor of presenting this report to the Board of Clark County Commissioners.

In God we trust.

BACKGROUND

Pursuant to Clark County Ordinance No. 4709, the Asian-American Pacific Islanders Community Commission (Commission) was re-established at the July 16, 2019 Board of County Commissioners (Board) meeting.

The purpose of this Commission, pursuant to County Code, Chapter 3.64, is to:

- (a) Identify the various Asian-American and Pacific Islander communities in the county;
- (b) Identify the population of each community;
- (c) Research and describe the history of each community;
- (d) Identify the leaders and organizations of each community;
- (e) Identify the social and economic needs peculiar to each community and the Asian-American and Pacific Islander communities in general;
- (f) Have the ability to accept donations as authorized by the Board of County Commissioners to meet the research needs identified, as well as to host a resource conference and conduct a feasibility study regarding the development of a cultural center; and
- (g) Report the findings of the Commission and recommendations to address identified needs.

HISTORY OF THE COUNTY ASIAN AMERICAN PACIFIC ISLANDER COMMISSION

By Rozita Villanueva Lee

GOVERNOR MILLER TO SIGN FIRST ASIAN BILL. This was the headline of the July 1-31, 1995 Asian Pacific Journal Newspaper.

That Asian Bill was Assembly Bill 525 authored by the late Assemblywoman Genevieve “Gene” Wines Segerblom (D-District 22) which mandated that counties whose population is 400,000 or more will create a commission with a task to study the Asian Pacific American (APA) community.

In the newspaper article, Editor Paul Gorre wrote: “In an unprecedented move, the state’s lawmakers on July 2, 1995 gave political power to the Asian Pacific American (APA) community with the passage of AB 525. This is the very first ordinance in Nevada’s history that solely benefits the burgeoning APA community.”

With the passing of this Bill it was then incumbent upon the Clark County Board of Commissioners to establish an Asian American Community Commission. Chairman of the CC Board of Commissioners at that time was Yvonne Atkinson Gates. Under her leadership 15 members of the APA community were appointed with Attorney Benson Lee as Chair and Hae Un Lee, owner of Lee’s Discount Liquors as Vice-Chair. I was among those appointed to the Commission and we served for almost two years. The Commission was not activated at the end of our term.

In November of 2018, a group of APA leaders got together to discuss issues of the communities and decided to focus on erecting a Community Center to serve our diverse APA communities. We named ourselves the East West Center Group. In the group were Hui Lim Ang, Dorinda Burnett, Fayyaz Raja, Margie Gonzales, Emily Higby, Rozita Lee, Marc Matsuo, Pastor Allen Mallari, and Tuan Pham. We approached newly elected Commissioner Tick Segerblom for advice and met with him regularly. It was during one of those meetings that Commissioner Segerblom suggested that we needed to tie in with the County in some way so we could get some help regarding the Center. It was then that I reminded him that there was already an entity in the County and it just needed to be reinstated. It was an entity that his mother had championed back in 1995.

From then on we concentrated on strategizing to reinstate the Asian American Community Commission and visited each CC Board Commissioner for support. We gave them the following reasons for reinstating the Commission: *Asian Americans and Pacific Islander demographics are rising in Las Vegas Metro Area, faster than any other ethnic group. *An APA Commission would be able to research and address issues such as poverty, unemployment, limited English related issues, housing, health, social services, education, etc. *Assist the County in being an effective liaison and conducting outreach with APA communities through information dissemination. *Provide a platform for the county to create information, awareness and education of countywide services that are currently addressing concerns and issues. *Pave the way towards creating a Central location, a Community Center for APAs. *Institute the history and contributions of the Asian Pacific Americans in the County.

The proposal for reinstating the APA Commission was accepted and approved, applications accepted and decided upon, and on Wednesday, October 9, 2019 the Asian American Pacific Islander Community Commission was reinstated and appointees sworn in.

FOREWORD

Las Vegas is a real place with real people. Of the many vibrant communities that have blossomed in the desert over the last couple of decades, Asian Americans and Pacific Islanders (AAPI) are one of the fastest growing. Since 1980, Vegas' AAPI population has grown dramatically from a few thousand to about 250,000. In the 1990s alone, when the city's entire population grew to about 1.5 million people, the number of AAPI increased by 260% (Latinos grew by 262%).

This shift is more than demographic. The arrival of different Asian ethnic groups--Filipinos, Chinese, Thai, Vietnamese--who brought their unique and dynamic cultures, bilingualism, perspectives, ideals, labor, and everyday lifeways, has had a profound impact on the city. Their presence is wide-ranging, at once social, cultural, economic, and political. They are visible in Vegas' built landscape and experienced--heard, smelled, and tasted--from strip-mall restaurants and grocery stores, to casinos and residential neighborhoods. As they struggled to build lives here, AAPI's have cultivated a sense of community and roots, remaking Vegas into a place that is anything but "transient."

And they remade *themselves* in the process. This report profiles the many challenges and issues that emerged for AAPI communities in Las Vegas amid these transformations. From employment assistance and education programs to health care and immigration services, the report offers the best appraisal to-date of the needs and desires of this diverse and ever-changing population. More, it is a call to action. It inspires more documenting of the histories and contemporary experiences of AAPI's in Vegas, and pushes us to rethink our perception and interpretation of Vegas itself.

