

CAPITAL IMPROVEMENT PROGRAM

Clark County's Capital Improvement Program (CIP) is a five-year plan which is reviewed and updated annually in conjunction with the preparation of the County's operating budget. The CIP describes the projects and programs within the Governmental Fund and the Proprietary Fund categories.

Capital Improvement Program and Final Budget Reconciliation	224

Capital Budget Process

The Capital Improvement Program (CIP) is a multi-year plan for financing infrastructure improvements, government facility construction improvements, and equipment acquisition. The goals of the program are as follows:

- Assess capital needs;
- Identify funding sources for those capital projects/programs that ultimately will provide the greatest return on investment in terms of meeting the increasing demand for infrastructure, public facilities, and services;
- Establish priorities among projects to increase the utility of County resources; and
- Improve financial planning through disclosure of future bond issues and assessment of fiscal impact.

Needs Assessment

In conjunction with the department's operational plan and preparation of their annual budget, each department is required to submit a five-year CIP plan. Each plan must assist the department in accomplishing its goals and objectives. The consolidated CIP requests are evaluated based upon countywide priorities and criteria. Generally, requests are segregated into two categories:

A. General Fund Projects: General Fund requests are divided into short-term and long-term projects.

1. Short-Term Projects

This category of projects includes:

- a) General fixed assets with a relatively short life such as information technology related equipment and software, vehicles and furniture;
- b) Facility renovations and major maintenance programs such as funding for countywide roof repairs, painting, and flooring; and
- c) Public safety for life safety projects such as hazardous material abatement and air quality control program.

Funding is not available for all short-term requests. Short-term capital expenditure requests are submitted annually. Departments must resubmit in subsequent years requests that are not funded. A prioritized list of unfunded projects is maintained throughout the fiscal year. On occasion, additional projects may be funded through unanticipated resources or residual project balances.

2. Long-Term Projects

This category is primarily for infrastructure projects such as roadways, flood control, the Fire Department's long-term plan, and regional parks and recreation centers. Long-term projects requiring a substantial source of funding will typically require some type of long-term financing.

The County Capital Projects Fund (4370) is the primary source of capital resources for General Fund department capital projects. Funding sources include budgeted transfers and unanticipated revenues and monies resulting from position vacancies and cost containment measures.

Capital Budget Process

B. Non-General Fund Projects: Typically, these requests are exclusive of General Fund capital resources and have a designated funding source. Funding may be derived from a number of sources including the following:

- 1) Proceeds from long-term debt: For example, general obligation bonds issued for financing a comprehensive Master Transportation Plan (MTP) for the County's existing and future transportation improvement needs.
- 2) Equity funding: Examples include a residential construction tax to support Parks and Recreation capital improvements, administrative assessment fees for Justice Courts capital improvements, a one percent motor vehicle privilege tax (MVPT), or a residential/commercial development tax to fund the MTP. The latter two funding sources have been leveraged through bond sales and, in part, are used to fund projects on an equity basis.
- 3) Proceeds of state or federal grants, or revenues derived from special legislation. Examples include Community Development Block Grants to support community development projects, or Southern Nevada Public Land Management Act (SNPLMA) distribution of funds to support the development of parks and trail improvements in Southern Nevada.

Capital Budget Preparation

The preparation and refinement of the CIP is an ongoing annual process that formally begins with the distribution of the five-year CIP instructions to departments in October. Departments submit their capital expenditure request to the Department of Finance during the following month.

Selection Process: The Budget and Financial Planning Division of the Department of Finance aggregate each department's five-year capital requests and develop a Countywide consolidated listing. The requests are then assessed based upon Countywide priorities, selection criteria, and rating systems. Additionally, other factors such as the alignment with the County's master plan, Countywide priorities, regional planning coalition, and availability of funding are taken into consideration.

Ratings for both General and Non-General Fund requests are forwarded to the County Manager's Office for further review and prioritization. The Manager and his executive team formulate recommendations on a Countywide basis for presentation and consideration by the Board of County Commissioners (BCC).

Capital Project Selection Criteria

Selection criteria are essential to the process of establishing priorities and allocating limited resources. In reviewing CIP requests, the following criteria are used by the Budget and Financial Planning Division and County management in formulating recommendations to the BCC:

- A. **Core Projects:** Projects that must be funded and meet at least one of the following criteria:
1. **Critical to Remediating or Preventing a Major Health/Safety Hazard**
For example, removal of an underground-contaminated substance from soil or groundwater at a County facility.
 2. **Legally Mandated**
For example, compliance with the federally mandated Americans with Disabilities Act.
 3. **Essential to Completing a Project Phase**
For example, augmenting the resources that were allocated to fund the construction of a government facility in the prior period. Conversely, improvement and enhancement of that facility would not fall into the core project list.
- B. **Essential Projects:** Projects that are essential in order for the County to provide services and ranked as a top priority by departments in their CIP requests. The priority of projects are based on the following criteria in order of importance:
1. **Positive Fiscal Impact**
A project that creates revenues or identifiable savings in excess of the project cost and is justified by a cost-benefit analysis. For projects with a cost exceeding \$100K, a detailed cost-benefit analysis must be submitted before CIP consideration is given. The cost-benefit analysis must be submitted with the capital request.
 2. **Outside Agency Grants**
A project that is recommended by the Community Development Advisory Committee.
 3. **Facilities/Equipment Maintenance or Replacement**
A maintenance or replacement program essential to avoid a predicted failure in the near future.
 4. **Conformance with Plans/Policies**
A project that implements a specific written policy/plan which has been adopted by the BCC, for example, the Economic Disparity Study.
 5. **Project Interdependence**
A project that interrelates with other projects or programs, for example, required furniture for a newly completed building.
 6. **Severity of Foregoing the Project**
Service levels will be severely impacted as a result of not going forward with the project.
 7. **Leverage**
County funds provide committed federal or state grants at a ratio of 1:3 or greater.
- C. **Discretionary Projects:** When discretionary funds are available after meeting the aforementioned criteria, consideration will be given to the following projects:
- a. **Automation**
A project that will address automation and indicate an overriding benefit to the County.
 - b. **Optional Remodeling or Construction and Office Equipment/Furniture**
A project or program that will improve productivity and enhance morale.

Capital Improvement Program - Rating System

The CIP rating system was developed as a tool to evaluate capital requests. The rating system is designed to identify critical capital budget needs to ensure that scarce resources are committed to the most important capital investments. During the preliminary review process, the technical committee assigns a score to each capital budget request based on three rating criteria (see A, B, and C below). This scoring system serves as a planning tool for project prioritization. After the preliminary evaluation, a comprehensive list is forwarded to County management for further consideration.

A. Public Health/Safety, Mandated Program, BCC Irrevocable Commitment, Phase Completion

Points

- 20 -- Urgent to meet emergency situations to remedy or prevent a major health/safety hazard.
- 19 -- Essential to remedy or prevent a major health/safety hazard, otherwise an immediate hazard is foreseen; essential to comply with legally mandated programs, otherwise a penalty will be enforced; essential to comply with irrevocable commitment by the BCC.
- 15 -- Essential to complete a project phase, otherwise the program/system will not be operational.
- 6 -- Very high positive economic impact, ongoing support by the BCC for County grants match and outside agency grants; project identified as highest priorities by the BCC and County Manager; potential hazard, deferral of the project would increase significant level of hazard.
- 3 -- Potential hazard, deferral of the project would not increase significant level of hazard.
- 0 -- Project does not apply to the aforementioned criteria.

B. Service Delivery, Fiscal Impact, Leverage

Points

- 7 -- Project creates revenues or identifiable savings in excess of the project cost and is justified by a cost-benefit analysis. Implementation plans of the project are required prior to capital allocation, and cost savings reduce the base-operating budget.
- 6 -- Project/program significantly improves service delivery, which will substantially reduce subsequent operating or capital costs; County funds are reimbursed by the federal or state government at a rate of 50% or greater.
- 5 -- Project/program significantly improves service delivery and will be utilized by multiple departments with little or no impact on future operating or capital costs (less than \$20K/year); essential operating capital to meet service growth and/or mandated programs.
- 4 -- Project/program significantly improves service delivery with no impact on future operating or capital costs; (less than \$10K/year); County funds are reimbursed by the federal or state government at a rate less than 50%.
- 3 -- Project/program improves service delivery with no impact on future operating or capital costs; operating capital essential to meet service growth and/or mandated programs.
- 2 -- Project/program improves service delivery with moderate impact on future operating or capital costs; operating or capital costs (\$10K-\$50K/year).
- 1 -- Project/program significantly improves service delivery with high impact on future operating or capital costs (more than \$50K/year).
- 0 -- Project/program does not significantly improve service delivery; project balance available for annual program; project requires future study before consideration.

Capital Budget Process

C. Maintenance/Replacement Project Interdependence, Severity of Foregoing Project, Conformance with Plan/Policies

Points

- 6 -- Urgent maintenance, material or equipment has already failed; project implements a written policy/plan which has been adopted by the BCC; project or program is essential and highly interrelated to irrevocably committed project.
 - 4 -- An annual maintenance or replacement program, essential to avoid a predicted material failure in the immediate future; project conforms to a written policy/plan which has been adopted by the BCC.
 - 2 -- Necessary maintenance or replacement, deferral will result in significantly increased cost to the County (\$50K or greater); project conforms to a written departmental plan/policy; project is an annual program necessary to avoid a predicted failure.
 - 1 -- Necessary maintenance or replacement, deferral will not result in significantly increased cost to the County; project conforms to established departmental practices.
 - 0 -- Not applicable, adds new asset; project does not relate to or partially/fully conflict with a written plan/ policy.
- N/R -- Not Rated, project or program dos not support the countywide strategic plan.

The CIP rating system serves as an effective tool for determining which capital items are appropriate for consideration in the CIP.

Primary consideration is given to capital projects which are necessary to eliminate safety or health hazards, mandated by law, essential to comply with irrevocable commitments by the BCC, essential to complete a project phase, or deemed to have a very high positive economic impact. Secondary consideration is given to projects which are justifiable through a cost-benefit analysis that significantly improve service delivery, leverage funding from other sources such as federal or state reimbursements, or require urgent maintenance.

Capital Improvement Program - Scope

The CIP represents a five-year planning horizon – FY 2015-16 through FY 2019-20. Projects with expenditure activity in FY 2013-14 or FY 2014-15 are considered to be active projects, except for bond-funded projects, which include all activities from the inception of the issuance of the bonds. This information is included to represent a comprehensive view of total project costs.

Annual maintenance and replacement programs, such as facilities maintenance and vehicle replacement, reflect only prior year activity from FY 2013-14, estimated FY 2014-15 and budgeted FY 2015-16 sources and uses of funds for the annual maintenance and replacement programs. If a project was active in FY 2014-15, but will not be in FY 2015-16, the FY 2014-15 and prior fiscal years' activities are included to present the comprehensive project costs.

Major programs and projects are considered to be projects with costs of approximately \$1M.

Five-Year Capital Improvement Program Summary

Overview of Capital Improvement Program - Sources and Uses of Funds

Sources and uses of funds for Clark County's five-year Capital Improvement Program (CIP) are shown in the following table. The information includes sources and uses for funds for active projects for a five-year planning horizon; FY 2015-16 through FY 2019-20. Prior years' activities, as well as FY 2014-15 estimates, are included to present a comprehensive view of total project costs.

A total of approximately \$9.2B in funding sources are identified. The County's primary sources of capital funding are from bond proceeds (39.8%), fees and charges (30.9%) and taxes (7.6%). Taxes include residential/commercial development tax, motor vehicle privilege tax, motor vehicle fuel tax, room tax, sales & use tax, special assessments, residential construction tax, and jet aviation fuel tax. The County's CIP identifies a total of approximately \$8.7B in project costs, with proprietary-funded capital improvement projects, primarily from McCarran International Airport and the Clark County Water Reclamation District, accounting for the largest identified need of 62.3% followed by road/flood control related capital projects representing 27.6%.

Capital Improvement Program - Source and Uses for Funds (\$ million)

Five-Year Capital Improvement Program Summary

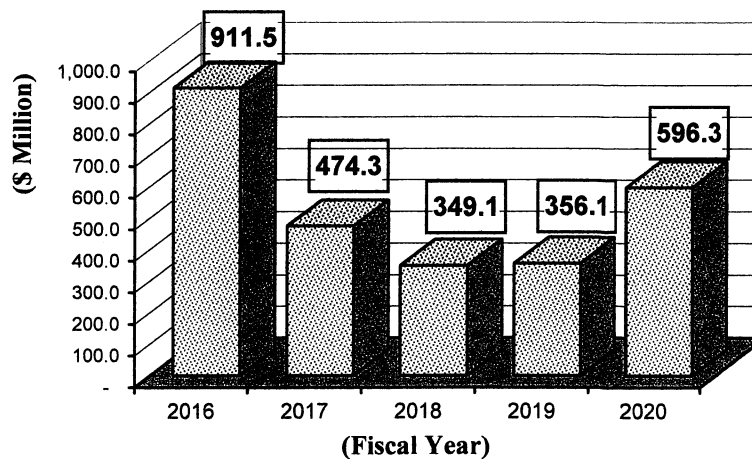

The CIP for FY 2015-16 through FY 2019-20 is categorized by function as follows:

	<u>Million</u>	<u>Percent</u>
Road Construction	\$ 1,195.6	44.5%
Proprietary Funds	1,123.6	41.8%
Public Safety & Criminal Justice	147.2	5.5%
Parks and Recreation	90.5	3.4%
General Government	64.7	2.4%
Grants and Community Resources	48.9	1.8%
Health & Welfare	<u>16.8</u>	<u>0.6%</u>
Total	<u>\$ 2,687.3</u>	<u>100.0%</u>

The following graph summarizes the projected cumulative CIP for the five-year period by adding each year's CIP to the total previous years' projected total.

This graph isolates each fiscal year's projected CIP. Major capital improvement projects are planned in FY 2015-16 for the Las Vegas Beltway, the Strip Resort Corridor, the McCarran International Airport, and the Clark County Water Reclamation District.

Five-Year Capital Improvement Program Summary

Funding Sources for the County's Long-Term Capital Improvement Program

The County's financial capacity to support its CIP depends on the availability of designated revenue sources and its ability to issue bonds. Following approval of an advisory question by voters in the November 1990 general election, the 1991 Nevada State Legislature was asked to support the passage of Senate Bill 112 which includes six revenue sources to support the County's Master Transportation Plan (MTP). The six revenue sources are: (1) a one percent room tax for resort corridor projects; (2) a one percent motor vehicle privilege tax (MVPT); (3) a residential/commercial development tax for streets and highways; (4) a one-half of one percent sales tax; (5) a five-cent motor vehicle fuel tax (MVFT) for mass transit; and (6) a four-cent jet aviation fuel tax for airport access. The County leveraged the majority of this new authority through long-term debt issuance. The following sections highlight the major sources of funds.

County Bonds: The County has over the past several years experienced a high level of growth and development. Infrastructure improvements, new government facilities, park developments and improvements, and new community centers are necessary to meet service demands associated with continued growth. These major infrastructure improvements and construction projects are financed with County bond funds. Major bond issues in recent years are listed below.

Master Transportation Bonds (Series A, B, & C), \$250.0M, 1992: Bond proceeds were used to fund the initial projects of the Master Transportation Plan.

