## Meet and Greet

On April 11, Commissioner Segerblom hosted a "Meet and Greet" at the Hollywood Recreation Center. Residents questions were answered regarding the Sloan Channel clean up, Hollywood Boulevard construction and development in Sunrise Manor.

## SLOAN CHANNEL PIPELINE

### Fact Sheet

## Sloan Channel

**THE PROJECT:** The Sloan Channel Pipeline Project involved construction of a concrete pipeline along Sloan Channel from Nellis Air Force Base to Vegas Valley Drive to convey treated water from City of North Las Vegas Water Reclamation Facility to Lake Mead.

**TIMELINE:** Two public meetings were held during the design process in August 2013.

The pipeline started construction in Spring 2014 and was completed in 2015.

## Hollywood Boulevard

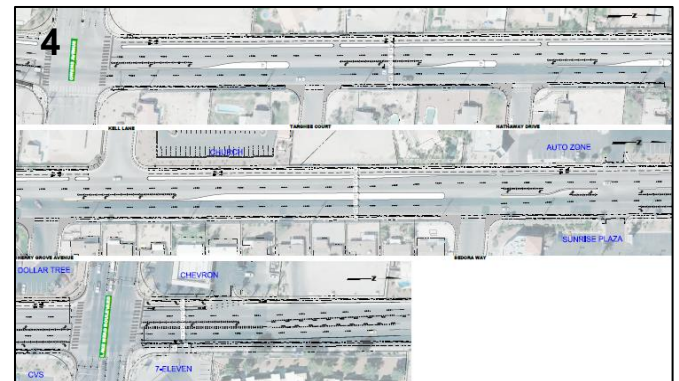

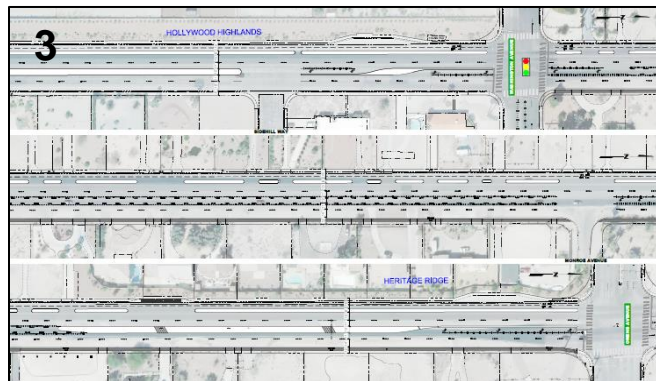

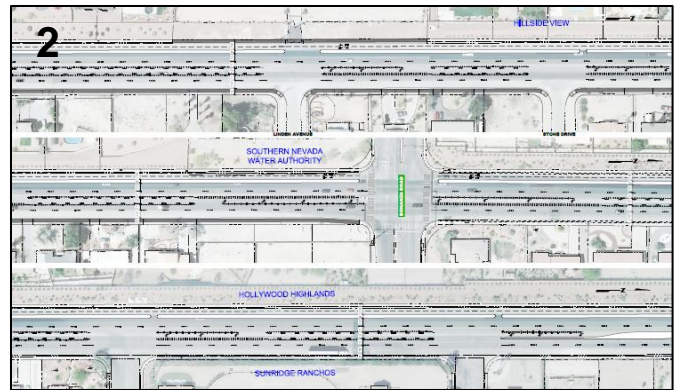

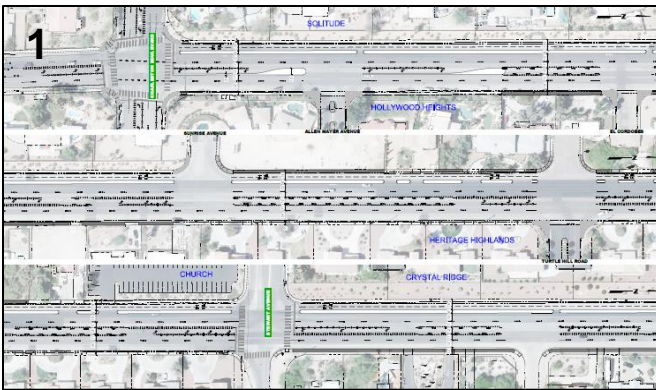

**MAINTENANCE:** Clark County and North Las Vegas have an agreement for maintenance of the pipeline.

The county maintains the channel monthly, or as needed, through contracted services.

We also inspect the channel weekly for pest control.

## Community Cleanup in District E

Commissioner Segerblom, Get Outdoors Nevada, Las Vegas Metro Southeast Area Command and a host of volunteers, picked up garbage along the Flamingo Arroyo Trail on April 13. It was a great turnout, and we will be hosting more cleanups throughout the District in the coming months.

Thank you to everyone who helped collect trash!

## Newsworthy

### Wetlands Park

Commissioner Tick Segerblom, LVMPD and the Clark County School District came together to remind parents and youth to be safe during Spring Break. The reminder is part of an ongoing effort to protect Clark County Wetlands Park from vandalism and crime.

### Code Enforcement

Speaking in front of a burned and boarded-up apartment building just east of the Las Vegas Strip, Commissioner Segerblom called on landlords in older parts of the valley to bring their properties up to code and keep them well-maintained, or face the prospect of inspections, fines and citations.