There is much to be learned through AAPI Las Vegas, and we need to learn it now more than ever. Many of the most critical debates and problems confronting Las Vegas and American culture and society as a whole has been playing out in the city's AAPI communities: racial and ethnic inclusion, multiculturalism and civic identity, racial discrimination, xenophobia, immigrant adjustment and integration, globalization, political participation, suburbanization, undocumented migration, and much more.

This report presents a glimpse of what Vegas, and perhaps the rest of the country, will look like moving forward--who we are, where we want to go, and what we want to be. It delivers a usable past for anyone committed to imagining and building a more inclusive, robust, and equitable Vegas future.

INTRODUCTION

PURPOSE OF THE REPORT

The purpose of this report is to highlight data collected by the recently established Asian American Pacific Islander Community Commission (AAPICC), according to the Clark County Ordinance No. 4709. The report's data was obtained from the Clark County Board Commission's research forms and AAPI Survey Questionnaires distributed by the AAPICC from February 2020 through May 2020.

DATA SOURCES & METHODOLOGY

American Community Survey (ACS)

This is an ongoing survey conducted by the United States Census Bureau that collects information via mail, phone, and in-person visits to collect different types of data, including but not limited to income, job, and occupation, educational attainment, among other topics.

2010 United States Census

The 2010 Census counted every person living in the United States and five territories who completed the 2010 Census form by phone or by mail. Like the American Community Survey, the Census collects demographic information, but in more detail and from a broader scope of topics.

AAPI Research Form: AAPI Commissioners were tasked with collecting information for the following 19 Asian American and Native Hawaiian & Pacific Islanders (NHPIs) communities: *Afghan; *Asian Indian; *Bangladeshi; *Bhutanese; *Burmese; *Cambodian, *Chinese, *Filipino, *Hmong; *Japanese; *Korean; *Laotian; *Malaysian; *Native Hawaiian & Pacific Islanders; *Pakistani; *Sri Lankan; *Taiwanese; *Thai; & *Vietnamese. For each ethnic group, the AAPI form assessed the population size (based on U.S. Census, 2017 American Community Service (ACS) data); History of the community; Social & Economic Needs; and information for local community leaders and organizations. **NOTE: When information was not available for any of the four research areas, data from 2010 and 2017 U.S. Census/ACS was researched and included in this report.**

AAPI Survey Questionnaire: This survey questionnaire consisted of a total of thirteen questions: Demographics (11), Likert Scale (2), and Ranking (1). The Survey Questionnaire was made available in English, Vietnamese, and Chinese. Survey participants had the option to specify the ethnicity they most identified with, languages spoken at home; the importance of promoting their ethnic culture; and Ranking of 15 services they may or may not have received. An electronic version of the survey questionnaire was created and distributed through the SurveyHero web platform. All completed surveys were entered into SurveyHero's platform for collection and analysis of data.

RESULTS OVERVIEW

With the information collected from the AAPI Research forms, Individual profiles for all 19 were created and included within this report. Results from the Survey Questionnaire showed that a total of **321** surveys were processed through SurveyHero. The top three groups of respondents identified as Asian only (n=85), Filipino only (n=63), and Japanese only (n=22). Most of the respondents (n=29) reported living in Spring Valley, Las Vegas, and Paradise, Las Vegas (n=21). 185 identified as Female, and 136 as Male. Most of the respondents were single (150 responses); the average age (in years) was 42, with the youngest participant being 18 and the oldest 90. A Bachelor's degree (n=161), and Some College (51) were the top two for educational attainment. The majority (n=185) of the respondents were employed, and 31 were business owners. Earning less than \$25,000 received the top response of 100 participants for annual income. A high percentage of responses (n=185) showed that preserving their ethnic culture was very important, compared to 3 % (n=10), who thought it was not important. Elder Care Services were less commonly received (n=299) when compared to Education (n=121) and Health Care (n=131). The top-ranked services reported were: Education Programs (Rank=1); Health Care/Wellness (Rank=2); and Employment/Job Assistance (Rank=3). Please refer to the AAPI Survey Summary section in this report for more detailed information.

ASIAN AMERICAN PACIFIC ISLANDERS PROFILES

2020 REPORT FOR CLARK COUNTY

AFGHAN

Population: Not tracked in 2010 Census Data
2017 ACS 1-Year Estimates: Information not available

History

The first Afghan to come to Las Vegas, Nevada was on February 10, 1973. His name was Nesar Beria (he died in 2019) and his wife's name was Shukria Beria. In 2017, the Afghan population was about 8,000 people and over 500 families have lived in Las Vegas, Nevada. In the past two years, there has been an increased amount of refugees who came to the United States from the country of Afghanistan while some Green Card holder refugees came from Turkey.

There are currently two Afghan organizations in Las Vegas, Nevada - The American Afghan South Asian Middle Eastern Chamber of Commerce and the Nevada Peacemakers Lions Club - both of whom are presided by Sharifa Wahab, a very active Afghan community leader in Clark County.

