**QUESTION 1: What did you accomplish during this reporting period?  
How did these accomplishments help you reach the goal of your project?  
If relevant, what indicators or benchmarks were used to determine your progress?**

Quality assurance and quality control procedures are being performed on the 2024 field season data. Interim spatial and aspatial databases were provided to the project manager for review.

**QUESTION 2: What, if any, problems were encountered? Briefly describe those problems and the manner in which they were dealt.**

There were no problems.

**QUESTION 3: What, if any, proposed activities were not completed? Briefly describe those activities, the reasons they were not completed and your plans for carrying them out.**

None.

**QUESTION 4: What is the calculated percent of work completed?**

Project work is spread throughout the year, and we have completed four months of this 2-year project, so approximately 17% of the work has been completed at this time.

**QUESTION 5: Do you foresee any upcoming problems with future project activities? If so, how do you propose to overcome those problems?**

No upcoming problems are anticipated.

**QUESTION 6: Is there anything else you want to tell the DCP about this project?**

No.

**QUESTION 7: What was produced during the reporting period?**

Work to finalize the 2024 field season data (quality assurance and quality control procedures) and interim spatial and aspatial databases were completed during the reporting period.