Park Improvement / RJC Refunding Bond, Series 2005B, \$32.3M: The proceeds from these bonds were used to refund a portion of the outstanding series 1999 Park and Regional Justice Center Bonds.

Transportation Refunding Bonds, Series 2006A and 2006B, \$115.6M: The proceeds from these bonds were used to refund a portion of the outstanding Transportation Refunding Bonds, Series 1996A and 1996B.

Bank Refunding Bonds, \$242.9M, 2006: The proceeds from these bonds have been used to finance a local water revenue bond issued by the Southern Nevada Water Authority (SNWA) to provide funds for the financing of improving the SNWA water system.

Bank SNWA Bonds, \$604.1M, 2006: The proceeds from these bonds have been used to finance a local water revenue bond issued by the Southern Nevada Water Authority (SNWA) to provide funds for the financing of improving the SNWA water system.

Flood Control Refunding, \$200.0M, 2006: The proceeds from these bonds were used to fund flood control projects administered by the Clark County Regional Flood Control District. Projects are being constructed throughout Clark County and include detention basins, open channels, and storm drain systems that will detain and control the flow of flood waters safely through Clark County.

RTC Highway Revenue Improvement Bonds \$300.0M, 2007: Bond proceeds were used to fund the construction of various street and highway projects within the County.

Public Facilities Refunding Bonds (Series A,B, & C), \$22.3M, 2007: The proceeds from these bonds were used to defray the cost of rehabilitating, constructing, acquiring and equipping public safety facilities, including facilities for victims of child abuse and neglect, juvenile and adult detention, courts, and related criminal justice/child treatment support service.

Flood Control Refunding, \$50.6M, 2008: The proceeds from these bonds were used to refund a portion of the 1998 Flood Control Bonds.

Five-Year Capital Improvement Program Summary

Bank SNWA Bonds, \$400.0M, 2008: The proceeds from these bonds have been used to finance a local water revenue bond issued by the Southern Nevada Water Authority (SNWA) to provide funds for the financing of improving the SNWA water system.

Transportation Improvement Refunding Bonds, \$71.0M (Series A & C), 2008: The proceeds from these bonds were used to refund a portion of the 1994A transportation improvement and refunding bonds, the 1994 transportation improvement bonds, and the 1992C and 1994C transportation improvement bonds.

Public Facilities Bonds, \$24.8M, 2009: The proceeds from these medium-term bonds were used to defray the cost of acquiring, constructing, rehabilitating, and equipping public facilities, including the Election Warehouse and for property acquisition around the University Medical Center.

Public Facilities Refunding Bonds, \$24.9M (Series A, B, & C), 2009: The proceeds from these bonds were used to refund a portion of the 1999 Public Facilities Series A, B, & C.

Transportation Build America Bonds (Series B), \$60.0M, 2009: The proceeds have been used to fund transportation projects within the Strip resort corridor, or in surrounding areas within one mile of the Strip resort corridor boundaries if such projects facilitate transportation within the Strip resort corridor.

Bank SNWA Refunding Bonds, \$50.0M, 2009: The proceeds from these bonds were used to refund a portion of the bonds issued by the Southern Nevada Water Authority (SNWA) in 2000, 2001, 2002, 2006, and 2008.

Master Transportation Refunding Bonds, \$124.5M (Series A & B-3), 2009: The proceeds from these bonds were used to refund a portion of the 1998A & B transportation improvement bonds and the fixing out a portion of the 2008A Commercial Paper Notes.

Flood Control Bonds, \$150.0M (Series B), 2009: The proceeds from these bonds were used to fund flood control projects administered by the Clark County Regional Flood Control District. Projects are being constructed throughout Clark County and include detention basins, open channels, and storm drain systems that will detain and control the flow of flood waters safely through Clark County.

Sales Tax Revenue Bonds, \$69.6M, 2010: The proceeds from these bonds were used to refund the outstanding (Streets and Highways Projects) Commercial Paper Notes, Series 2008A & B.

RTC Highway Revenue Improvement Bonds (Series A1), \$32.6M, 2010: Bond proceeds were used to fund the construction of various street and highway projects within the County.

RTC Highway Revenue Improvement Bonds (Series B), \$51.2M, 2010: Bond proceeds were used to fix out a portion of the 2008A & B Commercial Paper Notes.

Sales Tax Revenue Bonds, 2010B & C, \$235.4M: The proceeds from these bonds were used to refund the outstanding (Streets and Highways Projects) Commercial Paper Notes, Series 2008 A & B.

Flood Control Refunding, \$29.4M, 2010: The proceeds from these bonds were used to fund flood control projects administered by the Clark County Regional Flood Control District. Projects are being constructed throughout Clark County and include detention basins, open channels, and storm drain systems that will detain and control the flow of flood waters safely through Clark County.

RTC Highway Revenue Refunding Bonds, \$118.1M, 2011: Bond proceeds were used to refund a majority of the RTC Highway Revenue Improvement Bonds, \$200.0M, Series 2003.

Bank Bonds, \$85.0M, 2012: The proceeds from these bonds were used to refund the 2001 and 2002 Bond Bank Bonds. These bonds were used to finance a local water revenue bond issued by the SNWA for the financing of improving the water system.

Five-Year Capital Improvement Program Summary

Flood Control Bonds, \$75.0M, 2013: The proceeds from these bonds are being used to fund flood control projects administered by the Clark County Regional Flood Control District. Projects are being constructed throughout Clark County and include detention basins, open channels, and storm drain systems that will detain and control the flow of flood waters safely through Clark County.

Flood Control Bonds, \$100.0M, 2014: The proceeds from these bonds are being used to fund flood control projects administered by the Clark County Regional Flood Control District. Projects are being constructed throughout Clark County and include detention basins, open channels, and storm drain systems that will detain and control the flow of flood waters safely through Clark County.

Public Safety Refunding A, \$24.6M, 2014A: The proceeds from these bonds were used to refund a portion of the outstanding 2004 bonds.

Park Improvement / RJC Refunding Bond, Series 2014C, \$17.5M: The proceeds from these bonds were used to refund a portion of the outstanding series 1999 Park and Regional Justice Center Bonds, as well as a portion of the 2004C bonds.

Transportation Refunding Bonds (Series 2014A & 2014B), \$36.9M: The proceeds from these bonds were used to refund a portion of the outstanding 1998A and 1998B bonds, a portion of the 2000A and 2000B bonds, as well as a portion of the 2004A and 2004B bonds.

FTI Revenue Bonds, \$100.0M, 2014: The proceeds from these bonds are being used to fund arterial projects within the County. The bonds are supported by a fuel tax indexing measure approved by the BCC in 2013.

Flood Control Refunding, \$186.5M, 2015: The proceeds from these bonds are being used to refund a portion of the 2006 Flood Control Bonds.

Special Improvement District Bonds, original amount of issuance of bonds currently outstanding = \$163.8M, 2015: Bond proceeds are used to fund the construction of various local improvements. In general, special improvement district bonds are issued to fund needed improvements requested by property owners.

County Taxes: Various County taxes are used to fund transportation infrastructure and park development projects as described below:

Motor Vehicle Fuel Tax (MVFT): The County is authorized, pursuant to Nevada Revised Statutes (NRS) 373.010 through 373.200, to impose the MVFT in an amount not to exceed nine cents per gallon. The County MVFT and the County's portion of the State MVFT are used to pay the costs of any approved street or highway construction project by either the direct use of tax proceeds or issuance of general obligation/revenue bonds payable from the net proceeds of the MVFT.

Motor Vehicle Privilege Tax (MVPT): The County is authorized, pursuant to NRS 371.045, to impose a supplemental MVPT of one cent on each dollar valuation of every vehicle registered. The MVPT is used to fund construction of the beltway, which is included in the County's MTP. The tax revenue has been pledged for MTP revenue bonds. The remaining tax revenue is used as equity funding.

Fuel Tax Indexing (FTI): The County is authorized, pursuant to NRS 373.087, to implement fuel tax indexing that affixes the fuel tax to inflation by one cent per gallon per every one percent change in the Consumer Price Index (CPI). The FTI is used to fund critical transportation projects managed by the Regional Transportation Commission (RTC). The tax revenue has been pledged for FTI revenue bonds.

Five-Year Capital Improvement Program Summary

Residential/Commercial Development Tax: The County is authorized, pursuant to NRS 278.710, to impose a fee on every single-family dwelling unit of new residential development, and every square foot of new commercial development. As of July 1, 2015, the fees increased from \$800 per unit to \$900 per unit for single-family dwellings, and the fees on a square footage of commercial new development increased from \$0.80 to \$0.90. The Development Tax is used to fund construction of the beltway which is included in the County's MTP. The tax revenue has been pledged for MTP revenue bonds.

Sales Taxes: The Regional Flood Control District (RFCD) is authorized, pursuant to NRS 543.600, to fund flood control projects with the proceeds from a voter-approved one-quarter of one percent sales tax. The sales tax is collected by the State and distributed to local governments. The RFCD uses sales tax revenue to fund projects through equity funding as well as leveraging this revenue for bond sales. As part of the MTP, a sales tax increase of an additional one-quarter of one percent on taxable sales within Clark County was implemented for the establishment and maintenance of a public transit system.

Room Tax: The County is authorized, pursuant to NRS 244.3351, to impose a one percent room tax. The Las Vegas Strip resort corridor and the Laughlin resort corridor projects are funded with room taxes collected within those boundaries. The revenues have been pledged for MTP bonds for resort corridor projects. The remaining revenue is used as equity funding.

County Capital Projects Fund (4370): Capital replacement and new capital projects are funded through this fund by way of annual allocations to General Fund departments. Primary funding sources are budgeted transfers and/or other transfers from the General Fund as a result of unanticipated revenues and monies saved through position vacancies and cost-containment policies. This policy has helped avoid the cost of financing and allowing the County to be more responsive to departmental demand.

Fees and Charges: Fees and charges for services are used for most of the proprietary funds such as the Department of Aviation, Building Department, University Medical Center of Southern Nevada, and internal service departments.

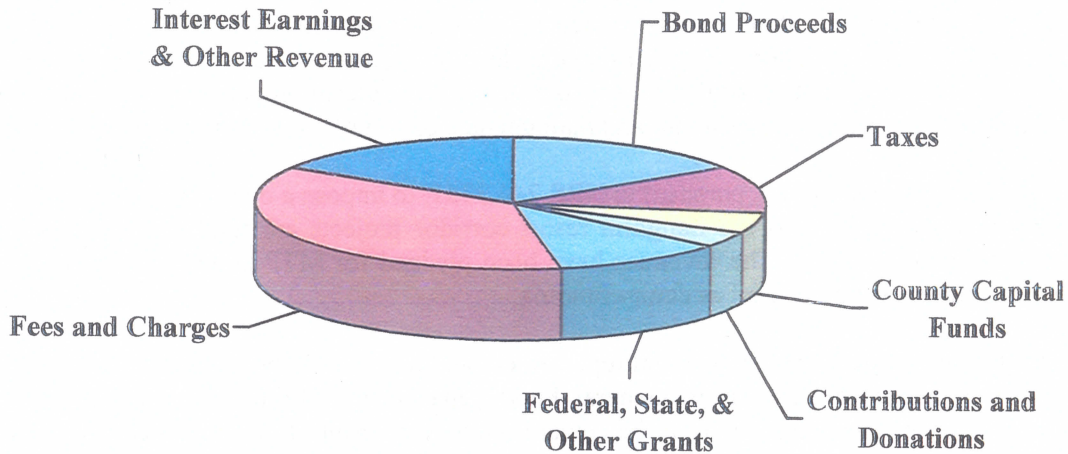

2002 Fair Share Transportation Funding Program: The voters in Clark County approved advisory question #10 on the November 2002 ballot regarding the implementation of the Regional Transportation Commission of Southern Nevada's "2002 Fair Share Funding Program", which will generate approximately \$2.7 billion in revenue over a 25-year period, dedicated to improve transportation and air quality in Clark County.

The Nevada State Legislature and the Governor ratified the advisory question, known in the 2003 Legislative Session as Senate Bill 237, in May 2003. The RTC prepared an ordinance that was ratified by the Clark County Board of County Commissioners at their July 1, 2003 meeting. Revenues from this program are generated by taxes and fees on developers of new construction (currently \$800 per residential unit or 80 cents per square foot of commercial and resort development), aviation fuel tax of an additional one cent per gallon, retail sales tax of one-quarter of one percent, and additional revenue as programmed by the State of Nevada Transportation Board.

Other: Other miscellaneous funding sources include such federal funds as Community Development Block Grant housing grants which are primarily used to fund housing and economic development projects that benefit low- to- moderate-income families in the County.

Highlights of the FY 2015-16 Capital Budget

FY 2016 Capital Improvement Program by Funding Sources

Funding Sources	Amount (\$ Millions)	Percent
Fees and Charges	162.6	36.7%
Interest Earnings and Other	72.8	16.4%
Bond Proceeds	69.0	15.6%
Taxes ^a	50.5	11.4%
Federal, State, and Other Grants	48.9	11.1%
County Capital Funds	22.4	5.1%
Contribution and Donation	16.5	3.7%
Total^b	\$442.7	100.0%

Note:^a Taxes include development fees, motor vehicle privilege tax, motor vehicle fuel tax, room tax, residential park construction tax, sales & use tax and jet-aviation fuel tax.

Note:^b Total resources include an estimated beginning fund balances of \$1,218.1 million, which is not shown above.

Grants and Comm. Resources	20.2	2.2%
Health & Welfare	6.3	0.7%
Total	\$911.5	100.0%

Note:^a The proprietary fund projects consist primarily of the Department of Aviation capital improvement projects.

Overview of the FY 2014-15 Capital Budget

Capital Allocation by Function

The capital projects allocation for FY 2015-16 totaled \$911.5M, which is 13.1% higher than the capital projects allocation for FY 2014-15 total of \$806.0M. This increase is primarily due to the recovering economy experienced by the County and its residents. This fiscal year's CIP reflects the County's continued emphasis on road construction and transportation improvement, public safety, upgrades at the airport, infrastructure improvements by the Clark County Water Reclamation District, as well as continued park development. Of the total FY 2015-16 capital allocation, proprietary fund projects, primarily the airport and water reclamation expansion projects, total \$341.6M, or 37.5%; road construction and improvement projects total \$335.6M, or 36.8%; parks and recreation projects total \$77.7M, or 8.5%; public safety and criminal justice projects total \$67.9M, or 7.5%; general government projects total \$62.2M, or 6.8%; grants and community resources projects total \$20.2M, or 2.2%; and health and welfare projects total \$6.3M, or 0.7%.

Of the total FY 2015-16 capital allocation, the majority of the funding is made up of \$162.6M (36.7%) in fees and charges and \$72.8M (16.4%) in interest earnings and other revenues. The remaining funding sources include: \$69.0M (15.6%) of bond proceeds; \$50.5M (11.4%) in taxes, including motor vehicle privilege tax, motor vehicle fuel tax, development fees, room tax, residential park construction tax, sales & use tax and jet aviation fuel tax; \$48.9M (11.1%) federal, state, and other grants; \$22.4M (5.1%) of County Funding; and \$16.5M (3.7%) in contributions and donations.