There are several Afghan-owned businesses in Las Vegas, Nevada such as restaurants, dental offices, doctors' offices, smoke shops, car dealerships, gas stations, real estate agencies, boutiques, wholesale stores, fast food restaurants, mechanic shops, Adult Day Care and other home health care facilities.

Source: Research submitted by Sharifa Wahab

Social & Economic Needs

The following information is for the United States.

Afghan Americans have found occupations in a variety of careers. The growing number of Afghan and Middle Eastern restaurants in this country is a testimony to their hard work and excellent cuisine. For many Afghan Americans who are college-educated, their positions in government or American industry are prestigious ones. For many other immigrants, the route to economic stability was in self-sufficiency. Thus, many exert themselves in sales of ethnic items at flea market and garage sales. Immigrants to the San Francisco Bay area have found work in computer components companies. Others, especially first-generation immigrants, work as taxi cab drivers, babysitters, and convenience store owners and workers. Their children, earning a high school diploma and college degree, soon move into their own professional careers in ways identical to that of all other Americans. Afghan American men especially have found it difficult to achieve positions befitting their experience, education, and economic needs. They have often found it necessary to apply for public assistance, contributing to their sense of the difficulty of life in the United States. Even in those families that have achieved some measure of success and financial stability, there has been a cost, both in time expended and in the loss of traditions. In families in which virtually every member of the family works, perhaps at more than one job, the wholeness of a family becomes fragile, and the cultural roles played by each family member begin to disintegrate. This economic necessity extends even to the children in Afghan American families, who often work rather than engage in extracurricular activities or other community or school programs. The need to constantly work to survive inevitably contributes to an immigrant community's sense of otherness, its isolation, and its lack of acculturation. Despite these obstacles, changes have come to the Afghan American community. These changes include increases in the rate of home ownership and increased numbers of youth going on to higher education and professional school.

CHINESE

Population (Clark County):(except Taiwanese) - 23,516 in 2010 Census Data
 2017 ACS 1-Year Estimates: 29,123 (Clark County, Nevada)

History

- **1920s** Discriminated to work at Hoover Dam, Chinese opened up restaurants like Silver Cafe which accommodated 94 people. In 1922, Sui Fong opened the Rainbow cafe during the Great Depression and provided free meals.
- **1930s** Chinese Americans first obtained Gaming licenses. Harry Lee Fong and Rose Fong opened the West Side Club in 1940s to cater to African Americans that weren't welcomed in major casinos. Civil rights movement ended casino discrimination making Chinese owned or operated casinos for African Americans obsolete.
- Post War Era is when major casino owners interested in attracting Asian and Asian American gamblers to Las Vegas. Bugsy Siegel opened the Flamingo hiring Chinese American entertainers, including Frances Fong.
- **Mid 1960s** Shortage of Western trained medicine. Chinese and Chinese Americans began to open Western based practices in radiology, surgery, gynecology, dentistry, and law.
- **1970s** Chinese are present in entertainment with 1 to 2 night shows; pai gow and keno are introduced.
- **1990s** Asian American female dealers outnumber Asian American men deals, perhaps because of sex appeal.

FILIPINO

Population (Clark County): 86,735 in 2010 Census Data
 2017 ACS 1-Year Estimates: 122,095 (Clark County, Nevada)

History

- **1920s** 5 Filipinos in Nevada that left California during the Great Depression. Filipinos served as busboys and Hoover Dam laborers. Bachelor group known as “the Untouchables” (15-16 men) lived in a 3 bedroom home as casino workers who would later become instrumental in encouraging California Filipinos to seek work with them in Casinos.
- **1930s** Rudy Roque Legaspi Oquendo was deputy sheriff in the day & bartender at night
- Post World War I, named most educated Filipino in LV was a postal worker name Ven Manois who held an accounting degree.
- **1952** Rudy Crisostomo can be credited for neon marquees famously known as the Sands, Dunes, Circus Circus, Binions, Luxor, Whiskey Petes, and Rio. He had a design degree from Texas.
- **1990** Nursing shortage. Direct recruitment from the Philippines addresses local shortages like Nursing & CCSD Special Education. Every 10 years (1990-2000-2010) showed an increase of Filipinos. 2005 marked them as the largest ethnic Asian group that continues to grow to this day.
- Clark County is one of the top 4 counties that felt the Filipino Migration. The other 3 counties are Los Angeles, San Diego, and Honolulu with Filipino residents from these counties moving into Clark. Retirees from Chicago and California could afford down payments between \$150,000 to \$200,000 for homes in Clark.

Source: Simich, Jerry L, Thomas C Wright, and ProQuest. The Peoples of Las Vegas : One City, Many Faces . Reno: U of Nevada, 2005. Print. Wilbur S.Shepperson Ser. in Nevada History.

- Las Vegas attracts Filipinos for basically two reasons—its casinos and hospitals and health care facilities. Casinos are always in demand of waiters and waitresses, bartenders, dealers, security guards and hotel workers—and many Filipinos find jobs here.
- **1997:** Judge Cedric Kerns, whose mother is Filipino, was the first Fil-Am to be elected in Nevada's history when he won a seat as a municipal judge.

