Independent Auditor's Report

To the Board of Trustees
Clark County, Nevada OPEB Trust Fund
Las Vegas, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the Clark County, Nevada OPEB Trust Fund (the Plan), which comprise the statement of fiduciary net position as of June 30, 2019, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Clark County, Nevada OPEB Trust Fund as of June 30, 2019, and the changes in the fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, on pages 3 through 5, the schedules of changes in the net OPEB liability and related ratios, the schedules of contributions, and the schedules of investment returns on pages 14 through 19, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

County's net OPEB liability	<u>\$ 66,684,328</u>	<u>\$ 14,738,290</u>	<u>\$ 81,422,618</u>
Plan fiduciary net position as a percentage of the total OPEB liability	61.33%	67.86%	62.70%

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, with a measurement date as of June 30, 2019, using the following actuarial assumptions applied to all periods included in the measurement, for the Clark County Self-Funded and the Department of Aviation Self-Funded, unless otherwise specified:

Inflation	2.00%
Salary increases	3.00%
Investment rate of return	7.50%
Healthcare cost trend rates*	
Pre-Medicare	6.50% initial 4.50% ultimate
Post-Medicare	5.50% initial 4.50% ultimate
Mortality rates	RP-2014 generational table, back-projected to 2006, then scaled using MP-2018, applied on a gender-specific basis

*Healthcare cost trend rate fluctuates each year until ultimate trend rate is reached.

The actuarial assumptions used in the June 30, 2018, with a measurement date of June 30, 2019, were based on actual census data.

Discount rate: The discount rates used to measure the total OPEB liability were 4.84% and 5.26% for the Clark County Self-Funded and the Department of Aviation Self-Funded which is an increase from 4.79% and 4.57% in fiscal year 2018, respectively. These are based on the blending of the long-term expected return on assets of the Plan and the municipal bond rate.

Based on those assumptions, the OPEB Plan's assets were projected to be sufficient to make projected future benefit payments for current plan members through 2047 and 2051 for the Clark County Self-Funded and the Department of Aviation Self-Funded, respectively. Payments after that date would be funded by Employer assets. Therefore, the long-term expected rate of return on Plan investments (7.50%) was applied to periods of projected benefit payments through 2047 and 2051 for the Clark County Self-Funded and the Department of Aviation Self-Funded, respectively; once the benefits are exhausted the 3.50% municipal bond rate was used.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plan, as well as what the Plan's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	<u>1% Decrease Discount Rate*</u>	<u>Discount Rate*</u>	<u>1% Increase Discount Rate*</u>
Clark County Self-Funded Net OPEB Liability	\$ 101,986,000	\$ 66,684,000	\$ 39,214,000
Department of Aviation Self-Funded Net OPEB liability	\$ 24,127,000	\$ 14,738,000	\$ 7,432,000

*Amounts presented are rounded to the nearest thousandth.

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the Plan, as well as what the Plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<u>1% Decrease Healthcare Costs Trend Rates*</u>	<u>Current Healthcare Costs Trend Rates*</u>	<u>1% Increase Healthcare Costs Trend Rates*</u>
Clark County Self-Funded Net OPEB Liability	\$ 36,039,000	\$ 66,684,000	\$ 107,291,000
Department of Aviation Self-Funded Net OPEB liability	\$ 6,588,000	\$ 14,738,000	\$ 25,538,000

*Amounts presented are rounded to the nearest thousandth.

Note 5 - Subsequent Events of the Plan

Subsequent to year-end, the United States and global markets experienced significant volatility resulting from uncertainty caused by the world-wide coronavirus pandemic. The Plan's management is closely monitoring its investment portfolio and its liquidity and is actively working to minimize the impact. The Plan's financial statements do not include adjustments to fair value that have resulted from this volatility.

What Will It Take to Get the Fed to Hike? INFLATION!