Impact on Operating Budget

The CIP impacts the County's future operating budgets in several ways. The primary impacts are:

Additional Staffing: Infrastructure expansion and facility addition require additional manpower for operation and maintenance. Unlike the one-time capital expenditure, the operating and maintenance costs are recurring. For example, the capital cost for constructing and equipping a new fire station is approximately \$7.0M. The related operating and maintenance costs range from \$2.4M to \$3.5M per year depending upon the configuration of the station. The operating and maintenance costs include salaries, benefits, service and supplies, facility and equipment maintenance and utilities.

Facility Operation and Maintenance: The County has developed a long-term capital plan. Over the next five years, \$2.7B of capital projects has been identified for implementation. The total operating and maintenance costs are projected at \$73.7M over the same planning period. Specific operating impacts of individual capital projects are discussed in more detail within each function of the Capital Improvements by Function section.

Debt Service: Debt service, which is repayment of bonds issued to fund capital projects, is partially paid by resources typically dedicated to the operating budget. Although debt service is not part of the operating budget, it competes with the same resources used for the operating budget. For FY 2015-16, approximately \$5.0M will be transferred from the General Fund to debt service funds that support repayment of park developments; Public Facilities; the Clark County Government Center; and the Regional Justice Center. It is the County's policy to match capital needs with economic resources on an annual basis to ensure that the proposed level of debt issuance does not negatively impact the County's excellent credit rating or potential future credit rating upgrades.

Clark County Initiatives: Clark County recognizes the correlation between the capital budget and the operating budget. Consequently, the County has taken the following initiatives to maintain its financial integrity:

Overview of the FY 2014-15 Capital Budget

- 1) Clark County took the initiative to support Senate Bill 307 introduced by the 1993 Nevada State Legislature. This bill allowed the combination of a tax override supporting the operation and maintenance cost with a bond issuance approval for capital improvement into a single question when presented to the voters.
- 2) All proposed capital projects must identify the impact on the operating budget as part of the annual capital budget process. As discussed in the CIP Rating System section of this document, projects that create revenues or identifiable savings in excess of the project cost, and are justified by a cost-benefit analysis, would score high and consequently be assigned a high priority rating.
- 3) The capital needs associated with new positions are assessed and may be budgeted in addition to the costs incurred for salaries and benefits.

Highlights of Road Construction Through Fiscal Year 2016

Funding Sources

Uses by Activity

Capital Improvements by Function

Road Construction

Overview

Approximately \$1.2B in projects have been identified in various funds to support the road construction needs of Clark County over the next five years. These capital improvements are primarily funded by bond proceeds, motor vehicle, room and special ad valorem taxes, developer fees, transfers from other funds, and interest earnings.

Public Works Capital Improvement Fund (4420): This fund was established to account for the collection of traffic mitigation fees, developer participation, and cash bond default projects.

Special Assessment Capital Construction Funds (4450, 4460, 4470 and 4480): These funds account for various municipal bond proceeds used for the construction of improvements within the established County's special improvement districts. These districts were established as a tool to finance local public improvements at a lower rate of interest than from conventional loans.

Master Transportation Plan – Las Vegas Beltway Construction Funds (4120): Fund 4120 consists of net revenues from motor vehicle privilege taxes (MVPT) and new development fees not required for debt service. Approximately \$96M will be available for beltway construction projects in FY 2015-16. This freeway system, consisting of approximately 53 miles in length, has received a majority of its resources from this fund.

Master Transportation Plan - Strip Resort Corridor Construction Fund (4180): Strip resort corridor projects are funded by approximately \$60M in bond proceeds, as well as from net room tax revenue not required for debt service on the bonds. Approximately \$90M will be available for road construction projects on the Strip Resort Corridor in FY 2015-16.

Master Transportation Plan – Laughlin Resort Corridor Construction Fund (4180): Projects located in the Laughlin resort corridor were primarily funded by net bond proceeds. The remaining funds will be used for improvements along Casino Drive in the Laughlin area.

Master Transportation Plan – Non-Resort Corridor Construction Fund (4180): Funds allocated for projects in the non-resort corridor are generated from room tax collections from hotels located in areas outside the Las Vegas Strip. Projects generally consist of improvements to existing roadways, such as lane widening and reconstruction efforts. Approximately \$7M will be available for road construction projects on the Strip Resort Corridor in FY 2015-16.

Road Fund (2020): This fund primarily receives fuel taxes to support the reconstruction and rehabilitation of existing infrastructure throughout Clark County. Regularly scheduled replacement equipment, in addition to new equipment, are essential components for maintaining roadways to the standard expected by the community. Annual maintenance contracts provide continuous service to address repairs to existing signals, signs, streetlights, and other infrastructure as needed.

Special Ad Valorem Transportation Fund (4150): This fund accounted for forty percent of the five-cent ad valorem tax enacted by the Board of County Commissioners. Funds were used for transportation projects authorized by the Regional Transportation Commission of Southern Nevada, as a result of an interlocal agreement among the cities. This interlocal agreement expired on June 30, 2012; therefore Board action to abolish this fund was effective in FY 2012-13.

Capital Improvements by Function-Road Construction

County Capital Projects Fund (4370): This fund accounts for major capital construction projects and major capital acquisitions for General Fund departments. Revenues are provided by transfers from the General Fund. Expenditures in this function are related to the Department of Public Works.

Southern Nevada Public Lands Management Act (SNPLMA) Fund (4550): This fund accounts for the reimbursement of funds from the Bureau of Land Management (BLM) as a result of proceeds from the sale of BLM land. Funds are used to design and construct needed parks, park facilities, and trails within the community.

Major Programs and Projects

Master Transportation Plan (MTP)

In November 1990, voters approved an advisory ballot question, which was subsequently enacted by the 1991 Nevada Legislature as Senate Bill 112. This bill authorized the County to implement a "fair share" tax program to support roadway improvements and mass transit throughout the Las Vegas Valley. Funding to finance these projects are obtained from the following six revenue sources:

<u>Plan Element</u>	<u>Revenue Sources</u>	<u>Nevada Revised Statute</u>
Resort Corridor	1% Room Tax	244.3351
Beltway	1% Motor Vehicle Privilege Tax	371.045
Beltway	Development Tax	278.710
Mass Transit	¼ of 1% Sales Tax	377A.020 and 377A.030
Arterial Streets	5 cent Motor Vehicle Fuel Tax	373.030
Airport Access	4 cent Jet Aviation Fuel Tax	365.203

The MTP is the mechanism that ties together all road related strategies and governmental entities in Southern Nevada. Furthermore, it provides the resources necessary to construct a series of critically needed roadway improvements discussed below.

Countywide Beltway: The construction of the Clark County I-215 Bruce L. Woodbury Beltway is the largest and perhaps the most visible transportation improvement project ever undertaken by Clark County. At ultimate build-out, the Beltway will be approximately 53 miles in length, connecting Interstate 515 in the City of Henderson to Interstate 15 in North Las Vegas.

The principal revenue sources for the Beltway projects are net bond proceeds, the one percent supplemental MVPT, and a new development tax currently at \$900 per residential unit and \$0.90 per square foot of commercial construction. Additionally, the County entered into an agreement with the Regional Transportation Commission (RTC) of Southern Nevada to provide fuel tax revenues for this project, which enabled the completion of the initial beltway facility.

A November 2002 voter-approved advisory question and May 2003 Legislative authority gave the State and County government the authority to raise an additional \$2.7B over the next 25 years for transportation improvements. A portion of this funding will be used to widen the Beltway (already carrying more than its design capacity, in some stretches) to six or eight lanes along its entire 53-mile length, leaving room for a further expansion to ten lanes.

Capital Improvements by Function-Road Construction

Southern Beltway Construction - Interstate 515 to Tropicana Avenue: The southern Beltway consists of a traditional full-freeway configuration, and accommodates the largest demand of traffic on this facility. Construction for the Airport Connector Phase 1 project was substantially complete in January 2014, and Phase 2 is anticipated to begin in summer 2015 and will take approximately 24 months to complete. These improvements will include a direct connect ramp from southbound Airport Connector to eastbound I-215 and will eliminate the current weaving maneuvers between the Airport exiting traffic, and I-215 eastbound traffic exiting at Warm Springs Road by the McCarran International Airport area.

Western Beltway Construction - Tropicana Avenue to North U.S. 95: Full-freeway configuration is currently operational as far north as Lone Mountain Road. Design is near completion for the segment between Craig Road

and Hualapai Way, which will include service interchanges at Lone Mountain Road and Ann Road, a grade separated crossing at Centennial Parkway, and flood control facilities. Construction for this phase is anticipated to begin in the summer of 2015.

Northern Beltway Construction – North U.S. 95 to North Interstate 15: Construction was complete in May 2014 for the segment from Tenaya Way to N. Decatur Boulevard, providing full freeway improvements consisting of two lanes in each direction, interchanges at Jones Boulevard and Decatur Boulevard, and a bridge structure over the I-215 at Bradley Road. Construction began in the fall of 2014 for the segment from Decatur Boulevard to North 5th Street, to construct full freeway improvements consisting of two lanes in each direction. Construction for the segment of the I-215 Beltway, Craig Rd to Hualapai Way began in November 2014 and should be substantially complete in the Spring of 2016.

Funding Sources: The Beltway is primarily funded by net bond proceeds, new development fees, a supplemental MVPT, and supplemental funding from the RTC.

Impact on Operating Budget: Generally, all freeways in the County are maintained by the Nevada Department of Transportation (NDOT), with the exception of the majority of the Beltway. Discussions between the County and NDOT have been intermittent regarding the full maintenance responsibility of this facility. NDOT currently maintains a portion of the Southern Beltway, between Warm Springs Road and just west of Interstate 15 and also between I-515 and Stephanie Street. As a result, the fiscal impact is undeterminable.

Strip Resort Corridor Improvements: The easing of traffic congestion in resort areas, particularly the Strip Resort Corridor (the portion of Las Vegas Boulevard known as the Strip, from Sahara Avenue to Russell Road), is critical to the continued economic health and stability of Clark County's tourism industry. The collection of a one percent room tax is allocated to the Strip Resort Corridor projects.

The completion of the Harmon Avenue project and improvements to Paradise Road and Sunset Road are considered the highest priority projects for the available funding.

Sunset Road: Construction for the Sunset Road, from Decatur Boulevard to Valley View Boulevard project was completed in October 2013. Improvements included an underpass at the UPRR crossing, retaining walls, storm

drainage, utility relocations, and a signal at the intersection of Arville Street and Sunset Road.

Paradise Road: Improvements for this project will be constructed in three phases and are designed to widen Paradise Road between

Capital Improvements by Function-Road Construction

Harmon Avenue and Desert Inn Road. The first two phases are completed, which included an extension of the Paradise/Swenson couplet north to Harmon Avenue, and signal modifications, new signal installations, and pedestrian flasher systems. Plans are in place for Phase 3A improvements to widen Paradise Road from Twain Avenue to Desert Inn Road, and Phase 3B improvements to widen Paradise Road, from South Twain Avenue to Naples Drive. Construction is planned for the fall of 2015.

Harmon Avenue East/West Connection: When completed, this multi-phase project will include both four-lane and six-lane roadway extensions from Swenson Avenue to Arville Street, and will overpass Frank Sinatra Drive, I-15, Industrial Road, the Union Pacific Railroad, and the Flamingo Wash. Acquisition of the required right-of-way continues.

Funding Sources: The Strip Resort Corridor is primarily funded by net bond proceeds and a one percent room tax collected from hotels located in the Strip Resort Corridor.

Impact on Operating Budget: Pedestrian grade separations require an annual allocation of approximately \$200K per overhead walkway (span) for custodial and mechanical maintenance. The County currently maintains the walkways located at the intersections of Flamingo Road and Las Vegas Boulevard, Harmon Avenue and Las Vegas Boulevard, and Spring Mountain Road and Las Vegas Boulevard. Although the walkways located at Tropicana Avenue and Las Vegas Boulevard have been constructed and are maintained by the Nevada Department of Transportation, it is likely that the maintenance of these facilities will eventually become the responsibility of the County.

Special Improvement Districts (SIDs): Through the Consolidated Local Improvement Law (Chapter 271 of the Nevada Revised Statutes), counties, cities, and towns are allowed to form SIDs for the purpose of acquiring, improving, equipping, operating, and maintaining specific projects within their jurisdictions. Projects include improvements to streets, curbs and gutters, sidewalks, streetlights, driveways, and sewer, and to assess property owners (within the defined district) for their benefited share of the improvements.

Southern Highlands Infrastructure: Various developers involved in the Southern Highlands district filed a petition with the County to form an acquisition district. The developers will make improvements to streets, curbs and gutters, sidewalks, streetlights, landscaping, parks, sewer and water facilities, and traffic signals. The SID encompasses 2,298 gross acres located south of Cactus Avenue, west of I-15 and Valley View

Convention Center Drive: This project is currently in the planning stages for roadway improvements, pavement resurfacing, and landscape enhancements and aesthetics along Convention Center Drive. The County entered into an interlocal agreement with the Las Vegas Convention and Visitor's Authority to fund each agency's respective improvements. Construction is planned for the fall of 2015.

Additional Improvements at the Welcome to Las Vegas Sign: The popularity of the most picturesque sign in Las Vegas brings along its fair share of traffic and pedestrian concerns. Plans are in place to expand the parking lot to create an additional 20 parking spaces, as well as a signaled crosswalk, reinforced pedestrian fencing and other pedestrian enhancements where needed.

Boulevard, and north of Starr, Bruener and Larsen Avenues.

Mountain's Edge Development: Mountain's Edge is a master planned community, located in the southwest part of the valley. Its general location is south of Blue Diamond Road, west of Rainbow Boulevard, east of Fort Apache Road and Durango Drive, and north of Starr Avenue and Cactus Avenue. This district will include

Capital Improvements by Function-Road Construction

2,560 gross acres, with proposed improvements consisting of roadway, public utility, drainage, and parks construction.

Summerlin South Infrastructure Improvements and The Gardens at Summerlin, Village 14B: The Howard Hughes Corporation will establish the necessary public right-of-way, prepare the street design, and construct improvements to public utilities, drainage systems and streets for over 2,000 acres in the southwest area of the Summerlin master planned community. Furthermore, the Howard Hughes Corporation will make all necessary appurtenances and incidental improvements.

Summerlin South Area (Villages 15A and 18) and The Summerlin Centre: The Summerlin South Area consists of approximately 1,023 assessable acres located in the western section of the Las Vegas Valley. The Howard Hughes Corporation will construct or cause to be constructed public and private infrastructure, primarily on-site and off-site utility (water, sewer and drainage) and

roadway improvements. The Summerlin Centre consists of approximately 847 acres located in the western section of the Las Vegas Valley. The area is bounded on the north by Charleston Boulevard, on the east by Hualapai Way, on the south by Sahara Avenue, and on the west by Desert Foothills Drive.

Summerlin-Mesa: Summerlin-Mesa is comprised of two villages, Village 16 and Village 17. Village 16 is approximately 540 acres located south of Sienna, and is bounded on the east by Hualapai Way and the west by Bureau of Land Management (BLM) property located south of the Red Rock Canyon National Conservation Area. Ponderosa Drive runs along a portion of the southerly boundary with the remaining southerly boundary adjacent to BLM property. Village 16 improvements will focus on drainage, waterline, and road projects. Projects located in Village 17, a 1,075-acre site, are required for the development of Village 16 and will benefit the property in both Villages

Funding Sources: SID bond proceeds.