JAPANESE

Population (Clark County): 9,088 in 2010 Census Data
2017 ACS 1-Year Estimates: 10,987 (Clark County, Nevada)

History

- **1890** Modest migration of people who worked as houseboys (domestic workers to study English), cooks, and few mine workers. Inherited strong anti-Chinese sentiment.
- Built San Pedro, Los Angeles, and Salt Lake Railroad. Japanese were seen as trustworthy, ambitious, and offered long employment with the railroad industry. Promoted to skilled labor that was normally reserved for white laborers (machinists, boilermakers, paint, and mechanics). They lived on railroad property called Japanese Colony.
- **1940**, 49 Japanese resided in Clark. 1942 Internment was felt by smaller Nevada counties, but Clark County/Las Vegas Japanese were respected and protected by County Sheriff Gene Ward.
- Famous Tomiyasu Ranch was chief supporter of feeding thousands of employees of the Hoover Dam.
- **1952** Senator Patrick McCarran was a long time supporter of Japanese farm families in Nevada, cosponsored legislation that finally granted citizenship to the Issei, reopened the door to immigration with the quote of 185 per year.
- Japanese American Citizens League established in Nevada and recent settlers from Hawaii and California found community.
- Japanese Americans residents of the valley after the 1960s are of mixed race and heritage.

Below is a message from Tuan Pham regarding information about the Malaysian Community in Clark County.

"I have contacted several people who are Malaysian but found out that there is no Malaysian organization or Malaysian leaders that they know existed in Las Vegas. I spoke with Jan-le Low owner of Satay restaurant, the owner of Island Malaysian Cuisine and Hui-Lim Ang. This is an effort to research more about the Malaysian Community, in which I can't find any information. Jan-le Low and Hui-Lim Ang are considered the outspoken community leaders in the Asian community here in the county. Below is a message from Jan-le Low regarding the inquiry to summarize my research for the Malaysian community. Jan-le Low stated,

'Per our conversation, there are a handful of Malaysian Americans here in Clark County that I know of. We do not have a *formal* group as we're all quite independent.

Most of us are in the service industry -- restaurant, salon, piano studio, etc. The ones that I know are Chinese descent and we speak the following languages: English, Mandarin, Cantonese, Malay, and Hokkien (dialect) -- so we navigate just fine. Most of us who migrated to the U.S. to pursue the *American dream*. With that said, we take ownership of our own destiny and will not turn down opportunities when given. We love the State of Nevada because it is very business friendly. Most of us are entrepreneurs and have more than 1 business."

NATIVE HAWAIIAN & PACIFIC ISLANDER

Population: Not tracked in 2010 Census Data
 2017 ACS 1-Year Estimates: 16,380 (Clark County, Nevada)

History

- Vegas, the Ninth Island, has been a keystone place for people from Hawaii to both visit and migrate to for a long time, most notably in the 70s with the opening of the California Hotel and Sam Boyd's marketing tactics, and in the 90s/00s with the opening of much of the casinos on the strip today (moving here promised an abundance of jobs, more affordable homes, and lower taxes).
- On visitors: About 1 in 10 Hawaiian residents visit Las Vegas every year, and roughly 40 Hawaiian high school reunions are held at the California Hotel per year. There are travel packages offered to Hawaiian residents that include a very cheap plane fare, a stay at the Cal, and meal tickets to eat there.
- There were a couple hundred former Hawaiian residents living here in 1986 when the population in LV was around 600,000, and now more than 15,000 live and work in Las Vegas (19,000 in Nevada).
- Between 1995 and 2000, about 12,079 people moved here from Hawaii, which is more than the combined number of Hawaiian residents on Lana'i and Molokai combined.

THAI

Population (Clark County): 4,692 in 2010 Census Data
2017 ACS 1-Year Estimates: Information not available

History

Thai immigration to Nevada did not begin until the **1960s**. There are virtually no records on Thai immigrants in Nevada before then. The first Thai immigrants to Nevada were women who had married American soldiers stationed in or visiting Thailand for rest and recreation during the Vietnam War. These women arrived to Las Vegas when their husbands were reassigned to the Nellis Air Force Base. In the **1960s** and **1970s**, this gendered immigration pattern prevailed in other states as well. During this time, the families resided in the Nellis, and Northeast area. As times progressed with the growth of Southern Nevada, and the families becoming more successful, they began moving around to different areas such as Summerlin and Henderson. The more affluent families and second generations favored the Southwest parts of town. During the progression of the Thai population, Tippy Meevasin open the first Thai market called International Market in **1974** inside the commercial center, and then moved in **1988** to a spot on Main Street and Oakey before she closed the store and retired in the early **2000's**. In **1999**, Oywan Sawyer founded the very first Thai Newspaper called: Las Vegas News, which remains the largest and most recognized Thai publication to date. These pioneers were instrumental in the development of the Thai Community and the preservation of the culture. Saipin Chutima brought Lotus of Siam to Las Vegas in **1999** and Bangkok Market opened in the early **2000's**. The community did not rely on an Association, but rather the community united through their Buddhist religion at the Thai temples. The Thai Culture Foundation has provided community services and cultural arts. There are seven Thai temples around Clark County, and the Thai Culture Foundation links the various communities within these temples with community resources and assistance. The Thai community is small but has remained resilient, and adaptive to life in America."

