1.0 30-DAY PUBLIC COMMENT PERIOD

1.1 NOTICE OF PUBLIC COMMENT AND PUBLIC HEARING

NOTICE OF PUBLIC COMMENT PERIOD AND PUBLIC HEARING ON THE PROPOSED OZONE STATE IMPLEMENTATION PLAN REVISION

NOTICE IS HEREBY GIVEN of a public comment period and public hearing on the proposed *Revision to Motor Vehicle Emissions Budgets for the 1997 Ozone NAAQS: Clark County, Nevada* (O₃ SIP Revision). On August 27, 2019, the U.S. Environmental Protection Agency (EPA) conditionally approved Clark County's *Revision to Motor Vehicle Emissions Budgets in Ozone Redesignation Request and Maintenance Plan* (2018 Ozone Maintenance Plan Revision) based on the County's commitment to submit a state implementation plan (SIP) revision to reduce the safety margin allocations for the motor vehicle emission budgets (MVEBs) contained in the plan within one year. The purpose of this SIP revision is to reduce the MVEBs safety margin allocations to ensure that the 2018 Ozone Maintenance Plan Revision, when revised, will not interfere with reasonable further progress or attainment of the 2008 and 2015 ozone NAAQS. This revision updates the emissions inventory and approved MVEBs for volatile organic compounds and nitrogen oxides contained in the 2018 Ozone Maintenance Plan Revision. Once approved, the updated MVEBs will become the projected budgets the Regional Transportation Commission of Southern Nevada uses to determine future transportation conformity under Section 176(c) of the Clean Air Act.

NOTICE IS FURTHER GIVEN that a 30-day public comment period will begin on June 26, 2020, and end at 4:00 PM on July 27, 2020. The public may review and provide written comments on the proposed O₃ SIP Revision during this period. The Board of County Commissioners will consider the proposed SIP revision, along with all written and any oral public comments, at a public hearing at 10:00 AM on August 18, 2020, in the Commission Chambers, Clark County Government Center, 500 S. Grand Central Parkway, Las Vegas, NV.

A copy of the proposed O₃ SIP Revision is available on the Department of Environment and Sustainability website at: <http://www.clarkcountynv.gov/airquality/Pages/default.aspx> and may also be obtained by contacting Araceli Pruett at (702) 455-3206.

Any written comments must be submitted no later than 4:00 PM on July 27, 2020. Comments should be addressed to Araceli Pruett at the mailing address given above or sent via email to araceli.pruett@clarkcountynv.gov or via fax to (702) 383-9994.

6/25/2020 PUBLIC NOTICE - PROPOSED SIP REVISION FOR 1997 OZONE NAAQS

DES welcomes comments on the proposed *Revision to Motor Vehicle Emissions Budgets for the 1997 Ozone NAAQS: Clark County, Nevada* (O₃ SIP Revision). The proposed revision updates the emissions inventory and approved motor vehicles emissions budgets for volatile organic compounds and nitrogen oxides contained in the *Revision to Motor Vehicle Emissions Budgets in Ozone Redesignation Request and Maintenance Plan: Clark County, Nevada* for the 1997 8-hour ozone standard. If adopted, this O₃ SIP Revision will be submitted to the state of Nevada and U.S. Environmental Protection Agency as a revision to the Nevada State Implementation Plan.

1.6 E-NOTICE

From: [Araceli Pruett](#)
Subject: NOTICE OF PUBLIC COMMENT PERIOD ON THE PROPOSED OZONE STATE IMPLEMENTATION PLAN REVISION
Date: Thursday, June 25, 2020 2:04:45 PM

NOTICE IS HEREBY GIVEN of a public comment period and public hearing on the proposed *Revision to Motor Vehicle Emissions Budgets for the 1997 Ozone NAAQS: Clark County, Nevada* (O₃ SIP Revision). On August 27, 2019, the U.S. Environmental Protection Agency (EPA) conditionally approved Clark County's *Revision to Motor Vehicle Emissions Budgets in Ozone Redesignation Request and Maintenance Plan* (2018 Ozone Maintenance Plan Revision) based on the County's commitment to submit a state implementation plan (SIP) revision to reduce the safety margin allocations for the motor vehicle emission budgets (MVEBs) contained in the plan within one year. The purpose of this SIP revision is to reduce the MVEBs safety margin allocations to ensure that the 2018 Ozone Maintenance Plan Revision, when revised, will not interfere with reasonable further progress or attainment of the 2008 and 2015 ozone NAAQS. This revision updates the emissions inventory and approved MVEBs for volatile organic compounds and nitrogen oxides contained in the 2018 Ozone Maintenance Plan Revision. Once approved, the updated MVEBs will become the projected budgets the Regional Transportation Commission of Southern Nevada uses to determine future transportation conformity under Section 176(c) of the Clean Air Act.

NOTICE IS FURTHER GIVEN that a 30-day public comment period will begin on June 26, 2020, and end at 4:00 PM on July 27, 2020. The public may review and provide written comments on the proposed O₃ SIP Revision during this period. The Board of County Commissioners will consider the proposed SIP revision, along with all written and any oral public comments, at a public hearing at 10:00 AM on August 18, 2020, in the Commission Chambers, Clark County Government Center, 500 S. Grand Central Parkway, Las Vegas, NV.

A copy of the proposed O₃ SIP Revision is available on the Department of Environment and Sustainability website at: <http://www.clarkcountynv.gov/airquality/Pages/default.aspx> and may also be obtained by contacting Araceli Pruett at (702) 455-3206.