Impact on Operating Budget: No significant fiscal impact.

Neighborhood and Outlying Services: Although the emphasis on new roadway construction may appear to overshadow other arterial improvement efforts, the County is no less committed to maintaining and repairing existing streets, particularly those in older neighborhoods. Consequently, aggressive pavement rehabilitation, gravel road paving, and street sweeping programs are currently underway in both rural and urban areas of the County.

**PUBLIC WORKS CAPITAL IMPROVEMENTS
(FUND 4420)**

	Prior Fiscal Years	Estimated FY 2014/15	Projected FY 2015/16	Total

Highlights of Public Safety and Criminal Justice Through Fiscal Year 2016

Funding Sources

Uses by Activity

Capital Improvements by Function

Public Safety and Criminal Justice

Overview

Approximately \$142.1M in projects have been identified in various funds to support the public safety and criminal justice needs of Clark County over the next five years. Revenues have been obtained from contributions and donations, fees and charges for services, intergovernmental participation, and interest earnings.

The Clark County Fire Department has three major sources of funding for capital acquisition: Clark County Fire Service District Capital Fund (4300), County Capital Projects Funds (4370), and ambulance franchise fees (2100).

The Las Vegas Metropolitan Police Department (LVMPD or METRO) and Detention Services use intergovernmental participation along with County Capital Projects (4370) and Special Ad Valorem Capital Projects (4160) funding to support its capital acquisition.

The judicial community relies on administrative assessment fees along with County Capital Projects (4370) as a major source of funding for its capital activities. The Project Expenditure Summary and Project Expenditure Details present the activity expected to occur over the next five years. Sources of these funds are described below in more detail.

General Purpose - Ambulance Franchise Fees – (Fund 2100): American Medical Response and Medicwest Ambulance have franchise agreements with the County and other jurisdictions in the Las Vegas Valley to provide emergency ambulance transportation. The franchise agreement restricts the use of this money to pay for dispatch services and to provide or arrange emergency medical services only. The Clark County Fire Department uses this funding to purchase the capital items needed for its Emergency Medical Services (EMS) program, such as rescue units and cardiac monitors.

Justice Court Administrative Assessment Fund (2190): When the court renders a judgment against a defendant, the court includes in its sentence an administrative assessment as prescribed by law. This assessment must be used to improve court operations or to acquire appropriate advanced technology. The court may also include in its sentence an administrative assessment, as prescribed by law, for the provision of court facilities. This assessment may be used to acquire land, construct or acquire additional facilities, renovate or remodel existing facilities, acquire furniture, fixtures, and equipment, acquire advanced technology, or pay debt service on bonds issued for any of the above purposes related to the courts or a regional justice center.

Technology Fees Fund (2290): Upon the commencement of any civil action in District Court for which a filing fee is required, the Clerk of the Court shall collect a technology fee for credit to a special account. These fees are for the use by District Court for advanced and improved technological purposes.

Southern Nevada Area Communications Council Fund (2520): This fund accounts for monies received from multiple governmental agencies who contribute annually to the operations of its telecommunication equipment infrastructure.

District Court Special Filing Fees Fund (2830): During the 2009 Legislative Session, Assembly Bill 65 passed, allowing District Court to assess and collect certain additional filing fees to defray costs associated with the passage of Assembly Bill 64 which added nine new judges. Costs such as construction or renovation costs, debt service, furniture, fixtures, equipment, and court staffing are appropriate uses of these fees.

Capital Improvements by Function – Public Safety and Criminal Justice

Las Vegas Metropolitan Police Department Capital Improvements Fund (4280): This fund provides resources to build, replace, and renovate police facilities and substations. It also provides for police equipment for outlining jurisdictions that have received funding dedicated for those areas. The majority of this funding has been received from Clark County and the City of Las Vegas.

Fire Service Capital Fund (4300): This fund provides resources to replace fire engines, ladder trucks, and other firefighting equipment which are worn out or damaged during an emergency response. It is also used to improve Occupational Safety and Health Administration (OSHA) compliance/modernization in fire stations.

County Capital Projects Fund (4370): This fund accounts for major capital construction projects and major capital acquisitions for General Fund Departments. Revenues are provided by transfers from the General Fund. Expenditures in this function are related to the Fire Department, the Las Vegas Metropolitan Police Department, and various judicial departments.

Major Programs and Projects

The major programs and projects for the County's public safety and criminal justice function are:

Fire Department Maintenance Capital (\$56.4M): Projects within this category include replacement of fire apparatus, station improvements such as station security systems, exhaust extraction system, station alerting, the purchase of safety equipment, and the replacement of existing fire stations.

Fire Department Expansion Capital (\$15.7M): Projects within this category are composed primarily of the construction of new fire stations. However, construction of additional fire stations has been conditioned upon an economic recovery sufficient to provide resources for the operating expenses associated with a new station. Specific stations being considered include Fire Station 61 in the area of Charleston and Nellis and Fire station 63 at Flamingo and Mountain Vista.

Funding Sources: These projects are funded from a variety of sources, including (1) transfers from the Clark County Fire Service District Fund (2930) to the Fire Service District Capital Construction Fund (4300); (2) ambulance franchise fees; and (3) contributions from the County Capital Projects Fund (4370).

Impact on Operating Budget: The impact on the operating budget of the Fire Department's capital projects is primarily from necessary staffing for new fire stations. Depending upon the configuration of the stations, the incremental operating cost of a new station ranges from \$2.4M to \$3.5M per year.

Communication Technology (\$16.6M): This project will replace outdated radio equipment necessary to achieve a system of interoperability and interagency communication.

Funding Sources: LVMPD Funds (2050, 2080, 2320), Detention Services Fund (2060).

Air Support Hanger - North Las Vegas Airport (\$10.4M): This project constructed an air support hanger for the housing of Las Vegas Metropolitan Police Department air assets. The hanger provides for both the housing of airplanes and helicopters as well as providing a base for maintenance.

Funding Sources: LVMPD Capital Improvements Fund (4280).

Capital Improvements by Function – Public Safety and Criminal Justice

New & Replacement Vehicles and Associated Equipment (\$26.8M): The Las Vegas Metropolitan Police Department and Detention Services make substantial investments in various vehicles and related equipment necessary operations of these entities.

Funding Sources: LVMPD Funds (2050, 2080, 2320), Detention Services Fund (2060).

Information Technology Equipment & Upgrades (\$3.6M): The Las Vegas Metropolitan Police Department utilizes a replacement schedule to replace servers, routers, desktop computers, laptops and ruggedized tablets annually to ensure efficient and effective use of these important resources in the day to day operations of the department.

Funding Sources: LVMPD Funds (2080, 2320), Detention Services Fund (2060).

New & Replacement Aircraft and Associated Equipment (\$13.1M): The Las Vegas Metropolitan Police Department's Search and Rescue helicopter is over 40 years old and beyond economical repair. This replacement helicopter is vital in rescue missions at the Red Rock National Conservation Area, Mt. Charleston, Lake Mead and other areas.

Funding Sources: LVMPD Capital Improvements Fund (4280).

MetroCom Center: 911 System Replacement (\$1.7M): The current 9-1-1 communication system equipment and software is nearing end of life and needs to be replaced. This project includes the design, acquisition, installation and maintenance of an E-911 Public Safety Answering Point Call-Taking Solution. This includes software and hardware installation to handle enhanced 9-1-1 and normal/administrative type calls as known today, as well as the data that will be available in the Next Generation 9-1-1 system of the future.

Funding Sources: LVMPD Forfeitures (2050)

MetroCom Center: Chiller Replacement (\$1.5M): This project will replace the chiller's central plant and control system at LVMPD's Communications Center, located at the County's Operations Center on Russell Road. The central plant currently serving the building is undersized based on the current equipment demands, building expansion and electronic equipment upgrades to provide for a fully redundant system as needed for this type of facility. The equipment is quickly approaching the end of its useful life. The new system will also provide a reduction in operating costs due to increased efficiency and reduced maintenance costs.

Funding Sources: LVMPD Capital Improvements Fund (4280).

Impact on Operating Budget: This impact is fully included in LVMPD's operating budget.

Detention Center – North Tower Renovation Phases I & II (\$139.0M): This project is for design services to renovate the Detention Center North Tower at 330 South Casino Center Blvd. The North Tower was built in 1984 and is need of major renovation as it approaches 30 years of operation.

Funding Sources: Detention Services Fund (2060), Special Ad Valorem Capital Fund (4160), and County Capital Projects Fund (4370).

Impact on Operating Budget: This impact is fully included in Detention's operating budget.

Capital Improvements by Function – Public Safety and Criminal Justice

Southern Nevada Area Communications Council (SNACC) Capital (\$12.4M): This project will replace the older legacy Motorola Type-II Smartnet system that has been in place for several years with digital technology. Construction is underway; the first site to come online is the new Las Vegas Simulcast cell. Other locations will be converted over time.

Funding Sources: Southern Nevada Area Communications Council Fund (2520).

Impact on Operating Budget: This impact is fully included in SNACC's operating budget.

RJC 3rd Floor Courtrooms Construction (\$14.7M): During the 2009 Legislative Session, Assembly Bills 64 and 65 were passed. Assembly Bill 64 provided nine new District Court judges which were elected during the general election in Fall 2010. They took office January 3, 2011 requiring the build out of the third floor to provide additional courtrooms, chambers, and staff areas. Assembly Bill 65 allows District Court to assess and collect certain additional filing fees to defray costs associated with the addition of the new judges, such as construction or renovation costs, debt service, furniture, fixtures, equipment, and court staffing. This construction project was funded by these special filing fees.

Funding Sources: District Court Special Filing Fees Fund (2830).

Greystone Building – District Attorney Family Support Division and District Courts (\$6.8M): In order to accommodate the District Attorney Family Support Division and the UIFSA Hearing Masters and staff, the Board approved a lease space in the Greystone Building. The project included modifying the space to adequately house staff and provide modular workstations, equipment, and furniture.

Funding Sources: County Capital Projects Funds (4370).

RJC Air Balance (\$5.6M): This project seeks to evaluate the HVAC systems, establish HVAC parameters for the facility, and recommend design modifications to provide corrective improvements bringing the building comfort and energy consumption under control.

Funding Sources: County Capital Projects Funds (4370).

RJC Traffic Court Renovation (\$1.6M): This project seeks to evaluate and renovate the Traffic Court Office at the Regional Justice Center for improved service access. The plan includes the creation of a new entrance from 3rd Street as well as internal tenant improvements. When completed, the public will have quick, secure access to the Traffic Court Office from 3rd Street to conduct business.

Funding Sources: Justice Court Administrative Assessment Fund (2190) and County Capital Projects Funds (4370).

RJC Sanitary Sewer Improvement (\$1.9M): This project seeks to identify, remove, and replace compromised/cracked vent stack piping in various areas throughout the RJC facility to ensure a high quality indoor air environment within the building.

Funding Sources: County Capital Projects Funds (4370).

Impact on Operating Budget: Total operating impact of these projects is fully included in the operating budgets of the respective courts or the Regional Justice Center Maintenance & Operations Fund (6840).

Capital Improvements by Function

Parks and Recreation

Overview

The Department of Parks and Recreation is responsible for development and maintenance of a wide variety of public parks and open space areas. The Department is also responsible for recreation and special interest facilities, as well as offering a broad spectrum of leisure services for all ages, interests and needs. The Department operates various facilities, including 19 recreation or community centers in urban and rural areas, 15 public swimming pools, and 22 spray facilities. There are 105 parks in the urban and rural areas encompassing over 2,000 acres. The Department also operates 13 special use facilities, specifically an outdoor performance amphitheater at the Clark County Government Center, Wetlands Park Nature Center, one mountain camp, the Clark County Fairgrounds, Horseman's Park, Dog Fanciers Park, three museum sites, a rural cemetery, the Desert Rose Golf Course, and the Clark County Shooting Complex. Additionally, the Department operates four fine art galleries, seven senior centers, and numerous sports fields.

The Department schedules activities and classes in both urban and rural sites. Services provided to the public include: recreation and cultural classes, clinics, concerts, fitness programs, exhibits, festivals, field trips, film series, lectures, organized sports, performances, the Safekey program, archery, public rifle and pistol ranges with a pro shop, restaurant, and convenience store, a hunter education center, a shotgun center, golf course, special events, and workshops. Activities are designed to provide a balance of no-cost/low cost and self-supporting programs that meet the recreational needs of the community. Many programs and activities are designed to reach underserved populations and target youth.

Resources to support Parks and Recreation capital improvements are generated by Residential Construction Tax (RCT), interest earnings, state and local grants, park bonds, State Bonds, Southern Nevada Public Lands Management Act (SNPLMA) funds, Community Development Block Grants (CDBG), donations, and transfers from other County funds. The RCT is a fee imposed upon the builder of apartment houses and residential dwelling units for the purpose of acquiring, improving, or expanding neighborhood public parks and playgrounds within the district where the revenues are generated. This tax is imposed on new construction in the amount of one percent, to the nearest dollar, of the valuation of each residential dwelling unit or mobile home lot, or \$1,000 per residential dwelling unit or mobile home lot; whichever is less. This tax revenue can be used only for or in neighborhood parks or portions of regional parks that are 25 acres or less. In addition or in lieu of RCT collections, a major project agreement can be negotiated that obligates a developer to actually construct and build a neighborhood park and provide accessibility to the public or give the completed park to Parks and Recreation.

Bond proceeds and transfers from the County Capital Projects Fund (4370) pay for the improvement and development of parks larger than 25 acres. State Bond Question 1 authorized the State of Nevada to issue \$200M of general obligation bonds to preserve water quality, protect open space, lakes, rivers, wetlands, wildlife habitat, parks, recreational areas, as well as historic and cultural resources throughout the state. The Parks and Recreation department has designated \$10M of the funding for the development of the Wetlands Regional Park at the Las Vegas Wash.

Capital Improvements by Function – Parks and Recreation

Major Programs and Projects

PARK DISTRICT 1

Wetlands Nature Preserve, Phase II & Trail Enhancement (\$9.0M): The 80 acre expansion, completed in FY14, coupled with the 130 acre Nature Preserve is the heart of the Wetlands Park, the main site for educational programs and for a future visitor and educational building. The Nature Preserve features five ponds, streams, two outdoor amphitheaters, a bird viewing blind, Las Vegas Wash Overlooks, and three miles of trails. The expansion of these 80 acres created additional trails, wetlands, streams and wildlife habitat improvements.

Funding Sources: SNPLMA Capital Construction Fund (4550) and Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operations costs for this facility will be funded by the County General Fund (1010).

Wetlands Park Construction (\$2.3M): The 2,900 acre Wetlands Park is dedicated to enhancing and preserving the unique natural resources associated with an urban arid effluent-dominated stream system. Construction of the remaining trail system and associated trailheads will contain over 25 miles of hiking and equestrian trails and complete the vision of the Master Plan.

Funding Sources: State Bond Question 1 (4110).

Impact on Operating Budget: Ongoing operating costs for this facility will be funded by the County General Fund (1010).

Wetlands Nature Center (\$25.6M): This LEED designed 30,000 square-foot building is located in the Nature Preserve, the heart of the Wetlands Park. The project address is 7050 Wetlands Park Lane, located a half mile east of the Tropicana Broadbent intersection. Construction was completed in FY14 and included exhibits for the interpretive gallery and expansion of the existing parking lot.