2017 ACS 1-Year Estimates: 10,046 (Clark County, Nevada)

Population

The Vietnamese community established its presence here in Las Vegas in 1972 when a few Vietnamese families immigrated to the U.S., with their spouses working at the Nellis airport. In 1975 after the fall of Saigon, a significant number of Vietnamese chose Las Vegas to re-establish their permanent home in the U.S. The population of the Vietnamese community has continued to grow steadily from 1975 until today. Vietnamese Americans' income and social classes are diverse in Clark County. Older Vietnamese often have a lower socioeconomic standing and more difficulty integrating into the mainstream due to greater linguistic and cultural barriers. The economic difference can be seen in Vietnamese-American neighborhoods throughout the county. We have seen substantial growth in the number of Vietnamese-owned businesses. Throughout the county, many Vietnamese (especially first or second-generation immigrants) have opened supermarkets, restaurants, bánh mì bakeries, beauty salons, nail salons, real estate, and auto-repair businesses. Restaurants owned by Vietnamese Americans tend to serve Vietnamese cuisine, Vietnamized Chinese cuisine, or both and have popularized pho and spring rolls. Vietnamese people in Clark County hold diverse employment from professionals like attorneys, physicians, dentists, and pharmacists, to casino dealers, laborers, and nail technicians, among others. The Vietnamese dominate three industries in Clark County: the nail industry, pharmacy, and dentistry. You will find dentist offices and nail salons owned by Vietnamese on four corners of most intersections, and you may pleasantly surprise to find a Vietnamese Pharmacist when visiting any pharmacy throughout the county. Young Vietnamese Americans adults are well educated and often provide professional services. Since older Vietnamese Americans have difficulty interacting with the non-Vietnamese professional class, many Vietnamese Americans provide specialized professional services to fellow immigrants. Vietnamese Americans are an upwardly-mobile group; their economic status has improved substantially in recent years. Vietnamese Americans have tried to preserve their traditional culture by teaching their children the Vietnamese language, wearing traditional dress (áo dài) for special occasions, and showcasing their cuisine in restaurants throughout the county. Family loyalty is the most important Vietnamese cultural characteristic, and more than two generations traditionally lived under one roof. The Vietnamese view a family as including maternal and paternal grandparents, uncles, aunts, and cousins. In adapting to American culture, most Vietnamese American families have adopted the nuclear pattern while trying to maintain close ties with their extended families.

1 Yen Regan who came to Las Vegas since 1972

Social & Economic Needs

According to a 2015 Community of Contrasts Survey Report published by Asian Americans Advancing Justice, Vietnam was one of the top Asian countries of birth for immigrants in Clark County. The Vietnamese community has a population of 10,505 in the county. Between 2000 and 2010, the Vietnamese population grew by 147%.²

A United States Census Bureau demographic report in 2018 estimated that the Vietnamese community has a population of 15,141 in the county, which amounts to 0.7% of the total population in Clark county.³ There is no breakdown of the community by age and gender. 43% of Vietnamese have limited English proficiency, and 24% of Vietnamese hold a bachelor's degree. Vietnamese Americans have the lowest per capita income. A majority of Vietnamese American renter households (53%) are housing cost-burdened, spending 30% or more of their incomes on housing costs.²

IMPORTANCE OF PRESERVING CULTURE

AAPI Survey Questionnaire

AAPICC COMMISSION RECOMMENDATIONS

BACKGROUND

The Asian American Pacific Islander Community Commission makes the following recommendations based on social and economic information collected within the AAPI Research forms, and from the top five (5) services ranked by the AAPI Survey Questionnaire respondents. These are: *Education Program* (#1); *Health Care/Wellness* (#2); *Employment/Job Assistance* (#3); *Elder Care Services* (#4); and *Financial Literacy* (#5).

RECOMMENDATIONS

I. CREATE A CLARK COUNTY HANDBOOK FOR AAPI COMMUNITY.

With about 11% and growing of AAPI population in the State, a resident handbook is essential to the AAPI community for the following reasons (this handbook would be translated into the native language for each AAPI community):

1. Provides the AAPI community with information about available services and resources within the county.
2. Ensures understanding and compliance with county and state laws.
3. Communicates to residents what is expected of the AAPI community.
4. Educates AAPI residents and prospective residents about what they need to know when doing business within the county.
5. Showcases the benefits and advantages of living in the county.
6. Provides vital information about the community and where they can turn for help.
 - a) Example: Creating a "Clark County Royal Pages - Directory of Programs and Services for the Senior and Disabled Population" that could be made available in multiple AAPI languages.