Any written comments must be submitted no later than 4:00 PM on July 27, 2020. Comments should be addressed to Araceli Pruett at the mailing address given above or sent via email to araceli.pruett@clarkcountynv.gov or via fax to (702) 383-9994.

2.0 BOARD OF COUNTY COMMISSIONERS MEETING – 8/4/2020 (SET PUBLIC HEARING)

2.1 AGENDA ITEM

CLARK COUNTY BOARD OF COMMISSIONERS AGENDA ITEM

Petitioner: Marci Henson, Director, Department of Environment and Sustainability

Recommendation:

Set a public hearing on August 18, 2020, at 10:00 a.m. to approve, adopt, and authorize submittal of the proposed “Revision to Motor Vehicle Emissions Budgets for the 1997 Ozone NAAQS: Clark County, Nevada” to the State of Nevada and the U.S. Environmental Protection Agency for review and approval as a revision to the Nevada State Implementation Plan. (For possible action)

FISCAL IMPACT:

Fund #:	N/A	Fund Name:	N/A
Fund Center:	N/A	Funded PGM/Grant:	N/A
Amount:	N/A		
Description:	N/A		
Additional Comments:	N/A		

BACKGROUND:

On October 16, 2018, the Board of County Commissioners (Board) adopted the Clark County Revision to Motor Vehicle Emissions Budgets in Ozone Redesignation Request and Maintenance Plan (2018 Ozone Maintenance Plan Revision) for the 1997 8-hour ozone National Ambient Air Quality Standard (NAAQS). The U.S. Environmental Protection Agency (EPA) conditionally approved the 2018 Ozone Maintenance Plan Revision on August 27, 2019, based on the County’s commitment to submit a state implementation plan (SIP) revision to reduce the safety margin allocations for the motor vehicle emission budgets (MVEBs) contained in the plan within one year. EPA’s conditional approval became effective on September 26, 2019.

The purpose of this SIP revision is to reduce the MVEBs safety margin allocations to ensure that the 2018 Ozone Maintenance Plan Revision, when revised, will not interfere with reasonable further progress or attainment of the 2008 and 2015 ozone NAAQS. This revision updates the emissions inventory and approved MVEBs for volatile organic compounds and nitrogen oxides contained in the 2018 Ozone Maintenance Plan Revision. The Regional Transportation Commission of Southern Nevada (RTC) is responsible for determining the conformity of regional transportation plans, programs, and projects to approved SIP budgets. Once approved, the updated MVEBs will become the projected budgets the RTC uses to determine future transportation conformity under Section 176(e) of the Clean Air Act.

The proposed SIP revision was made available for public comment from June 26 through July 27, 2020. A public hearing on August 18, 2020, will provide the public with an additional opportunity to provide comments on the proposed revision.

3.0 BOARD OF COUNTY COMMISSIONERS MEETING – 8/18/2020 (CONDUCT PUBLIC HEARING)

3.1 AGENDA ITEM

CLARK COUNTY BOARD OF COMMISSIONERS AGENDA ITEM

Petitioner: Marci Henson, Director, Department of Environment and Sustainability

Recommendation:

Conduct a public hearing; approve, adopt, and authorize the “Revision to Motor Vehicle Emissions Budgets for the 1997 Ozone NAAQS: Clark County, Nevada;” and authorize the Director or her designee to submit the Revision, including any relevant public comments, to the State of Nevada and the U.S. Environmental Protection Agency for review and approval as a revision to the Nevada State Implementation Plan. (For possible action)

FISCAL IMPACT:

Fund #:	N/A	Fund Name:	N/A
Fund Center:	N/A	Funded PGM/Grant:	N/A
Amount:	N/A		
Description:	N/A		
Additional Comments:	N/A		

BACKGROUND:

On October 16, 2018, the Board of County Commissioners (Board) adopted the Clark County Revision to Motor Vehicle Emissions Budgets in Ozone Redesignation Request and Maintenance Plan (2018 Ozone Maintenance Plan Revision) for the 1997 8-hour ozone National Ambient Air Quality Standard (NAAQS). The U.S. Environmental Protection Agency (EPA) conditionally approved the 2018 Ozone Maintenance Plan Revision on August 27, 2019, based on the County’s commitment to submit a state implementation plan (SIP) revision to reduce the safety margin allocations for the motor vehicle emission budgets (MVEBs) contained in the plan within one year. EPA’s conditional approval became effective on September 26, 2019.

The purpose of this SIP revision is to reduce the MVEBs safety margin allocations to ensure that the 2018 Ozone Maintenance Plan Revision, when revised, will not interfere with reasonable further progress or attainment of the 2008 and 2015 ozone NAAQS. With respect to this SIP revision, the safety margin is the difference between the total projected emissions from all sources of volatile organic compounds (VOC) and nitrogen oxides (NOx) in the 2022 maintenance year and the actual total emissions of VOC and NOx in the 2017 attainment year (2008 ozone NAAQS). This revision updates the emissions inventory and approved MVEBs for VOC and NOx contained in the 2018 Ozone Maintenance Plan Revision. The Regional Transportation Commission of Southern Nevada (RTC) is responsible for determining the conformity of regional transportation plans, programs, and projects to approved SIP budgets. Once approved, the updated MVEBs will become the projected budgets the RTC will use to determine future transportation conformity under Section 176(c) of the Clean Air Act.

The proposed SIP revision was made available for public comment from June 26 through July 27, 2020, on the Department of Environment and Sustainability and Clark County websites. No comments were received. Staff requests the Board approve and adopt this SIP revision and authorize staff to submit it to the State of Nevada and EPA for approval as a revision to the Nevada SIP.