Funding Sources: State Bond Question 1 (4110), Parks and Recreation Improvements Fund (4140), SNPLMA Capital Construction Fund (4550).

Impact on Operating Budget: Ongoing operations costs for this facility will be funded by the County General Fund (1010).

Hollywood Aquatics Center (\$18.2M): This indoor and outdoor aquatic center consists of a 10 lane, 25 meter x 25 yard competitive lap pool at an incremental depth of 2 to 3 meters and a separate 25 meter x 8 meter attached side pool at a depth of 1 to 2 meters. The project also includes a 7,494 square-foot outdoor leisure pool, 20,000 square-foot of deck space and associated facilities/offices. The aquatics center sits on 15 acres of developed park.

Funding Sources: Parks and Recreation Improvements Fund (4140) and Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operations costs for this facility will be funded by the County General Fund (1010).

Capital Improvements by Function – Parks and Recreation

Horseman’s Park Improvements (\$1.5M): The project was completed in FY14, replacing the existing footings in both arenas, adding new perimeter landscaping along Flamingo Road and providing new entry signage at the gateway to Horseman’s Park. In addition, a new multi-use trail going south along Jimmy Durante and proceeding east along the Monson Channel and improvements to the existing unpaved parking area were added.

Funding Sources: SNPLMA Capital Construction Fund (4550).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

Walnut Park Build-out and Improvements (\$3.4M): This project was completed in FY14 and included two multi-use fields for organized sports and other activities, a loop trail for walking, a public restroom facility, a children’s play area and additional parking. Additionally, the project included new landscaping and trees for shade throughout the park.

Funding Sources: Federal and state grants, County Capital Projects Fund (4370) and the Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

Parkdale Recreation Center Rebuild (\$6.9M): This project involves demolishing the original building structure, while maintaining services out of the existing senior center addition, and then rebuilding a new recreation center that is environmentally friendly and a landmark for the community. The new addition will have a gymnasium, game room, multi-purpose rooms, fitness center, office space public restrooms and an open space for gathering.

Funding Sources: Federal and state grants and County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

Winchester Park Site Lighting Retrofit (\$1.4M): This project represents estimates to retrofit park area lighting at Winchester Park. Current lighting is inadequate and retro fit is needed for employee and customer safety. Additionally, certain park amenities will be improved and revitalized at this park located at 3130 McLeod Drive.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

Capital Improvements by Function – Parks and Recreation

Desert Rose Clubhouse & Pro Shop (\$3.2M): This project will include the renovation of existing Desert Rose Club House, Pro Shop, maintenance shop, cart barn, pump house and provide for exterior enhancements. The construction will complement the Regional Flood Control District's project consisting of the construction of flood control and sanitary sewer upgrades through the Desert Rose Golf Course and adjacent roadways. A portion of these sanitary sewer upgrades will take place through the center of Winterwood Blvd., Arroyo and Las Vegas Wash project which includes a reconfiguration of the 18- hole course.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be through an Operation and Management Contract with the successful golf course proponent.

Hollywood Park Ballfield Lights (\$1.4M): This project will add full field lighting and one ¾ field lighting to match two existing fields.

Funding Sources: County Capital Projects Fund (4370) and the Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

Walnut Senior Center Expansion (\$1.6M): This project includes a 3,600 square-foot senior room expansion, the addition of a small kitchen, and an exterior patio with retractable shade cover.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

PARK DISTRICT 2

Sunset Regional Park Expansion (\$32.5M): Phase I is an approximate 138 acre development project based on the Master Plan for Sunset Park. Amenities will include picnic and trail development, interpretive signage for the natural dunes area, tot lots, shade shelters, dog park, and parking. Renovation and remodeling will shape more passive features into the park with dune trails and mesquite burns areas. Phase I was completed during the first quarter of 2011. Phase II incorporates changes on approximately 70 acres and is also based on the master plan for Sunset Park. This phase involves renovation only; no expansion or new acreage is being added. Phase II construction began in the Fall of 2011.

Funding Sources: SNPLMA Capital Construction Fund (4550) and Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operating costs for this facility will be funded by the County General Fund (1010).

Capital Improvements by Function – Parks and Recreation

Siegfried and Roy Park (\$4.6M): This project will be developed in conjunction with the Department of Aviation, providing a buffer along Russell Road. The park will include a tot lot, playground, walking path, picnic pavilions and open turf.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

PARK DISTRICT 3

Southwest Regional Sports Park Master Plan (\$22.4M): This constitutes the first phase of the project which will include 12-16 lighted soccer fields, restroom facilities, parking, fencing, a universally accessible playground, and associated amenities with required offsites and utilities.

Funding Sources: County Capital Projects Fund (4370) and the Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

Desert Breeze Pool Packs (\$2.8M): This project will replace the cooling and heating units at the Desert Breeze swimming pool to provide adequate cooling and/or heating to support the facility and reduce humidity and chloramines inside the building.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

PARK DISTRICT 4

Mountain's Edge Regional Park (\$8.6M): This project will construct a 1.5 mile paved ADA accessible walking path that will connect with an existing half mile enhanced sidewalk along Mountain's Edge Parkway. The park will include approximately 15 acres of grass including parking, picnic facilities, benches, shade structures, drinking fountain(s), youth play amenities, lighting, and a restroom.

Funding Sources: SNPLMA Capital Construction Fund (4550).

Impact on Operating Budget: Ongoing operating costs for this facility will be funded by the County General Fund (1010).

Mountain's Edge Adult Ballfields & Site Improvements (\$9.4M): This project will create four lighted 90' baseball fields consisting of natural turf and associated amenities including bleachers, 345 parking spaces, and associated offsite amenities.

Funding Sources: Parks and Recreation Improvements Fund (4140) and County Capital Projects Fund (4370).

Capital Improvements by Function – Parks and Recreation

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

Mountain's Edge Pauite Park (\$2.0M): This project will construct a 15 acre ADA accessible park on a lease from the Federal Government. The park will include a 110,000 square foot multi-use turf area, permanent restrooms, tot lot with shade, basketball court with lights, parking lot, covered picnic shelter, drinking fountains, two volleyball courts and walking trail.

Funding Sources: Developer contribution.

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

PARK DISTRICT 5

Lone Mountain Equestrian Center (\$4.4M): This project will consist of a 120' x 200' covered arena, restroom, parking area, children's themed playground, 30' x 30' shaded pens, fencing, hitching posts and off site amenities at the Lone Mountain Trailhead.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

Lone Mountain Park Equestrian Trail & Amenities (\$2.4M): This project will construct a 10' wide equestrian trail around Lone Mountain.

Funding Sources: Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

PARK DISTRICT 9 (UNINCORPORATED)

Pearson Track Field (\$3.0M): This project will bring the existing track and field facility up to US Track and Field Association and International Amateur Athletics Foundation standards.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by County General Fund (1010).

Capital Improvements by Function – Parks and Recreation

PARK DISTRICT 9I (COYOTE SPRINGS)

Coyote Springs Park (\$6.6M): This project calls for the design and construction of a 12 acre park within the Coyote Springs Development. The park will include picnic areas, restrooms, play areas and trails.

Funding Sources: Developer contribution.

Impact on Operating Budget: Ongoing operating costs for this facility will be funded by the County General Fund (1010).

PARK DISTRICT - SUMMERLIN

Community Center and Pool (\$12.7M): This project adds an indoor year-round 25 meter x 25 meter pool with support facilities including restrooms, showers, and staff offices. The building will also have a party room and training room. An adjacent park component provides open turf, separate age appropriate playgrounds, picnic facilities and a walking path.

Funding Sources: Developer contribution.

Impact on Operating Budget: Ongoing operating costs for this facility will be funded by the County General Fund (1010).

Gypsum Ridge Trail (\$1.2M): This project overlooks Las Vegas from a 3,400 foot elevation providing a 1.2 mile accessible trail to an overlook point. The trail and trailhead will initially include an outdoor amphitheater, information kiosks, BBQ grills, shaded picnic tables, and restroom.

Funding Sources: Recreation Capital Improvement Fund (4110).

Impact on Operating Budget: Ongoing operating costs for this facility will be funded by the County General Fund (1010).

COUNTYWIDE

Craig Ranch Regional Park Amphitheater (\$6.5M): This project will construct an amphitheater and pond to be centrally located within Craig Ranch Regional Park. The terraced lawn seating will be designed to accommodate 3,000 audience members. Public restrooms, dressing rooms, a green room, storage, concessions, lighting and audio visual equipment will be included.

Funding Sources: Parks and Recreation Improvements Fund (4140).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the City of North Las Vegas.

Equestrian Arena (\$5.6M): This project will construct an equestrian arena, practice areas, pens, chutes, stalls and associated amenities on a yet to be identified site.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: Ongoing operations costs for these improvements will be funded by the County General Fund (1010).

Highlights of Grants and Community Resources Through Fiscal Year 2015

Funding Sources

Uses by Grant type

Capital Improvements by Function

Grants and Community Resources

Overview

The Community Resources Management Division of the Department of Administrative Services receives grants and other funds from various sources and acts as a community catalyst within the County to develop projects that benefit low- and moderate-income citizens. Additionally, other departments within the County receive and manage grants and other funds from various sources.

HUD and State Housing Grants Fund (2010) - Community Development Block Grant (CDBG):

The Clark County Urban County Consortium receives CDBG monies from the United States Department of Housing and Urban Development (HUD) for projects that benefit low- and moderate-income citizens. These capital funds are used to construct projects serving income-eligible clientele, or having an “area benefit,” where a majority of the residents come from low- and moderate-income families. The purpose of this fund is to segregate and isolate all revenues received from HUD and expenditures thereon. A 36-member citizen’s advisory committee reviews the County CDBG projects and makes program and funding recommendations to the Board of County Commissioners (BCC).

HUD and State Housing Grants Fund (2010) - Home Investment Partnership Act (HOME) and Low-Income Housing Trust Fund (LIHTF):

The Urban County HOME Consortium receives HOME Investment Partnership funds from HUD and the State of Nevada Housing Division as a pass-through agency. The State of Nevada Housing Division also provides funds from LIHTF which are used to match the federal HOME monies. The combined monies are then used to construct affordable housing units by housing authorities, nonprofit agencies, and for-profit developers for those at 80 percent or less of median family income, paying no more than 30 percent of their income for housing. A 36-member citizen’s advisory committee reviews the projects and makes program and funding recommendations to the BCC.

HUD and State Housing Grants Fund (2010) - Neighborhood Stabilization Program (NSP1):

The Neighborhood Stabilization Program was developed by HUD to implement a portion of H.R. 3221, the Housing and Economic Recovery Act of 2008 (HERA) signed into law on July 30, 2008. Clark County received a direct federal allocation of NSP1 funds as well as a pass-through of state NSP1 funds from the State of Nevada Housing Division in FY 2010. These funds are used to acquire and rehabilitate foreclosed residential properties in scattered sites throughout targeted areas of greatest need in Clark County which are then sold or rented to income-qualified households. NSP1 funds were used to assist in the financing of two new construction multi-family affordable housing projects reviewed by a 36-member citizen’s advisory committee with funding recommendations approved by the BCC.

HUD and State Housing Grants Fund (2010) - Neighborhood Stabilization Program (NSP3):

Section 1497 of the Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) authorized a third round of Neighborhood Stabilization Program funding, otherwise known as NSP3, signed into law on July 21, 2010. Clark County received a direct federal allocation of NSP3 funds in FY 2011. Clark County received a pass-through of state NSP3 funds from the State of Nevada Housing Division in FY 2011. These funds are used to acquire and rehabilitate foreclosed residential properties in scattered sites throughout targeted areas of greatest need in Clark County which are then sold or rented to income-qualified households.

County Capital Projects Fund (4370): This fund accounts for major capital construction projects and major capital acquisitions for General Fund Departments. Revenues are provided by transfer from the General Fund. Expenditures in this fund supplement state and federal resources. These are used to acquire capital equipment and to construct needed community facilities.

Capital Improvements by Function – Grants and Community Resources

County Grants Fund (2030): Grants to Outside Agencies using County funds are being accounted for in the County Grants Fund (2030) along with other grants and funds received by County departments from various sources.

Pre-Committed, Pre-Award Projects: In an effort to “fast track” or develop capital facilities more expeditiously, the BCC pre-committed its CDBG funds for FY 2000-01 through FY 2004-05, and received pre-award approval from HUD. This pre-award approval allows the County to advance or “loan” County funds toward an approved five-year Capital Improvement Program, with the understanding that such funds will be reimbursed and expense-adjusted upon receipt of the subsequent CDBG awards. Hence, County Capital Projects Fund (4370) monies will be advanced to fund designated approved capital projects, and these monies will be repaid upon receipt of the subsequent CDBG grant revenues. As a result of the success of this effort, the BCC authorized the submission on January 6, 2004 of a second CDBG Capital Improvement Plan for FY 2005-06 through FY 2009-10. In April 2004, HUD approved this pre-award approval request whereby Clark County initiated those projects using its own funds and received reimbursement from CDBG funds.

Pursuant to the second five-year CDBG Capital Improvement Plan for FY 2005-2009, Clark County dedicated and completed the Whitney Recreation Center (December 2006), the Cora Coleman Senior Center Expansion and the Dr. Pearson Community Center (May 2008), Sandy Valley Senior Center (August 2008), Bob Price Recreation Center (Spring 2009), Playground Shade Structures at Parkdale, Winchester and Cambridge Parks (Spring 2009), Nathan Adelson Adult Day Care Center (Spring 2009), and the Colorado River Food Bank Warehouse (January 2010).

Clark County submitted a third five-year plan, approved by the BCC on April 6, 2010, to HUD in May 2010 for the FY 2010-2011 to FY 2014-2015 period. It received HUD approval in June 2010. Capital projects completed over the course of the five year period are as follows: Walnut Recreation Center Park Construction, Parkdale Recreation Center Renovation and Expansion, Winchester Community Center Renovation and Addition, Community Counseling Center Building Acquisition, Nevada Partnership for Homeless Youth-William Fry Drop-In Center, Von Tobel Park Pool Demolition, Desert Inn Park Pool Demolition, Legal Aid Center of Southern Nevada-Capital Construction of New Facility, Nevada Partnership for Homeless Youth-Shirley Street II, Boys and Girls Clubs of Las Vegas-Carey Avenue Outdoor Play Space Project, HELP of Southern Nevada-HELP Street, and Foundation for an Independent Tomorrow-Capital Improvement Expansion Project. The Opportunity Village-Sean’s Park, Anthony L. Pollard Foundation-Playground and Parking Lot Expansion, and Latin Chamber of Commerce-Arturo Cambeiro Senior Center Expansion projects are under construction. A new project, the relocation and new construction of the Shannon West Homeless Youth Shelter, has been added to the Capital Improvement Program.

Summary: Using these federal funds made available as part of the CDBG Capital Improvement Plans as well as other County monies which have leveraged other private donor and foundation contributions, the Community Resources Management Division, in conjunction with the Department of Real Property Management, have been responsible for managing the design/construction phases of a number of new facilities and in assisting our nonprofit agency partners on their facilities.