II. CREATE A NEW POSITION: Clark County AAPI Liaison Officer.

Having an in-house Liaison could significantly improve the provision of services to the different ethnic communities in Clark County. Additionally, the Liaison Officer would perform the following duties:

1. Act as a positive representation of the county to the AAPI community.
2. Proactively develop and foster relationships with the AAPI community and other entities.
3. Collaborate and communicate successfully with the community and its businesses.
4. Work with other county staff members to develop a greater understanding of the community and any issues that arise.
5. Provide authoritative findings, guidance, and recommendations on county-wide programs.
6. Monitor, coordinate, and communicate the strategic objectives of the county to the AAPI community.
7. Provide education, training, and outreach to county staff and the public on important topics and holidays related to AAPI communities such as:
 - a) The Model Minority Myth, May Day, Aki Matsuri, Independence days, etc.
8. Educate the public about available resources, such as affordable healthcare options, etc.
9. Conduct AAPI Outreach
 - a) Many members of the AAPI community struggle to access various resources and amenities provided by the county due to language barriers.
10. Provide data disaggregation for the AAPI community
 - a) Aggregated data only provides "surface-level" information about the AAPI communities.
 - b) Members of the Community Commission struggled to find public information on demographic data related to specific AAPI communities.
 - c) Work with individual county agencies and/or departments to identify limitations and challenges to obtaining key demographic data and identify ways to overcome these limitations.
 - d) Work with the county to research the possibility of creating a data disaggregation pilot program.

AAPICC COMMISSION RECOMMENDATIONS

III. INCREASE AAPI REPRESENTATION IN THE WORKFORCE

Identify what is currently being done to attract AAPI employees and work with other county departments to provide additional outreach to potential AAPI employees.

IV. HAVE AN AAPI COMMUNITY OR CULTURAL CENTER SO THAT ALL RESOURCES FOR THE MULTIPLE AAPI COMMUNITIES CAN BE ACCESSED IN ONE PLACE AND WHERE THEIR ETHNIC CULTURE CAN BE PRESERVED AND PROMOTED

- A. Based on the AAPI survey results, 87% of the respondents consider the importance of preserving and promoting their ethnic culture.
- B. Better AAPI outreach programs by way of regular or periodic community service events, job fairs, seminars/workshops, cultural events, in coordination with organizations & community leaders of the various AAPI ethnic communities in the county.

- End of Recommendations -

Donation Report:

Clark County Code Section 3.64.040 requires that the Asian-American and Pacific Islander Community Commission (AAPICC) prepare and submit a report of the findings of their research and recommendations to address identified needs. The report must be submitted to the Clark County Board of County Commissioners (County Commission). Moreover, CCC Section 3.64.060 requires that the report include a detailed summary of all donations received and how the donations were utilized by the AAPICC.

Overview:

The County Commission is authorized to receive by donation any property and for the use and benefit of the County pursuant to NRS 244.270.

At the September 3, 2019 County Commission meeting, the County Commission authorized the County Manager to accept donations in an amount not to exceed \$1,000 in monetary or personal property donations for the AAPICC. A copy of the resolution is attached to this report for reference.

All donations of every nature: a) must directly benefit the work of the AAPICC; b) must not require special or extraordinary storage, maintenance, or installation expense to the County and cannot entail an adjustment to the County budget; and c) must be donated for lawful purpose which the County and the AAPICC are authorized by law to perform. The County Manager shall not accept donations with any special conditions specified by the donor.

Individual monetary or personal property donations exceeding \$1,000 in amount shall be placed before the County Commission for approval at a regularly scheduled meeting. Individual monetary donations must be either by cash or check. Donations of personal property must be in good condition and acceptable by the AAPICC.

Pursuant to the resolution adopted in September 2019, the County Manager is required to present a quarterly report to the County Commission as to all donations accepted by the County Manager for that quarter. The report shall list each donation, including those previously accepted at a regularly scheduled meeting of the County Commission, the monetary amount or reasonable fair market value, the name of the donor unless anonymous, and the designated purpose. As of July 2020, the County Manager has submitted three (3) quarterly donation reports to the County Commission. Copies of such agenda items are attached to this report for reference.

Expenditures must be used to directly benefit the AAPICC pursuant to CCC Section 3.64.040. Expenditures are subject to and must comply with the Clark County Fiscal Directives. The fund for the AAPICC will be reconciled no less than once per month. Furthermore, the fund will be audited periodically, and all records must be kept in accordance with state law and County records retentions schedules.

In the event that it appears that donations will remain unspent at the conclusion of the Commission’s work, the Commission shall make a recommendation to the County Commission for the disposal of such funds.

Summary of Donations:

The following is a summary of the donations that the County Manager has accepted on behalf of the AAPICC. These donations were received between October 2019 and June 2020.

Donor	Type of Donation	Purpose	Estimated Value
Tick Segerblom	Business Cards.	Business Cards for AAPICC Members.	\$649.50
Tuan Pham	SurveyHero.Com Paid Plan. (February 2020 Donation)	To conduct the AAPICC survey.	\$35.00
Tuan Pham	SurveyHero.Com Paid Plan. (March 2020 Donation)	To conduct the AAPICC survey.	\$35.00
Asian-American Community Development Council (ACDC)	Printed Surveys.	To conduct the AAPICC survey.	\$500.00

Tuan Pham	SurveyHero.Com Paid Plan. (April 2020 Donation)	To conduct the AAPICC survey.	\$35.00
Tuan Pham	SurveyHero.Com Paid Plan. (May 2020 Donation)	To conduct the AAPICC survey.	\$35.00
Tuan Pham	SurveyHero.Com Paid Plan. (June 2020 Donation)	To conduct the AAPICC survey.	\$35.00
Total Estimated Value:			\$1,724.50

**CLARK COUNTY BOARD OF COMMISSIONERS
AGENDA ITEM**

Petitioner: Yolanda T. King, County Manager

Recommendation:

Approve, adopt, and authorize the Chair to sign a resolution authorizing the County Manager to accept donations for the Asian-American Pacific Islanders Community Commission in an amount not to exceed \$1,000 in monetary or personal property donations for the benefit of the Asian-American Pacific Islanders Community Commission. (For possible action)

FISCAL IMPACT:

Fund #:	N/A	Fund Name:	N/A

Description:	N/A		
Additional Comments:	N/A		

BACKGROUND:

The Asian-American Pacific Islanders Community Commission (Commission) was re-established at the July 16, 2019 Board of County Commissioners (Board) meeting. Among its duties, the Commission is required to conduct a feasibility study regarding the creation of an Asian Cultural Center and identify the needs of the various Asian-American communities. The Commission is required to prepare a detailed report of its work by June 30, 2020, including a detailed summary of all donations received and how the donations were utilized by the Commission.

The Board is authorized to receive by donation any property for the use and benefit of the County pursuant to NRS 244.270. Small donations are time consuming and costly to present to the Board. It is recommended that the County Manager be authorized to accept donations in an amount not to exceed \$1,000 in monetary or personal property donations for the Commission. Items accepted are not to require special or extraordinary storage, maintenance, or installation. Donations must also directly benefit the work of the Commission and be acceptable by the Commission.

The County Manager shall present a quarterly report to the Board listing the donations received and their value as estimated by the donor. Individual donations valued at more than \$1,000 in personal property or monetary donations will be presented to the Board at a regularly scheduled meeting.

This resolution is similar to the ones authorized for various County departments and has been reviewed by the Clark County District Attorney's Office.

**RESOLUTION FOR THE
ASIAN-AMERICAN PACIFIC ISLANDERS COMMUNITY COMMISSION
TO ACCEPT DONATIONS**

WHEREAS, the Board of County Commissioners of the County of Clark, State of Nevada, is authorized to receive by donation any property for the use and benefit of the County pursuant to NRS 244.270; and

WHEREAS, the Asian-American Pacific Islanders Community Commission (Commission) was re-established at the July 16, 2019 Board of County Commissioners meeting; and

WHEREAS, among its duties, the Commission is required to conduct a feasibility study regarding the creation of an Asian Cultural Center and identify the needs of the various Asian-American Pacific Islander communities; and

WHEREAS, Clark County Code Section 3.64.040 authorizes the Commission to accept donations as authorized by the Board of County Commissioners to meet the research needs identified, as well as to host a resource conference and to conduct the feasibility study associated with the creation of an Asian Cultural Center; and

WHEREAS, Clark County Code Section 3.64.060 requires the Commission to prepare a detailed report of its work by June 30, 2020, including a detailed summary of all donations received and how the donations were utilized by the Commission.

NOW, THEREFORE, BE IT RESOLVED, that the County Manager is hereby authorized to accept donations of money or personal property made for the benefit of the Commission provided as follows:

1. All donations of every nature:
 - a. Must directly benefit the work of the Commission;
 - b. Must not require special or extraordinary storage, maintenance, or installation expense to the County and cannot entail an adjustment to the County budget; and
 - c. Must be donated for a lawful purpose which the County and the Commission are authorized by law to perform.
2. Individual monetary or personal property donations exceeding \$1,000 in amount shall be placed before the Board of County Commissioners for approval at a regularly scheduled meeting. Individual monetary donations must be either by cash or check. Donations of personal property must be in good condition and acceptable by the Commission.
3. The County Manager shall not accept donations with any special conditions specified by the donor.
4. The County Manager shall present a quarterly report to the Board of County Commissioners as to all donations accepted by the County Manager for that quarter. The report shall list for each donation, including those previously accepted at a regularly scheduled meeting of the

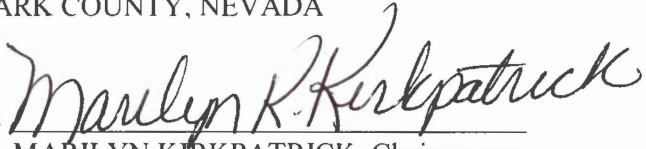

Board of County Commissioners, the monetary amount or reasonable fair market value, the name of donor unless anonymous, and the designated purpose.

5. Expenditures must be used to directly benefit the Commission pursuant to Clark County Code Section 3.64.040. Expenditures are subject to, and must comply with Clark County Fiscal Directives. The fund for the Commission will be reconciled no less than once per month. Furthermore, the fund will be audited periodically and that all records must be kept in accordance with state law and County records retention schedules.
6. In the event that it appears that donations will remain unspent at the conclusion of the Commission's work, the Commission shall make a recommendation to the Board of County Commissioners for the disposal of such funds.

PASSED, ADOPTED, AND APPROVED this 3rd day of September 2019.