Clarida affirms what the Fed said last week. Rates stay near zero until a three-part test is met:

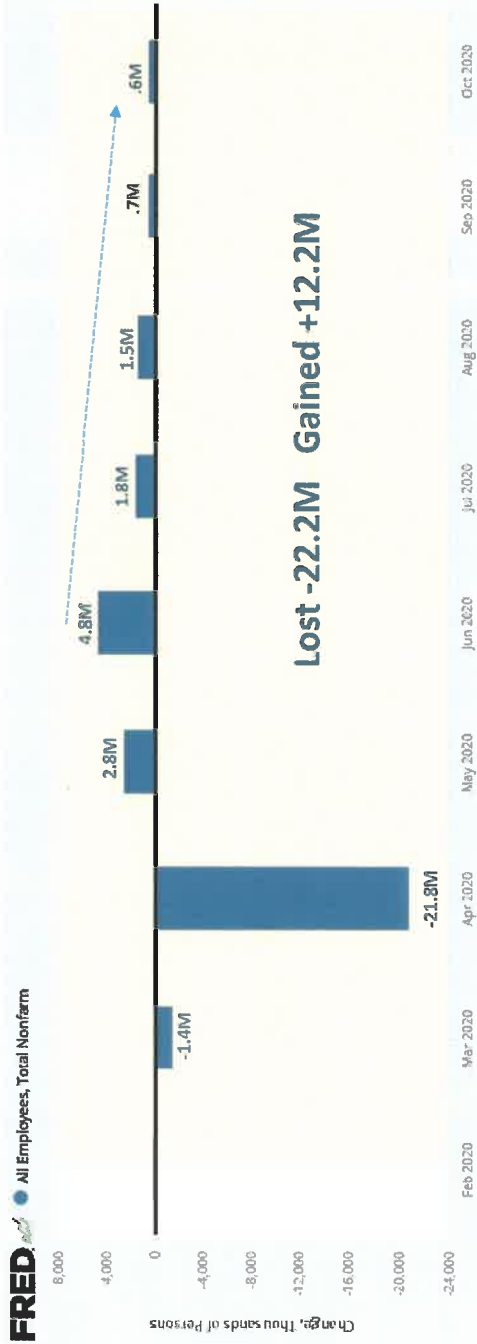

- ➔ 1) Year-over-year PCE hits 2%
- ➔ 2) FOMC has evidence that this isn't a one quarter deal; sees inflation running moderately above 2%
- ➔ 3) Labor market data show max employment is reached

Inflation and Interest Rates Correlation

Will Commodities Pull Interest Rates Higher?

Money Supply (M2) Has Skyrocketed on a Nominal and YOY % Basis

M1 consists of: (1) currency outside the U.S. Treasury, Federal Reserve Banks, and the vaults of depository institutions; (2) traveler's checks of nonbank issuers; (3) demand deposits; and (4) other checkable deposits (OCDs), which consist primarily of negotiable order of withdrawal (NOW) accounts at depository institutions and credit union share draft accounts.

M2 includes a broader set of financial assets held principally by households. M2 consists of M1 plus: (1) savings deposits (which include money market deposit accounts, or MMDAs); (2) small-denomination time deposits (time deposits in amounts of less than \$100,000); and (3) balances in retail money market mutual funds (MMMFs).