Capital Improvements by Function – Grants and Community Resources

Major Programs and Projects

Recent major programs and projects for the County's Grants and Community Resources function are:

Parkdale Recreation Center Renovation and Expansion (\$5.9M): Design and construct a new 10,000 sq. ft. recreation center following the selective demolition of the existing 5,052 sq. ft. recreation center. The new center will include a fitness center, half gym, multi-purpose room, two classrooms, game room, reception/lobby area, restrooms, storage rooms, and office space.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Walnut Recreation Center Park Construction (\$2.9M): Designed and built 4.5 acres of park space, consisting of multi-use turf lighted sports fields and perimeter trail with security lighting, restrooms, shade trees, or shade structures, shaded spectator seating, shaded picnic areas, and desert landscaping.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Latin Chamber of Commerce Senior Center (\$1.0M): Construct an addition to the 4,063 sq. ft. Arturo Cambeiro Senior Center located between Stewart and 13th Street in Las Vegas. The addition to the existing facility will double the capacity of clients presently served. The building is owned by the Southern Nevada Regional Housing Authority and leased to the Latin Chamber of Commerce which operates the senior center.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Help of Southern Nevada Shannon West Homeless Youth Center (\$3.7M): HELP of Southern Nevada is proposing to construct a new facility on property adjacent to their HELP Street campus to relocate the Shannon West Homeless Youth Center.

Funding Sources: County CDBG funds, Englested Family Foundation grant, and fundraising.

Impact on Operating Budget: Ongoing operating costs will be paid for from COC grants, ongoing fundraising, and tenant rental revenue.

Opportunity Village Sean's Park (\$2.0M): Build a life-learning park specifically designed to meet the needs of people with intellectual and related physical disabilities. Clark County will provide \$2M toward the total construction cost of \$7M.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Capital Improvements by Function – Grants and Community Resources

Foundation for an Independent Tomorrow Facility Expansion (\$1.2M): Construction of an addition to the current facilities, building a second floor over the existing building, providing more space in which to offer additional services.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Catholic Charities Food Facilities Expansion (\$2.4M): Expansion of Catholic Charities of Southern Nevada's Hands of Hope Food Pantry and the consolidation of its Meals on Wheels kitchen into its Lied Dining Hall kitchen.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Nevada Partners Workforce Development Center (\$2.8M): Design and construction of an expansion of the existing workforce development center to establish a Workforce Development Center offering occupational skills training in STEM fields, particularly in the areas of unmanned aerial systems (drones), healthcare, film production, and pre-apprenticeship training.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Boys & Girls Club Boulder Highway Service Campus (\$5.5M): Boys and Girls Clubs of Las Vegas, in collaboration with Nevada H.A.N.D. and Lutheran Social Services of Nevada (LSSN), will develop and construct two separate buildings – a 10,550 sq. ft. Boys and Girls Club and a 10,000 sq. ft. LSSN Community Resource Center – on a 20-acre campus near Boulder Highway and Desert Inn.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Sandy Valley Peace Park Improvement (\$2.7M): Upgrade to the existing water well system and the construction of a new splash pad and pedestrian walking trail for Peace Park in Sandy Valley. To improve the well water tank system, three existing tanks will be removed and replaced with a new 50,000 gallon tank, a new well will be drilled and water system piping and controls will be updated. The new splash pad/spray feature will have thematic play elements and a recirculation system.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Alexander Villas Park Improvement (\$3.0M): The project includes selective demolition and removal of the old playground equipment; construction of new play equipment such as ramps, swings and multi-level structures that will allow children of varying abilities to play together; and construction of a climbing wall with a unique theme to attract children and offer an engaging and educational experience.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Capital Improvements by Function – Grants and Community Resources

Winchester Community Center Expansion (\$2.7M): Design and construction of a new addition to increase programming space at the Winchester Cultural Center. The addition will include a fitness room, computer lab, art studio, and a new classroom.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Juvenile Justice Services Spring Mountain Residential (\$2.3M): Construction of a new Spring Mountain Residential Facility. CDBG funds will assist in the building of the new facility which will be operated by the Clark County Department of Juvenile Justice Services. The proposed 4,000 sq. ft. building will have the same capacity as the current facility. It will have twelve beds (two per room), one weekend bedroom with two bunk beds, kitchen, living, dining and utility areas, office and office/bedroom for Probation Officer scheduled on a 24-hour shift.

Funding Source: County CDBG funds.

Impact on Operating Budget: None

Santa Barbara Palms Senior Apartments (\$1.5M): This is a 71-unit affordable senior apartment complex located at the corner of Santa Barbara and Tropicana Avenue in unincorporated Clark County. The property was financed principally through the State of Nevada's Low Income Housing Tax Credit program. County funds assisted in financing the HOME/LIHTF-eligible construction costs, including related project soft costs. All of the units are rent and income restricted with a minimum of 7 units designated as HOME/LIHTF assisted and will remain affordable for a minimum of 20 years.

Funding Sources: Low Income Housing Tax Credits, County HOME/LIHTF funds, and Developer's Note.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Russell Senior Apartments (\$1.0M): Accessible Space, Inc. is developing a 100-unit affordable senior apartment complex located in unincorporated Clark County at Russell and Hollywood.

Funding Sources: Low Income Housing Tax Credits, County HOME/LIHTF funds, FHLB-AHP, Permanent Financing, and Developer's Note.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Bonnie Lane (\$2.0M): Accessible Space, Inc. is developing a 66-unit affordable senior housing development at Bonnie Lane and Lake Mead Boulevard in unincorporated Clark County. A minimum of 20% of the resident units are designed to be fully wheelchair accessible for low-income seniors with physical disabilities. All the resident units will be equipped with adaptations for the hearing and visually impaired.

Funding Sources: Low Income Housing Tax Credits, and Clark County HOME/LIHTF funds.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Capital Improvements by Function – Grants and Community Resources

Agate Avenue Apartments Phase I (\$1.2M): Accessible Space, Inc., State of Nevada Housing Division, and Clark County are developing this 182-unit affordable senior apartment complex located at Agate and Las Vegas Boulevard in unincorporated Clark County.

Funding Sources: Low Income Housing Tax Credits, County HOME/LIHTF funds, Private Activity Bonds, NSP, FHLB-AHP, and Developer's Note.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Winterwood Senior II Apartments (\$1.0M): Coordinated Living of Southern Nevada is developing an 80-unit affordable senior apartment complex located in unincorporated Clark County.

Funding Sources: Low Income Housing Tax Credits, County HOME/LIHTF funds, FHLB-AHP, Permanent Financing and Developer's Note.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Casa Oliva (\$2.1M): Accessible Space, Inc. is constructing a 9-unit affordable rental housing project for people with severe disabilities, particularly those with Traumatic Brain Injury.

Funding Source: County HOME/LIHTF funds.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Mixed Income II (\$1.3M): Community Development Programs Center of Nevada is constructing the 57-unit affordable senior apartments in unincorporated Clark County at Giles and Warm Springs.

Funding Sources: Low income Housing Tax Credits, County HOME/LIHTF funds, and Permanent Financing.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Russell Senior II Apartments (\$1.2M): Accessible Space, Inc. is constructing the 75-unit affordable senior apartment complex located in unincorporated Clark County at Russell and Hollywood.

Funding Sources: Low Income Housing Tax Credits, and County HOME/LIHTF funds.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Walnut Apartments (\$1.3M): A non-profit subsidiary of Southern Nevada Regional Housing Authority will acquire and renovate 6 four-plexes in the Walnut Street Apartments Complex.

Funding Source: County HOME/LIHTF funds.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Capital Improvements by Function – Grants and Community Resources

Veterans Supporting Housing (\$1.8M): Accessible Space, Inc. will construct a 50-unit affordable apartment complex located in unincorporated Clark County at 4245 South Pecos Road. This project will serve very low-income veterans with an emphasis on veterans with physical disabilities. The developer will be applying for 2015 Low Income Housing Tax Credits from the State of Nevada Housing Division as part of the set-aside for veterans housing to provide the primary financing for the project. The project is contingent on receiving a 2015 LIHTC allocation.

Funding Sources: Low Income Housing Tax Credits, and County HOME/LITHF funds.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

Boulder Pines (\$1.0M): Nevada H.A.N.D. will construct a 100-unit affordable family apartment complex located in unincorporated Clark County at 4315 Boulder Highway.

Funding Source: Low Income Housing Tax Credits, County HOME/LIHTF funds, and Private Activity Bonds.

Impact on Operating Budget: Ongoing operating costs will be paid for from tenant rental revenue.

NSP1 - Future Projects

NSP1 funds will be used to fund various affordable housing initiatives including:

Acquiring and rehabilitating foreclosed residential properties in scattered sites throughout targeted areas of greatest need in Clark County. Homes acquired will be rehabbed for energy efficiency and to Clark County rehab standards and sold to households at or below 120% area median income.

Acquiring and rehabilitating foreclosed residential properties in scattered sites throughout targeted areas of greatest need in Clark County. Homes acquired will be rehabbed for energy efficiency and to Clark County rehab standards and will be rented to households at or below 50% area median income.

Developing affordable and special needs senior and family rental housing in Clark County in cooperation with HUD, local jurisdictions, and non-profit partners.

Developing public facilities in NSP target areas to further stabilize neighborhoods through added services and need based amenities.

Funding Source: NSP1 funds.

Impact on Operating Budget: None

Capital Improvements by Function – Grants and Community Resources

NSP3 - Future Projects

NSP3 funds will be used to fund various affordable housing initiatives including:

Acquiring and rehabilitating foreclosed residential properties in scattered sites throughout targeted areas of greatest need in Clark County. Homes acquired will be rehabbed for energy efficiency and to Clark County rehab standards and sold to households at or below 120% area median income.

Acquiring and rehabilitating foreclosed residential properties in scattered sites throughout targeted areas of greatest need in Clark County. Homes acquired will be rehabbed for energy efficiency and to Clark County rehab standards and will be rented to households at or below 50% area median income.

Developing affordable and special needs senior and family rental housing in Clark County in cooperation with HUD, local jurisdictions, and non-profit partners.

Developing public facilities in NSP target areas to further stabilize neighborhoods through added services and need based amenities.

Funding Source: NSP3 funds.

Impact on Operating Budget: None

Detention - SCAAP Grants (\$13.5M): The Clark County Detention Center is provided financial assistance from the United States Department of Justice for the incarceration of undocumented criminal aliens. The funds are used for equipment and major facility upgrades.

Funding Source: County Grants Fund (2030).

Impact on Operating Budget: None

SCOPE II Projects (\$2.9M): United States Department of Justice funding was used to replace the existing Shared Computer Operations for Protection and Enforcement (SCOPE)/Wanted Vehicle System (WVS) with the SCOPE II system. SCOPE was established in 1968 as Nevada's first criminal history repository of arrests, convictions, sex offender registry, probation and parole, warrants, incidents of missing persons, dead bodies, homicides, and citations and has evolved to house non-criminal information including work card, business licensing, carrying concealed weapon applications, protection orders, mental petition orders, and family court writs.

WVS was established in 1983 as Nevada's only system to contain information on stolen and recovered vehicles, vehicles used in the commission of a felony, bait vehicles, police impounds, private tows and repossessions, seized vehicles, hit and run suspect vehicles, lost/stolen license plates, contact messages and missing adults and juveniles associated with vehicles. Over 80 Federal, State, Local and Tribal law enforcement and justice agencies heavily rely on SCOPE and WVS as an integral part of the process of identifying, apprehending, detaining, prosecuting, and incarcerating criminals.

Funding Source: County Grants Fund (2030).

Impact on Operating Budget: None

Comprehensive Planning – Photovoltaic Facilities (\$1.0M): In July 2013, the County was awarded funds from the United States Department of Energy to construct photovoltaic demonstration facilities.

Funding Source: County Grants Fund (2030).

Impact on Operating Budget: None

Highlights of General Government Through Fiscal Year 2016

Funding Sources

Uses by Activity

Capital Improvements by Function

General Government

Overview

The General Government portion of the Capital Improvement Plan includes projects from the General Purpose Fund (2100), Technology Fees Fund (2290), Habitat Conservation Fund (2360), Laughlin Capital Acquisition Fund (4290), Fort Mohave Valley Development Capital Improvement Fund (4340), County Capital Projects Fund (4370), and the Information Technology Capital Projects Fund (4380). The projects discussed in this section include vehicle replacement, building construction, other capital, and information technology needs.

General Purpose Special Revenue Fund (2100): This fund accounts for various department activities that have dedicated funding sources that primarily consist of room and special ad valorem taxes, government agency contributions, and franchise and special filing fees. Capital costs associated with equipment acquisition account for the financial activity reported in this fund.

Technology Fees Fund (2290): This fund accounts for statutorily mandated technology fees collected by the Clerk's Office, Recorder's Office, and District Court that are exclusively to be used for the acquisition or improvement of technology pertinent to the department's operations. Capital costs associated with the acquisition of hardware, software, and the professional services required to improve technology account for the financial activity reported in this fund.

Fort Mohave Valley Development Special Revenue Fund (2340) & Capital Improvement Fund (4340): This fund accounts for receipts related to lands in the Fort Mohave Valley from the State of Nevada approved by the Nevada State Legislature. Capital costs associated with the acquisition of land, equipment acquisition, infrastructure improvements, or construction of capital projects in accordance with the Fort Mohave Valley Development Law as outlined in NRS 321.536 account for the financial activity reported in this fund.

Habitat Conservation Fund (2360): This fund accounts for the protection of the desert tortoise. Financing for capital purchases on behalf of the Desert Conservation Program is provided by fees paid by developers.

Laughlin Capital Acquisition Fund (4290): This fund accounts for major capital acquisition in Laughlin. Financing is provided by contributions and transfers from other funds.

County Capital Projects Fund (4370): This fund accounts for major capital construction projects and major capital acquisitions for General Fund Departments. Revenues are provided by transfers from the General Fund. Expenditures in this function are related to various departments in the General Fund and include funding for automotive replacements, facility addition/replacement, and countywide capital needs.

Information Technology Capital Projects Fund (4380): This fund accounts for capital funding for information technology projects. Revenues are provided by transfers from the County Capital Projects Fund. Expenditures in this function address the information technology requirements of various General Fund departments.

Capital Improvements by Function - General Government

Major Programs and Projects

The major programs and projects for the General Government function are:

Automotive Projects

The following program is designed to replace the General Fund departments' vehicles:

Vehicle Replacement (\$8.4M): Each year, Clark County evaluates all vehicles in inventory to develop a replacement list based on the following criteria: maintenance record, condition, mileage, and age of the vehicle.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: No significant fiscal impact. The departments that receive new vehicles experience savings in their budgets due to lower maintenance and repair costs.

Facilities Addition/Replacement Projects

Phoenix Building Purchase & Upgrades (\$10.4M): In an effort to move towards the County's long-term goal of eliminating leased space, this building was purchased to provide office space to the Neighborhood Justice Center, Public Defender, and Special Public Defender, as well as courtroom space and court associated functional areas for the County Courts. In addition, 15K square feet is leased privately. Planned upgrades to the facility will encompass Boiler replacement, tower replacement and installation of a building automation controls.

Countywide Roof Repair (\$6.0M): All roofing materials deteriorate from exposure to wind and weather. This ongoing project aims to find, prioritize, and correct roof deterioration. The following county facilities are the top 10 buildings in need of roof repair. Government Center, Clark Place Building, Winchester Community Center, Fire Station #31, Goodsprings Community Center, Fire Station #75, Fire Station #65, Public Administration, Public Administration Warehouse, and the Hollywood Recreation Center.

