

FROM THE OFFICE OF  
COMMISSIONER JUSTIN JONES

2022 Annual  
Report

# Commissioner's Message

It is a true honor to be your voice on the Board of Clark County Commissioners. Looking back on 2022, I'm proud of all we've accomplished for Clark County, from adding 60 new positions to the Clark County Fire Department to hosting dozens of events with Metro to opening our latest park in District F (Southwest Ridge Park & Trailhead)!

I make it a top priority to listen to constituents, and this year, we held numerous meetings at the Clark County Government Center with constituents related to zoning matters and public safety and talked with thousands of Nevadans across the District at events and neighborhood meetings.

On the Clark County Commission, my focus is ensuring District F is the best place to live, work, and raise a family. We have added new stoplights, fixed many roads to reduce traffic, improved public safety for all road users, and increased outreach to residents. My team and I are here to serve, and if you or your family needs assistance from our office, I encourage you to reach out.

I am pleased to present this report summarizing our accomplishments in 2022. Thank you for placing your trust in me. I look forward to another productive year serving you on the Clark County Commission.

**JUSTIN JONES**

---

# THIS YEAR IN REVIEW

# 19,482

phone calls and emails were exchanged with constituents.

# 1,989

meetings with constituents, small businesses, and zoning applicants.

# 14,352

requests for assistance from District F residents completed by the Office of Commissioner Jones.

# \$120M

in funding for 30 affordable housing projects that will provide homes to more than 3,100 low-income seniors and working families.

# 640

pounds of trash picked up in our parks in collaboration with Get Outdoors Nevada.

# 19

events with Metro to promote community awareness and reduce crime.

Fiscal Affairs Board**

**BOARD MEMBER - Southern Nevada Water Authority Board of Directors**

**BOARD MEMBER - Colorado River Commission of Nevada**

---

# Delivering Results to District F Residents

## Supporting Small Businesses

We have made great strides this year for the small business community in Clark County. Early on in Commissioner Jones' tenure on the Clark County Commission board, he worked to create Clark County's Office of Community and Economic Development to attract new businesses but to also support existing ones with local, state, and federal resources. This year, we are pleased to announce the new Technical and Economic Assistance Program (TEAP) for small businesses and non-profits within unincorporated Clark County. Small businesses and non-profits with 50 or fewer employees and \$3 million or less in annual revenue may be eligible to receive up to 13 months of customized business mentorship and financial assistance to support recovery, resiliency, and capacity building.

We have created new online tools to promote economic development as well. [BusinessInClarkCounty.com](http://BusinessInClarkCounty.com) is a one-stop shop for existing and prospective businesses to gather information about —

community, learn about potential fees for new projects, or verify proper zoning for a startup business.

There are real-time data points on the Southern Nevada economy and an interactive map showcasing major developments in the area. With Chinatown in District F, we have ensured the website is available in seven Asian and Pacific Islander languages with more in the works!

***"Small businesses are the backbone of our economy. They create jobs and make our neighborhoods more vibrant. I am excited to welcome a diverse mix of new businesses to the southwest valley and look forward to working with them."***

# Parks

There are great things planned for the parks in District F. The improvements include pickleball courts, soccer fields, an events center, and many other new amenities at Desert Breeze, James Regional, and Mountain's Edge Parks. The plans also include inclusive playground areas so kids of all abilities can enjoy the park.

This year, we also celebrated the grand opening of Southwest Ridge Park & Trailhead! The park includes a new neighborhood park with sidewalks, a playground, interpretive and education signage, a trailhead plaza, a parking lot, restrooms, and a turf area.

