V. Informational Items

1. Clark County Parks and Recreation to discuss community tax and bonds (for discussion only)

John Stastny, with Clark County Parks and Recreation, was present to discuss the boards questions regarding taxes and how it relates to programming. It was clarified during the meeting that there are no current bonds. William Covington - explained that in 1988 the community voted for a 40-year tax which ends in 2029. John - the funding is assigned to the 2690 tax base and cannot be moved or used anywhere else. The 2690 tax funds the operation of community programming including paying part time staff, program materials and other associated programming costs. Parks and Recreation also uses a 541 fund which helps provide additional staff for the active learning class. Lola Egan - does Bunkerville and Moapa Valley have this programming? John - the programs in Bunkerville and Moapa Valley are 100% self-funded. John gave a comparison example that Moapa residents pay \$20 for a 6-week program and Bunkerville/Moapa Valley pay \$100 for the same program. John explained that if the community chooses to do away with the tax it would reduce the hours of operation for the office and for programming, but he was clear that programming would still be offered. Lola asked if there were available funds from the 2690 dollars and general funds that could be used towards additional programming or park projects? John will follow up with finance to get a better understanding on how the money could be spent and how much has accumulated. Lola requested that Wil get a list of generated dollars such as fuel tax dollars and Parks and Rec dollars, so the board can determine how much the community generates and how much is available to be used on future community projects.