Countywide Repaving Program (\$5.4M): This ongoing project aims to construct new parking lots on dirt lots and repave existing parking lots that have deteriorated due to use and exposure to the elements. The following county locations are the top 10 for this program: Cambridge Community Resource Center lot, Paul Meyer parking lot, Stephanie Street Automotive Shop lot, Shadow Rock Dog Run parking lot, Sunset Park Basketball Courts lot, Fire Station 24 parking lot 1, Paradise Park Recreation Center lot, Development Services front parking lot, and Moapa Valley Community Center parking lot 1.

Countywide Elevator Rehab Program (\$5.1M): This ongoing project will upgrade or replace obsolete vertical lift equipment on a number of elevator systems at the Social Services and Family Youth Services Family Court building.

Funding Sources: County Capital Projects Fund (4370).

Impact on Operating Budget: The operating impact of increased maintenance and utility costs will impact various department budgets.

Capital Improvements by Function - General Government

Other Capital Projects

Fort Mohave Valley Development Plan (\$5.2M): More than 9,000 acres in Laughlin (Fort Mohave Valley) administered under the Fort Mohave Valley Development Law were transferred from the Colorado River Commission of Nevada to Clark County in 2007. This project will pay for the capital costs associated with the acquisition of land, equipment, construction, and infrastructure improvements in accordance with the Fort Mohave Valley Development Law.

Laughlin Bullhead Bridge (\$5.0M): The proposed Laughlin-Bullhead City Bridge is intended to provide an alternate crossing location approximately twelve miles downstream of the existing Laughlin Bridge. The proposed bridge will accommodate present and future traffic demand and alleviate congestion on the existing Laughlin bridge and alleviate congestion on both sides of the Colorado River. The new bridge will improve access and delivery of essential services and emergency services to the region in a safe and cost effective manner. The present project is a phased facility that will construct a two-lane bridge with two-lane approach roads on both sides of the bridge. The full-scale project is proposed as a four-lane bridge with four-lane approach roads in both Nevada and Arizona and will be constructed in the future when traffic projections and population growth make the two-lane bridge and approach roads obsolete.

Funding Sources: Fort Mohave Valley Development Capital Improvement Fund (4340).

Impact on Operating Budget: Fiscal impact of future development would require maintenance, utility, and other various operating costs that would depend heavily on what type of development was implemented.

Information Technology

Technology Refresh Program (TRP) – Countywide (\$8.1M): To replace desktop computers, servers, laptops, printers, monitors, and networks that have become technologically obsolete. This ongoing program ensures that County departments can communicate and operate using similar and compatible technology.

Business Licensing, Inspections, Permitting, and Zoning (BLITZ) Integration (\$6.0M): Will replace two dated information systems with a consolidated system that will streamline and integrate the business processes of Business License, Building, Fire Prevention, Code Compliance, Comprehensive Planning, Public Works, and Water Reclamation to improve the delivery of services. The objectives are: improve communications across departments and agencies; create a one-stop shop for business and Building customers; reduce process time for business licenses, plans checks, permit issuances, and inspections; increase business over the internet and provide customers better access to information over the internet; provide more cost effective and efficient services, improve management reporting and agility to distribute workload; reduce duplicate data entry and storage of information; and provide a disaster recovery service in the event of a disruption to these critical services.

Capital Improvements by Function - General Government

Assessor Systems Replacement (\$18.2M): Will improve performance and efficiency in the Assessor's Office by replacing the legacy mainframe appraisal application with a modern Computer Assisted Mass Appraisal (CAMA) application, replacing the legacy personal property tax billing and collection application with the Ascend application currently used by the Treasurer's Office, and enhancing the GIS parcel data management application used for mapping land parcel information.

District Attorney Case Management System (CMS) Replacement (\$6.3M): To replace current CMS (CTRACK) for a system that integrates all functions throughout the Clark County District Attorney's Criminal Division into a central repository, thereby eliminating duplicate entries into obsolete and unsupported systems. Additionally, the new system will enable data sharing with other justice partners in Clark County to reduce or eliminate duplicate entries made by multiple organizations. The new case management system will provide a complete electronic case integration system streamlining entries, events, calendaring, document processing, reporting and file management.

Court Case Management System (CMS) (\$8.1M): District Court and Las Vegas Justice Court plan to procure an integrated Case Management System, thus eliminating their disparate legacy systems. The District Court system will support criminal, civil, probate, family and juvenile case types, while the Las Vegas Justice Court system will support criminal and traffic case types.

Pathways Contract Management (PCON) System (\$8.0M): In an effort to improve their accounts receivable collections, UMC has implemented a contract management, denials and appeals, electronic remittance advice and underpayment recovery system via McKesson. The system enhances the functioning of UMC's revenue cycle.

Technology Refresh Program (TRP) – UMC (\$4.5M): To replace desktop computers, servers, laptops, printers, monitors, and networks that have become technologically obsolete. This ongoing program ensures that University Medical Center departments can communicate and operate using similar and compatible technology.

Funding Sources: Information Technology Capital Projects Fund (4380).

Impact on Operating Budget: No significant fiscal impact.

GENERAL GOVERNMENT

Highlights of Health and Welfare Through Fiscal Year 2016

Funding Sources

Uses by Activity

Capital Improvements by Function

Health and Welfare Funds

Overview

The Health and Welfare portion of the County's Capital Improvement Plan includes projects from Southern Nevada Health District (Funds 7050, 7060, 7070, 7620 and 7700) and the Air Quality Department (Funds 2270 and 2280). Approximately \$16.9M in projects have been identified in these funds to support the Health and Welfare needs of Clark County over the next five years. Funding for these projects is available from licenses and permits and intergovernmental revenues.

Southern Nevada Health District Funds (7050, 7060, 7070, 7620, and 7700)

Pursuant to state statute, the Southern Nevada Health District (District) is responsible for protecting and promoting the health and well-being of Clark County residents and visitors. District program goals include: reduce barriers and improved access to affordable preventive health services; monitor for, and protect from, environmental factors that adversely influence health; educate the community about individual responsibility for health protection; and prevent, detect, and control disease outbreaks. These goals are carried out by four divisions: Nursing, Environmental Health, Community Health, and Administration which provide general administrative functions including human resources, financial services, legal services, information technology, facilities services, and public information.

Air Quality (2270 and 2280)

The Clark County Department of Air Quality (DAQ) is responsible for evaluating and improving air quality and protecting and conserving our natural resources through active public participation, environmental monitoring, outreach and education, regulation and compliance assurance, and long-term planning. Air Quality maintains approximately 19 monitoring stations throughout Clark County. The expenditures are supported by licenses and permits and other federal and state grants. The majority of DAQ's funding allocation for capital projects are for replacing and upgrading monitoring sites and equipment, replacing computer software and hardware, and replacing vehicles.

Major Programs and Projects

Southern Nevada Health District – Purchase & Remodel - New Building (\$18.2M): The amount is budgeted to purchase one or more buildings for the District to move its headquarters into in order to have a permanent home and reduce operating costs by eliminating one or more building leases.

Funding Sources: The design and engineering costs will be paid from the District's Capital Improvement Fund (7060). The purchase price and remodel will be paid from the Bond Reserve Fund (7070).

Impact on Operating Budget: This will have no bearing on its operating budget.

Capital Improvements by Function – Health and Welfare Funds

Southern Nevada Health District – Enterprise Resource Planning (ERP) System (\$3.0M):

The amount is budgeted to purchase an enterprise resource planning system that will enable the District to have an integrated accounting, budgeting, and human resources system.

Funding Sources: This will be paid from the District's Capital Improvement Fund (7060).

Impact on Operating Budget: This will have no bearing on its operating budget.

Southern Nevada Health District – Decade Hardware (\$1.1M): The amount is budgeted to purchase hardware for the Envision Connect system.

Funding Sources: This will be paid from the District's Capital Improvement Fund (7060).

Impact on Operating Budget: This will have no bearing on its operating budget.

Highlights of Proprietary Funds Through Fiscal Year 2016

Funding Sources

Uses by Fund

Capital Improvements by Function

Proprietary Funds

Overview - Aviation

The Clark County Department of Aviation (CCDOA), headquartered at McCarran International Airport, comprises several Enterprise funds. As an Enterprise Fund, revenues are generated by users of airport facilities for the operation, maintenance, and provision of necessary services and capital improvements. All funds used by the CCDOA are provided by the airport system. According to federal and state regulations, funds generated by the CCDOA are required to be used by the CCDOA and cannot otherwise be diverted to non-airport uses.

The County's airport system is a dynamic and growing enterprise. Demands on the system are ever changing and continue to grow in all respects -- gate utilization, air space utilization, parking, runways, taxiways, and general aviation. Funds for capital improvements are generated through the issuance of airport revenue bonds (which are repaid through airport revenues), anticipated federal grants, and department-generated funds, including gaming revenue and jet aviation fuel taxes.

The major projects under construction include: reconstruction of roadways, runways, taxiways and apron areas, implementation of an energy master plan, Terminal 1 building improvements including baggage handling system modernization, and improvements to the Department's enterprise resource planning system.

Land acquisition is an ongoing project. In connection with the listed projects, additional land must be acquired for noise abatement, runway protection zones, and future airport development.

Federal security requirements and the passenger handling process continue to evolve. The resulting impact on the per passenger revenues over the long term cannot be predicted at this time. Federally mandated issues will impact decisions regarding capital projects and the processing of passengers for years to come.

As traffic demands and use patterns change, department planners are continually evaluating the airport system capital improvement program. Changing needs and conditions may dictate the inclusion of new projects or land acquisition needs not previously anticipated. In a dynamic, changing environment, the CCDOA's goal is to provide the finest services and facilities to users in a safe, compatible and secure manner.

Summary: Projects approximating \$4.1B are in progress or will be initiated during the course of the next five year period. This funding will be used for both new and rehabilitation construction projects at McCarran, North Las Vegas, and Henderson airports. Funding for these projects is available through the collection of user fees and fuel taxes, in addition to the County's ability to issue revenue bonds.

Major Programs and Projects – Aviation

Department of Aviation Funds (5100 - 5320)

Airfield (\$429.9M): As identified in the Department of Aviation Pavement Maintenance Management Program, several areas of pavement, such as runways, taxiways, holding pads, and aprons, are in need of rehabilitation during the next five years. Included in the program is the reconstruction of Runway 07L/25R. Reconstruction of these areas is necessary for the continued safe and efficient operation of the airport.

Capital Improvements by Function – Proprietary Funds

Terminal 1 (\$576.1M): Various improvements are planned for Terminal 1 during the next five years, including upgrades to HVAC, electrical, and paging systems. Modernization projects for D-Gate restrooms, A & B gates, ticketing areas, and the baggage handling system are also in progress. Roof replacement over baggage claim and lower ticketing is currently underway. All of these improvements are being made to increase customer service and expand airport capacity.

Terminal 2 (\$10.2M): This facility is slated for demolition.

Terminal 3 (\$2.6B): CCDOA is completing construction on this new passenger terminal that opened in June of 2012. Terminal 3 has 14 gates for both domestic and international passengers as well as ticketing counters, baggage claim and parking facilities to support Terminal 3 operations along with a portion of D-Gate traffic (connected via an underground automated transit system). Currently, CCDOA is developing a capacity enhancement program to allow for more efficient passenger traffic flow in the gating area.

Support Facilities (\$402.3M): To accommodate growth in passenger activity and terminal facilities, the Department will need to construct new maintenance, warehouse, and equipment service facilities, improve the surrounding roadways, upgrade the existing enterprise resource planning system, and implement an energy management program.

NLV Airport (\$17.7M): Several upgrades are planned for the North Las Vegas Airport including construction of a new parallel taxiway to improve aircraft circulation and other improvements to the airfield.

Henderson Airport (\$47.5M): CCDOA will rehabilitate an aircraft apron and extend a ramp. Also, CCDOA will resurface the runway at Jean Sport Aviation Center.

Funding Sources: As an Enterprise fund, the CCDOA derives revenue from the following sources: federal grants, gaming revenues, jet aviation fuel tax, passenger facility charges. In addition, the CCDOA has the ability to issue revenue bonds to cover capital expenses.

Impact on Operating Budgets: An operating budget of \$1.8M is anticipated to be able to cover the annual costs of personnel, maintenance contracts, utilities, and custodial expenses associated with all of the previously listed projects beginning in FY 2015-16.

Overview – Other Proprietary Funds

Clark County's Proprietary Funds (excluding the Department of Aviation detailed previously) will focus on several major capital projects over the next few years. The Building Department will be replacing their computer hardware and software. University Medical Center (UMC) of Southern Nevada has several projects coming online that will enhance its services to the community. The Clark County Water Reclamation District also has several expansion and rehabilitation projects planned for its service areas. The following summarizes the activities expected to occur within each fund in FY 2015-16.

Summary: Projects totaling approximately \$713M are in progress or will be initiated during the course of the next five year period. Several projects constitute large construction or building purchases; however, emphasis over this time period also includes replacement or upgrade and enhancement programs. It is the County's goal to update equipment and systems to achieve lower maintenance and upkeep costs. Funding for these projects is maintained within each respective fund and collected primarily through fees, charges for services, and grants.

Capital Improvements by Function – Proprietary Funds

Major Programs and Projects – Other Proprietary Funds

Building Funds (5340)

The Clark County Building Department is an Enterprise Fund and provides multiple services within the construction industry. These services are paid with user fees allowing the fund to be self-supporting. Funds are available to support ongoing capital projects and the following activities are expected to occur within Fund 5340 during FY 2015-16.

Permits and Application System Replacement (\$3.9M): The Russell Road office will be replacing the aged legacy Naviline software and computer hardware system. This project is currently in the planning stages with expected implementation occurring near fiscal year end.

Funding Sources: As this is an Enterprise Fund, a portion of the revenues collected from services are made available for capital expenditures.

University Medical Center (UMC) of Southern Nevada Fund (5420)

University Medical Center of Southern Nevada (UMC) was founded in 1931 as a 20-bed hospital staffed by one doctor and a nurse. Today, UMC spans two city blocks and employs 3,300 physicians, nurses, and other medical and support personnel. UMC is affiliated with the University of Nevada School of Medicine and serves as the state's major clinical campus. The Board of County Commissioners serves as the Board of Trustees for UMC.

Northeast Tower Project / Master Plan (\$82.4M): Plans for this project included the renovation of housekeeping, food services, laboratory, lobby, mailroom, burn care unit, medical records, and speech/audiology. Plans also included 24 additional medical/surgical patient rooms and the completion of a new Neonatal Intensive Care Unit (NICU). The Northeast Tower construction broke ground in the spring of 2005. To date, over 99% of the project funds have been expensed.

Funding Sources: As an Enterprise fund, UMC derives revenues from patient charges and has the ability to issue bonds to cover capital expenses. It also receives funding from the County Capital Projects Fund.

Impact on Operating Budget: This Enterprise Fund will fund ongoing operating costs for this capital project.

Operational Equipment (\$57.4M): This allocation is for the purchase of new equipment and/or the replacement of existing equipment used in the daily operations of the hospital.

Funding Sources: As an Enterprise fund, UMC derives revenues from patient charges and has the ability to issue bonds to cover capital expenses. It also receives funding from the County Capital Projects Fund.

