DESERT CONSERVATION PROGRAM PROJECT COMPLETION SUMMARY:  
**RANGE-WIDE MONITORING OF THE MOJAVE DESERT TORTOISE**  
**2019-USFWS-1920C**

The work for the above reference project has been completed. Below is a summary of project related information.

**The purpose of the above referenced project was:**

The purpose of this project was to analyze survey data collected under project 2015-GBI-1541B to describe population trends in areas where Mojave Desert Tortoise (*Gopherus agassizii*) recovery will be evaluated.

**The major accomplishments or findings of this project include:**

This project resulted in 3 population estimate for each Tortoise Conservation Area located within Nevada over a 5 year period. The project also provided training and an additional layer of Quality Control/Quality Assurance for the data collected under 2015-GBI-1541B
