MOJAVE MAX EDUCATION PROGRAM EVALUATION
2019-INFORM-1915F

The work for the above referenced project has been completed. Below is a summary of project related information.

The purpose of the above referenced project was:

The purpose of this project was to systematically assess the effectiveness of the Mojave Max program within Clark County elementary schools.

The major accomplishments or findings of this project include:

- Students in select third through fifth grade classrooms completed written and drawing assessments to ascertain to what degree they accomplished some of the intended student learning outcomes.
- Teachers responded to a survey and participated in focus groups to further discuss their program experience and share ideas for the future.
- Analysis of the data identified that overall the program is effective, with just a few key takeaways to consider in the future design and implementation of the Mojave Max program.
- An Evaluation Summary Report was completed.
