<b>Division:</b>	Building Division	<b>Code Interpretation</b>	BD-CI-044
<b>Subject:</b>	Fence Permits	<b>Effective Date:</b>	05/01/2014
<b>Code:</b>	2012 IBC	<b>Revised Date:</b>	New

### A. CODE REQUIREMENT

All fences/retaining walls submitted under the 2012 IBC shall comply with the wind load requirements in Chapter 16 and ASCE 7-10.

### B. INTERPRETATION

The previously approved Southern Nevada Building Officials regional interpretation on wind load exposure category for fences dated January 13, 2011 will not be accepted for projects designed to the 2012 IBC. Any fences/retaining walls that were previously permitted and properly inspected may continue construction through completion using the original design assumptions for the wind exposure category.