Impact on Operating Budget: No significant fiscal impact.

Capital Improvements by Function – Proprietary Funds

Electronic Health Record (\$45.3M): Plans for this project include the implementation of an Electronic Health Record (EHR) system that will replace several non-integrated legacy systems hospital-wide. The aged legacy systems do not qualify, nor are in compliance, with future Centers for Medicare and Medicaid Services (CMS) requirements. UMC's systems must be in compliance with CMS requirements by 2015 or the facility could face a significant reduction in CMS reimbursement.

Funding Sources: As an Enterprise fund, UMC derives revenues from patient charges and has the ability to issue bonds to cover capital expenses. It also receives funding from the County Capital Projects Fund.

Impact on Operating Budget: No significant fiscal impact.

Facilities Infrastructure Projects (\$5.3M): Plans for this project include the implementation of several energy and water conservation opportunities as well as correcting various critical facilities maintenance concerns that were identified in a Financial Grade Operation Audit of the UMC Campus.

Funding Sources: As an Enterprise fund, UMC derives revenues from patient charges and has the ability to issue bonds to cover capital expenses. It also receives funding from the County Capital Projects Fund.

Impact on Operating Budget: No significant fiscal impact.

Women's Care & Birthing Services Renovation (\$1.6M): Project completed in January 2015. Plans for this project included the renovation of space dedicated to services for women's healthcare and maternal-child care (birthing services) at UMC. The services for women include birthing suites along with patient care areas and a family member waiting area. This effort at UMC addresses, though does not necessarily solve, constraints to provide a comfortable, attractive environment to women accessing care and birthing services at UMC.

Funding Sources: This project is primarily funded by a \$1.5M grant from the U.S. Department of Health and Human Services (HRSA).

Impact on Operating Budget: No significant fiscal impact.

Other Post-Employment Benefits Reserve Fund (6550)

Metro Headquarters Building (\$208.4M): In 2011, Clark County entered into a capital lease agreement for the Metro Headquarters Building. In October 2014, Clark County exercised its option to purchase the building.

Funding Sources: As an Internal Service fund, this fund receives rent payments from the Las Vegas Metropolitan Police Department as a sub-lessee.

Impact on Operating Budget: None.

Capital Improvements by Function – Proprietary Funds

Enterprise Resource Planning (ERP) Fund (6880)

ERP System Buildout (\$10.0M): Provides for the hardware, software, maintenance, professional services, new hires, contract personnel and training required to support the new development and expansion of the SAP Financial, HR/Payroll, Customer Relationship Management (CRM), Business Analytics, Constituent and Employee Portal, and Mobility functionality for participating Agencies, Clark County, their employees and constituents. Projects include: 1) Environmental Health and Safety - Exposure Tracking and Annual Testing Requirements; 2) Customer Relationship Management - Customer Interaction Center – Track requests, issues, and inquires with an automated routing process for action, resolution, and escalation; Service Orders – Web-based system for logging, assignment and handling of Service/Work Orders that includes capture of labor, equipment and inventory used in completion of work; Mobility for Service Orders; Web Channel – Citizen self-service into the Customer Interaction Center through the County’s website; Citizen Connect – Citizen Self Service Mobile Application into the Customer Interaction Center; E-Commerce – Public Sector Collection and Disbursements; 3) Inventory Management Rollout for Public Works, Public Response Office, Juvenile Justice, Shooting Park; 4) Manager Self Service – Automated Leave Approval, Online Real-time Org Charts; Self-Service Report Tools Dashboards; 5) Employee Self-Service – Online Missed Punch Reporting, Leave Request, W-2 Printing, W-4 Form Updates, and Benefits Open Enrollment; 6) Grants Management Process Improvement – Streamlined Reporting Processes; 7) Business Analytics - Crystal Reports Upgrade for CAFR; Dashboard – at a glance visualization; Web Intelligence – Interactive Ad hoc Reporting; Explorer – Analytical Tool; 8) Case Management System; 9) Employee Enablement Tools for active engagement by employees and management of the necessary skills and training requirements for the organization; 10) Records Management – Electronic Invoice and Personnel Records Workflow and Online Review Process; 11) FMLA Workbench; 12) Kronos Upgrade and Utilization Review.

Funding Sources: As an Internal Service fund, ERP derives revenue from charges for services to internal departments countywide.

Impact on Operating Budget: None.

Clark County Water Reclamation District (CCWRD) Fund

The purpose of the District is to protect public health and the environment through the cost-effective collection, treatment, and reclamation of wastewater. The District’s vision is to be known for the following: highly skilled and dedicated employees; excellent customer responsiveness; effective financial management; ethical and effective business practices; and sound business planning principles.

The District’s facilities in the Las Vegas Valley service area consist of a network of over 2,100 miles of pipelines for the conveyance of wastewater to facilities for treatment in the unincorporated areas of Clark County including the resort destinations on the Las Vegas Strip. The District also operates wastewater facilities in service areas outside of the Las Vegas Valley, including Laughlin, Searchlight, Moapa Valley, Blue Diamond, and Indian Springs. Wastewater is conveyed to the treatment facilities, where it undergoes a series of physical, biological, and/or chemical processes that meet or exceed state and federal environmental discharge standards. These standards are set to ensure that treated wastewater will not threaten the quality of the environment. Reclaimed water is also produced at three treatment facilities and is sold for reuse in electrical generating plants, irrigation of golf courses and park fields, and used extensively within the plants.

Capital Improvements by Function – Proprietary Funds

All major sewer lines within the system were constructed after 1954. Approximately 55% of the District's sewer lines have been installed since 1987. The District's wastewater treatment systems service 247,733 active accounts (238,358 are residential accounts; 9,375 are commercial accounts). A total of 243,661 accounts are in the Las Vegas Valley, 2,817 are in Laughlin, and 1,255 are accounts in all other service areas.

The District's capital improvement plan (CIP) is a 15-year planning document that is separated between expansion projects due to growth and those projects necessary for repair and rehabilitation of existing facilities, then further separated by service areas.

Major Programs and Projects - CCWRD

Expansion Projects:

The economic downturn resulted in reduced population growth compared to forecasts for a number of years resulting in reduced residential construction and delays in some major commercial projects. These impacts reduced connection fee revenues which fund expansion projects. To address these changes, expansion projects were reviewed against the reduced population and resulting lower flow projections and have been moved out several years in the CIP. Over the past couple of years, flows have been increasing as has activity in the development community with new construction or resurrecting projects that previously stalled. The Integrated Facility Master Plan (IFMP) was completed in 2014 and used the latest population estimated to update flow projections for all of the District's service areas for the next five years. In addition, this IFMP evaluated the current treatment technology as well as technology improvements that may be required in conjunction with potential future water quality goals.

Rehabilitation Projects:

The majority of the projects in this category include improvements and repairs to the collection system, including lift stations, force mains, interceptors, and sewer lines. The District has completed a comprehensive system-wide sewer cleaning and inspection program. The program consisted of systematically planning, scheduling, and implementing the cleaning and inspection of 2,100 miles of collection system pipes. As part of the cleaning, valuable data concerning debris found in the pipeline was gathered and analyzed to predict future system needs. The cleaning & inspection analysis will be used to prioritize the repair, rehabilitation, or replacement of existing pipelines.

Other Service Areas

Minimal growth is occurring in Moapa Valley, Indian Springs, Laughlin, and Searchlight, and is expected to continue in that mode for some time. Contract documents for the rehabilitation of the Searchlight and Blue Diamond treatment ponds are underway and will be completed this fiscal year. Construction for both systems will begin in late 2015 and will be completed in 2016. At the Laughlin Water Resource Facility, there are projects underway to rehabilitate clarifiers, thickeners, ancillary pump stations, and the emergency storage pond. Within the collection system, there are active design projects in Moapa Valley, Blue Diamond, and Laughlin to rehabilitate existing pipe, manhole, and/or lift station infrastructure.

Capital Improvements by Function – Proprietary Funds

CIP Management:

Program management services provide the necessary management and control on all CIP projects. Primary activities include planning, scheduling, budgeting, forecasting, monitoring, and reporting.

CCWRD capitalized internal and augmented labor costs are labor and labor-related costs of the construction management and engineering staff directly attributable to capital projects. In addition, the District hires contracted labor in accordance with the Board of Trustee's approved Staffing Plan to augment staff deficiencies. These costs are capitalized and then allocated to the capital projects.

Funding Sources: The District derives revenues from sewer service charges, connection charges, sales of reclaimed water, a portion of the ¼-cent sales tax allocated to wastewater treatment facilities, and federal grants, in addition to having the ability to issue bonds to cover capital expenditures. The District also has financial policies that provide for reserve accounts maintained for capital expansion and rehabilitation.

Impact on Operating Budget: Reductions in maintenance expenditures both at the plants and within the collection system will be realized due to some of the major rehabilitation projects recently completed and those that will begin construction in the near future.

Capital Improvements by Function

Regional Transportation

Overview

Clark County's arterial street construction program is implemented under the administration of the Regional Transportation Commission (RTC) of Southern Nevada. This program is funded through a nine-cent-per-gallon motor vehicle fuel tax (MVFT). The jurisdictions manage their projects within their respective jurisdictions. For FY 2015-16, the funding allocation for Clark County Public Works' arterial projects will exceed \$140M.

Highway Improvement Acquisition Fund (4100): This fund is used to acquire property for right-of-way and to fund the design and construction costs for regional streets and highways. Projects residing in this fund are paid for with the nine-cent per gallon MVFT.

Highway Improvement Fund (4130): This fund accounts for proceeds from the sale of bonds, as well as the fair share transportation funding (see below). These funds are used for the construction of various street and highway projects within the County.

Although the RTC maintains its funding sources between these two funds, Clark County Public Works accounts for its RTC projects under Fund 4990, Public Works Regional Improvements.

2002 Fair Share Transportation Funding Program: Clark County voters approved Advisory Question #10 on the November 2002 ballot. This question requested voters to approve an increase of various fees and sales and use taxes to fund transportation improvements and air quality programs in Clark County. The implementation of the RTC's "2002 Fair Share Funding Program" is expected to generate approximately \$2.7B in revenue over a 25-year period.

In May 2003, the Nevada State Legislature and the Governor ratified the advisory question, known in the 2003 Session as Senate Bill 237. The RTC and Board of County Commissioners approved the measure in June 2003. Revenues collected for this program are generated from increased taxes or fees on developers of new construction, aviation fuel taxes of an additional one cent per gallon, retail sales taxes of one-quarter of one percent, and additional revenue provided by the State of Nevada Transportation Board.

Major Programs and Projects

The RTC is responsible for funding projects to improve existing transportation infrastructure, primarily major arterials, throughout Clark County. These project improvements are generally aimed at widening or extending existing arterials. The goal is to increase traffic capacity, improve roadway drainage and ensure adequate traffic control safety measures. Noted below is a sample of construction projects proposed during FY 2015-16 for Clark County Public Works.

Capital Improvements by Function- Regional Transportation

Arterial Improvements: The following improvements may include lane widening, sidewalk, curb and gutter, drop inlets, interchanges, streetlights, and the installation of various traffic signals:

- Carey, Nellis to Toiyabe
- Clark County Urban Maintenance
- Decatur, Blue Diamond to Warm Springs
- Jones, Cactus to Blue Diamond
- Jones, Blue Diamond to Windmill
- Rainbow, Cactus to Blue Diamond
- Russell, Beltway to Rainbow
- Sunset & Las Vegas Blvd. Bus Turnout
- Tropicana, Beltway to Rainbow ITS

Outlying Roads: Funds have been allocated to address outlying road maintenance, which may include overlays, pavement of gravel roads, and slurry seal:

- Bunkerville Roads
- Laughlin Roads
- Moapa Valley Roads
- Moapa Town Roads
- Outlying Area Roads

Funding Sources: MVFT revenues, bond proceeds, and fair share transportation funding.

Fuel Revenue Indexing: During the Clark County Commission's September 3, 2013 meeting, the Board of Commissioners approved an ordinance that will index the fuel tax to inflation in Clark County, generating up to \$700M in bonding capacity. This revenue will fund up to 185 regionally and locally significant transportation projects throughout Southern Nevada. Below are the Clark County projects anticipated to begin in FY 2015-16:

- CC 215, Airport Connector Phase II
- CC 215, Decatur Blvd to North 5th St.
- CC 215, Fort Apache Rd. Bridge
- CC 215, Grand Montecito Pkwy Bridge
- Desert Inn, Paradise to Mojave
- Durango Dr., Tropicana Ave to Spring Mountain Rd.
- Fort Apache Rd./Maule Ave.
- Fort Apache Rd. /Warm Springs Rd.
- Las Vegas Blvd., St Rose Pkwy to Silverado Ranch
- Paradise Palms, Desert Inn to Twain/Maryland to Spencer
- Rainbow, Erie to Blue Diamond
- Tropicana, Hualapai to Fort Apache

Impact on Operating Budget: No significant fiscal impact.

Capital Improvements by Function

Regional Flood Control

Overview

The Regional Flood Control District (RFCD) administers the expenditures of funds generated from the one-quarter of one percent sales tax for flood control facilities in unincorporated Clark County and the five incorporated cities in the County. For FY 2015-16 Clark County Public Works' funding allocation for flood control projects will exceed \$62M.

RFCD Construction Fund (4430): This fund is used for the acquisition, construction, improvement, and extension of infrastructure designed to control flood and storm waters. Voter approval in 1986 and subsequent legislative action, allowed for the collection of one-quarter of one percent sales tax to be used for pay-as-you-go projects. All monies in this fund are obligated by interlocal contracts among entities in the County for the implementation of regional flood control projects.

RFCD Capital Improvement Fund (4440): This fund accounts for net bond proceeds received by the RFCD, which are used and allocated in the same manner as noted in the fund above.

Although the RFCD maintains its funding sources between these two funds, Clark County Public Works accounts for its RFCD projects under Fund 4990, Public Works Regional Improvements.

Major Programs and Projects

The RFCD develops and coordinates a comprehensive master plan aimed at alleviating the damage associated with flooding, regulating land use in flood hazard areas, and funding the construction and maintenance of flood control facilities within Clark County. Noted below is a sample of flood control projects under construction during FY 2015-16 for Clark County Public Works:

Duck Creek at Dean Martin

Flamingo Diversion – Rainbow Branch (reinforced concrete box storm drain)

Flamingo Diversion – South Buffalo, Flamingo Wash to Patrick (reinforced concrete box culvert)

Las Vegas Wash, Sloan Channel to Bonanza and Flamingo Wash below Nellis (reinforced concrete lined channel and reconstruction of Desert Rose Golf Course)

Moapa Valley Fairgrounds Detention Basin

Orchard Detention Basin (detention basin)

Tropicana Wash @ Swenson (reinforced concrete lined channel and box storm drain)

The local drainage program provides construction costs for those projects or improvements which are a necessary appurtenance to collect and deliver flows to an existing master plan facility in order for it to function in the manner intended. These projects generally extend more than one-quarter mile from a master plan facility. Projects under construction include the following:

Capital Improvements by Function – Regional Flood Control

Carey Avenue Storm Drain
Olive Street Storm Drain (US 95 to Palm)
Washington/Hollywood Storm Drain

Funding Sources: A one-quarter of one percent sales tax and bond proceeds.

Impact on Operating Budget: No significant fiscal impact.
