

Clark County Building and Fire Prevention Field Inspection Division **FIELD INSPECTION GUIDELINE**

Division:	Inspections	Policy & Procedure:	FIG-P-004
Subject:	Saddles Installed in Existing Sewers	Effective Date:	10/10/1996
Code:	2018 Uniform Plumbing Code, Section 310.1	Revised Date:	10/01/2020
Proposed:	Matthew Brewer	Approved:	Sam Palmer

Interpretation:

Saddles shall not be used as a drainage fitting in on-site sewer applications, **except** under the following condition.

Field Application:

Saddles may be installed in existing on-site sewers only when connecting into an active (live) line when the upstream load can not be brought to a complete and natural close.

NOTE: This application is not approved for new construction installations.