---

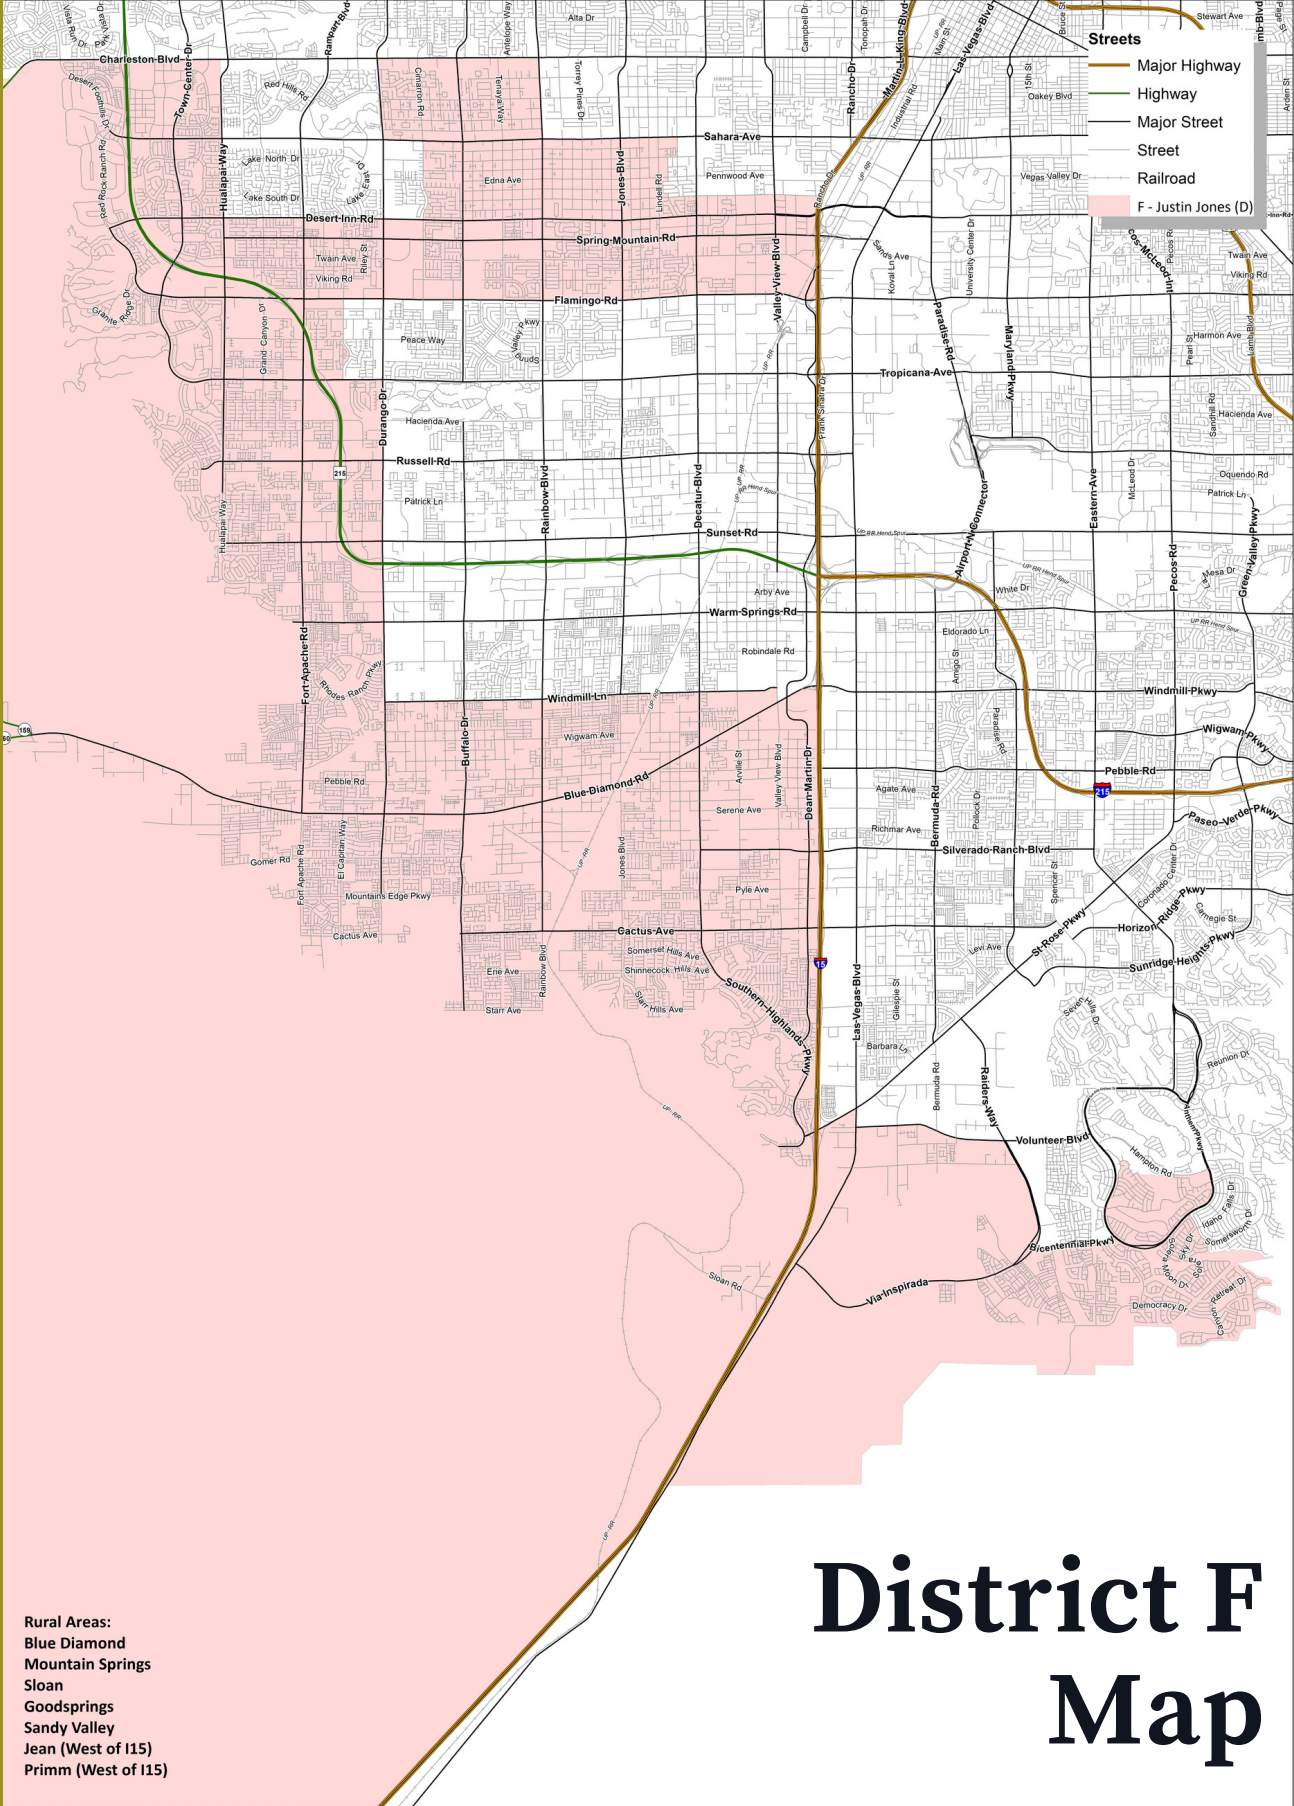

# Public Safety

The southwest valley is much safer thanks to the recent completion of Fire Station 35 near Flamingo Road and Hualapai Way. The Howard Hughes Corporation funded the design, development, and construction of the new fire station and donated the land on which it sits as part of its development agreement with Clark County.

We are also partnering with the Bureau of Land Management, Federal Highways, and the Nevada Department of Transportation to develop Red Rock Legacy Trail, a two-way multi-use trail through Red Rock Canyon National Conservation Area. This trail will allow locals and tourists of every skill level or recreational usage (biking, walking, running, etc.) the opportunity to enjoy a safe, easy-to-follow trail without the danger of automobile traffic.

We also had a lot of victories for pockets of District F, such as adding new medians, a crosswalk, and signage to ensure safety for parents, kids, and school staff at Stuckey Elementary and announcing to the Southern Terrace community additional streetlights, flood channel upgrades, and additional crosswalks. These improvements will ensure District F stays a place for families and businesses to prosper.

# District F Map

# Giving Back

Hosted the largest land cleanup on public lands day at Desert Breeze Park alongside community organizations.

Over 15,000 constituents attended events hosted by our office.

13,450 pounds of fresh food distributed to District F families.

157 dogs and cats were vaccinated and received other veterinary services at our Pet Fest event in Sandy Valley.

Funded \$45.6M for broadband infrastructure and to address deficiencies across Clark County.

Allocated \$30M to advance our water infrastructure, including a Southern Nevada Water Authority Septic System Conversion Pilot Program to connect septic system users to our sewer system, and a Cooling Tower Conversion Program to help businesses convert from swamp coolers to HVAC units.

Hosted the largest School Resource Fair in Clark County at Desert Breeze Community Center with over 4,000 attendees from across the valley.

Teamed up with organizations to plant drought-resistant trees at Desert Breeze Park to combat the heat island effect.