BOARD OF COUNTY COMMISSIONERS
CLARK COUNTY, NEVADA

CLARK COUNTY ASIAN-AMERICAN PACIFIC ISLANDERS COMMUNITY COMMISSION

2020 Report

Clark County AAPICC Report

Summary

- Greeting and Remark – Margie Gonzales, AAPICC Chair
- About the Technicality of the Survey – Craig Valdez, AAPICC Commissioner
- Recommendation & Conclusion – Tuan A Pham, AAPICC Vice Chair

Greeting & Remark

Margie Gonzales, AAPICCC Chair

About the Technicality of the Survey

Craig Valdez, AAPICC Commissioner

AAPI Survey Questionnaire

- Consisted of a total of thirteen (13) questions
 - Questions included what ethnicity they most identify with, services they cared most about, and their viewpoint on the importance of preserving their ethnic culture
- Was made available in English, Vietnamese, and Korean
- An electronic version of the survey questionnaire was created and distributed through the Survey-Hero web platform
- 14,000 surveys were also printed but only distributed in limited amount due to COVID-19
- Timeline
 - Start of survey: February, 2020
 - End of survey: June, 2020

Survey Results

- Of the total 321 completed surveys, the top 3 group of respondents identified as Asian (85), Filipino (63), and Japanese (22)
- 185 respondents identified as female (58%) and 136 of respondents identified as male (42%)
- Average age of respondents were 42 years old, the youngest participant being 18 and the oldest being 90
- 201 respondents made an annual income of \$49,000 or less (63%)

Survey Results (cont'd)

- 185 respondents said preserving their ethnic culture was 'Very Important' (58%)
- 10 respondents said preserving their ethnic culture was 'Not Important' (3%)
- Respondent deemed the following services the most important:
 - Education Programs
 - Healthcare/Wellness
 - Employment/Job Assistance

Challenges

- While the survey was made available in English, Vietnamese, and Korean, it was not translated in other languages. This made it difficult to conduct survey outreach accordingly
- Incomplete surveys (many were not completed on the back page)
- We received a total of 386 surveys:
 - 321 were complete (83%)
 - 171 were manually completed (53%)
 - 150 were completed online (47%)
 - 65 were incomplete (17%)
 - 65 were incomplete online
- Online respondents typically took, on average, 5 minutes and 2 seconds to complete the survey.

Challenges (cont'd)

- Competing factors: COVID-19 and Census 2020
 - During the early stage of the COVID-19 outbreak, the State of Nevada was ordered to shut down. This drastically impacted data collection because social distancing was imposed, making it difficult to conduct further outreach. Priorities also shifted towards mutual aid, which many of our Commissioners were focused on in their respective communities.
 - Data collection also simultaneously occurred with Census 2020 outreach. While the survey included a Census disclaimer – stating that it was separate and not in anyway affiliated with the Census – it inevitably could have been confusing for participants

Recommendation & Conclusion

- Tuan A Pham, AAPICCC Vice Chair

Recommendations

I. Create a Clark County Handbook for AAPI Community

With about 11% and growing of Asian population in the State, a resident handbook, that is translated into native language for each community, is essential because of the following reasons:

1. Introduces residents to our culture, mission, and values.
2. Ensures understanding and compliance with county and state laws
3. Communicates to residents what is expected of them.
4. Educates residents and prospective residents about what they need to know when doing business within the County.
5. Showcases the benefits and supports of living in the County.
6. Provide vital information about the community and where they can turn for help.

Recommendations (cont'd)

II. Create a New Position: Clark County Asian American Liaison Officer.

- Having an in-house Liaison could significantly improve the provision of services to the different ethnic communities in Clark County. Additionally, the Liaison Officer would perform the following duties:
 1. Act as a positive representation of the County to the Asian community
 2. Proactively develop and foster relationships with the Asian community and other entities.
 3. Collaborate and communicate successfully with the community and its businesses.
 4. Work with other County staff members to develop a greater understanding of the community and any issues that arise.
 5. Provide authoritative findings, guidance, and recommendations on county-wide programs.
 6. Monitor, coordinate, and communicate the strategic objectives of the County to the Asian community.

Recommendations (cont'd)

7. Provide education, training and outreach to county staff and the public on important topics and holidays related to AAPI communities such as:
 - The Model Minority Myth, May Day, Aki Matsuri, Independence days, Tet etc.
8. Educate the public about available resources, such as affordable healthcare options, etc.
9. Conduct AAPI Outreach
 - Many members of the AAPI community struggle to access various resources and amenities provided by the county due to language barriers.
10. Provide data disaggregation for the AAPI community
 - Aggregated data only provides “surface-level” information about the AAPI communities.
 - Members of the Community Commission struggled to find public information on the demographic data related to specific AAPI communities.
 - Work with individual county agencies and/or departments to identify limitations and challenges to obtaining key demographic data and identify ways to overcome these limitations.
 - Work with the county to research the possibility of creating a data disaggregation pilot program.

Recommendations (cont'd)

III. Increase AAPI Representation in The Workforce

- Identify what is currently being done to attract AAPI employees and work with other county departments to provide additional outreach to potential AAPI employees.

IV. Have an AAPI community or cultural center so that all resources for the multiple AAPI communities can be accessed in one place and where their ethnic culture can be preserved and promoted.

- Based on the AAPI survey results, 87.5% of the respondents consider the importance of preserving and promoting their ethnic culture.
- Better AAPI outreach programs by way of regular or periodic community service events, job fairs, seminars/workshops, cultural events, in coordination with organizations & community leaders of the various AAPI ethnic communities in the county.

Thank You
