FIRE SAFETY BULLETIN

Re: Emergency Radio Communications Enhancement Systems (ERCES)

Date: 03/27/2025

Number: 101

FOR YOUR ATTENTION:

We have posted a draft copy of our new guideline on Emergency Responder Communication Enhancement Systems (ERCES). This guideline will walk you through the process on what is needed to apply, how you apply, plan review expectations, and testing and acceptance procedures.

This guideline is located on the Clark County Fire Prevention Bureau's website, with the library tab under the proposed section.

This is a joint effort between Clark County, City of Las Vegas, City of North Las Vegas, City of Henderson, the Southern Nevada Area Communications Council (SNACC), Las Vegas Metropolitan Police Department, and the Fire Prevention Association of Nevada (FPAN).

This full document will be referenced as part of the upcoming code adoption process. We highly recommend following the steps and procedures within this document, to make your application, plan review, and testing and acceptance as smooth as possible.

Any questions on Clark County specific concerns, please contact us at the email address above.

Tip:

Do you know two ways out of your work area? Knowing two ways out can add vital seconds to your survival in an emergency.