Personal Saving Rate and C & I Loans Jump

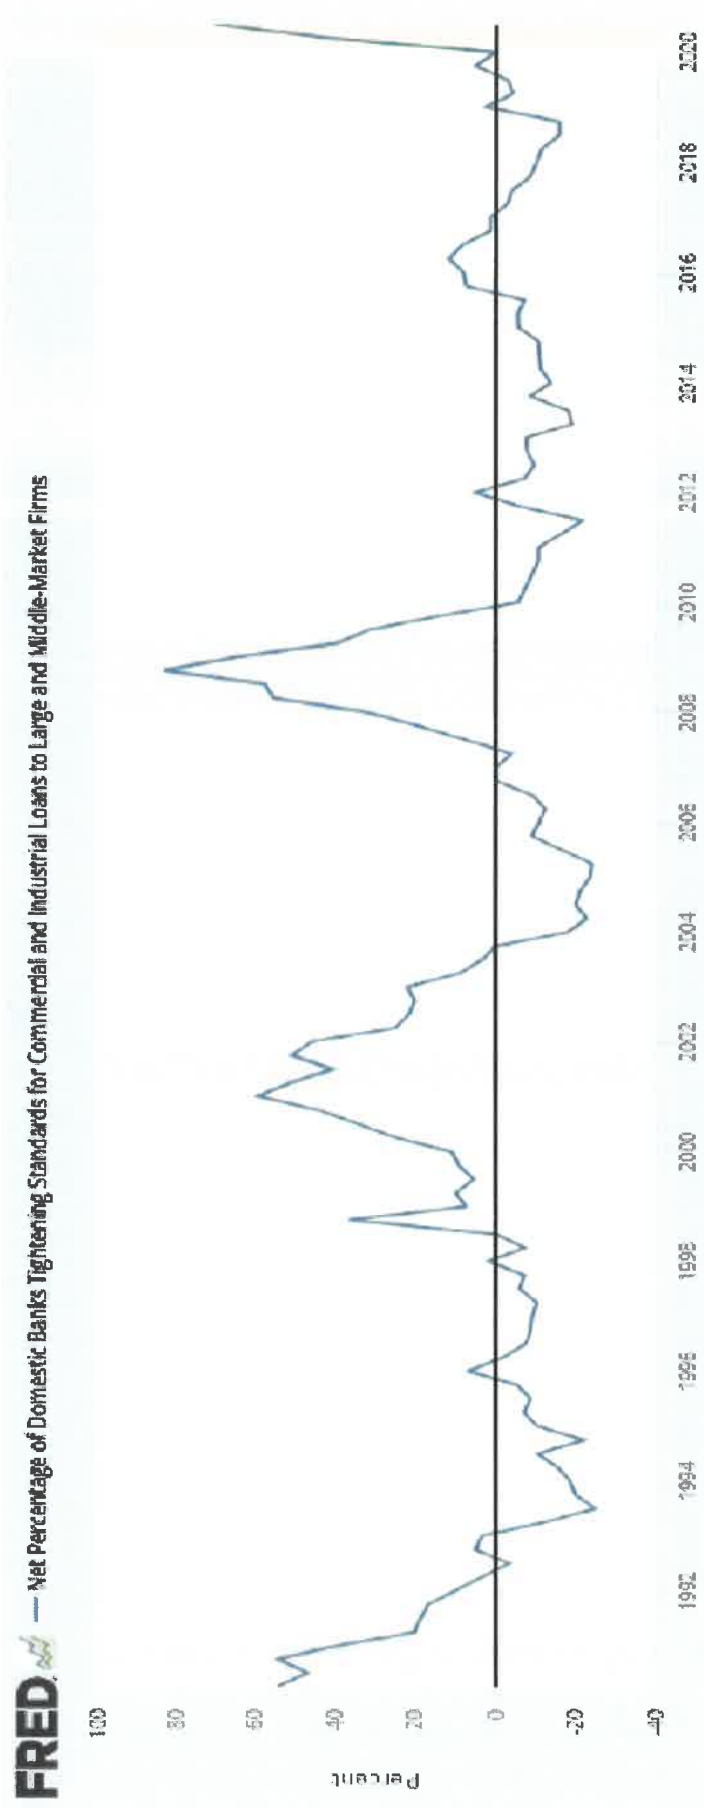

But the Velocity of Money Has Slow to Near Record Low Levels

The velocity of money is the frequency at which one unit of currency is used to purchase domestically- produced goods and services within a given time period. In other words, it is **the number of times one dollar is spent to buy goods and services per unit of time**. If the velocity of money is increasing, then more transactions are occurring between individuals in an economy.

Longer Treasury Yields Jump Above the “Yield Curve Control Zone”

U.S. Treasury Yields

The 10-year Treasury continues to defend the 1% line in the sand while the S&P/NASDAQ give up ground. Why? In a word, uncertainty ...

Stimulus:

- McConnell is calling for smaller stimulus after Pfizer vaccine data
 - Pelosi says smaller stimulus is not of any interest to her

Election:

- The General Services Administration (GSA) will not transfer power until a “clear winner is clear based on the process laid out in the Constitution”
 - McConnell says Trump within rights to challenge election results

Vaccine:

- Yesterday Biden urged caution saying that it would be “many more months” before widespread vaccination is available
 - “Given more tests are needed, then the approval process. Manufacturing and distribution would mean the vaccine, if truly effective, is still months away from mass deployment.”
 - chief Asia market strategist at JPMorgan Asset Management
