New Projects Process

RED ROCK LEGACY TRAIL CYCLIST MONUMENT DISTRICT F

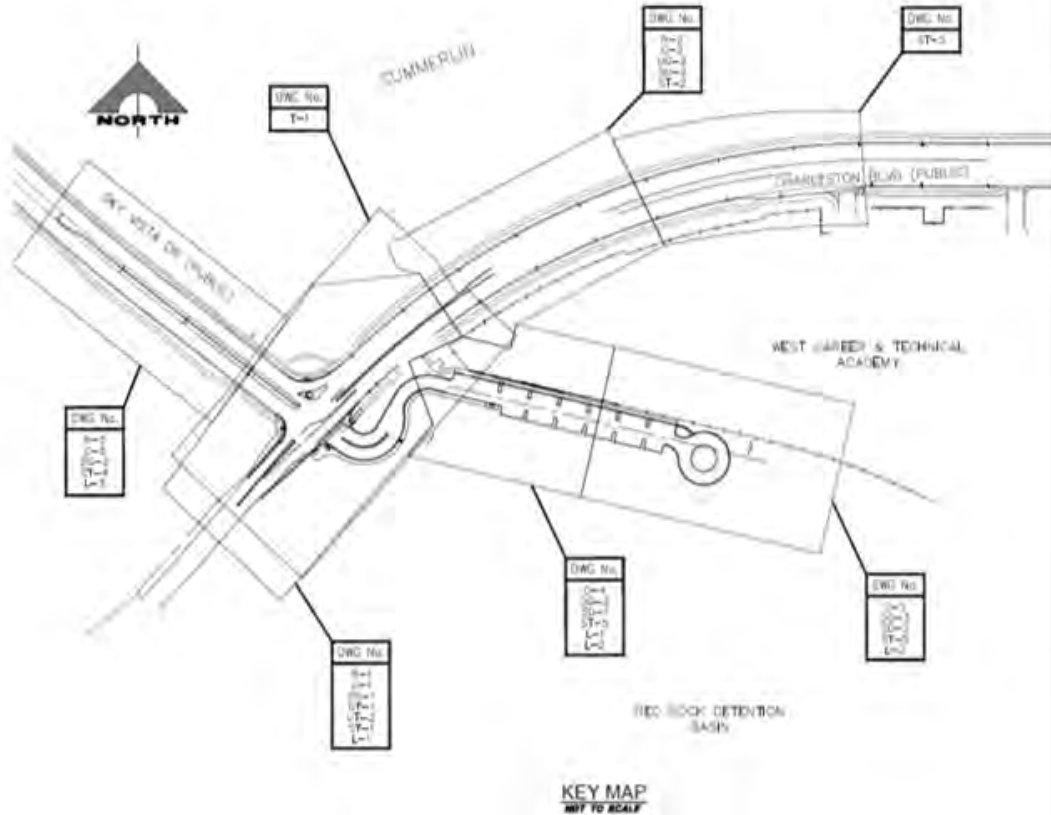

Scope: To create a public art piece that honors lost cyclists to be placed at the Legacy Trail parking lot/trailhead.

Funding Estimate: \$200,000

Stakeholders: District F, Public Works, BLM/FHWA/NDOT, Cycle Community Leaders, Long Range Planning.

Location: Trailhead parking lot on the Summerlin side adjacent to West Career & Tech Academy.

Background: The Legacy Trail was originally conceived after a prominent cyclist (Don Albietz) was killed by an 18-wheeler while riding along SR159, and as you know, there have unfortunately been too many cycling deaths over the years. There is a temporary placement of a Ghost Bike at Charleston along the Beltway Trail in memory of the five riders who were killed a few years ago near Boulder City. While that Ghost Bike could be moved to the trailhead parking lot, I think it would be a lot more meaningful if Clark County commissioned a public art piece to honor lost cyclists to be placed at the Legacy Trail parking lot/trailhead.

TEMPORARY PLAY ART – LeMonde

Scope: To bring high quality interactive public art to our community.

Funding Estimate: \$100,000

Stakeholders: P&R, RPM, Public Works, Economic Development

Background: LeMonde Studio is a movement toward greener entertainment combining art and sensible technology. Electrifying each activation by human power or green tech, we put the visitor at the center stage of the experience, building community bridges and teaching the actual value of energy. Our clients are public organizations, governments, commercial spaces and brands looking for new ways to engage with their community and offer them a much-needed break from their fast-paced life.

Needs if move forward we need to find locations. Artworks would be dropped off at a location for 6 weeks / 8 projects. After 6 weeks a new project would come in. Can be at different locations. Work with Economic Development for some of the neighborhood engagement.

Who is LeMonde Studio

LeMonde Studio represents a pioneering step towards sustainable entertainment, seamlessly merging art with eco-friendly technology.

By infusing every activation with human-powered energy or green technology, we empower visitors to take center stage in their own experiences, fostering community connections while imparting the intrinsic value of energy conservation.

Our clientele includes public organizations, governmental bodies, commercial enterprises, and brands seeking innovative methods to connect with their communities and provide a respite from the hustle and bustle of modern life.

WHOA!

Transform the ordinary into an engaging experience while maintaining functionality.

Vibrant benches that embody the city's new identity, serving as both functional seating and eye-catching landmarks.

Most importantly, let's make them fun by adding a hand-crank that plays music from the Rock Hall of Fame, ensuring they remain completely human-powered and modular.

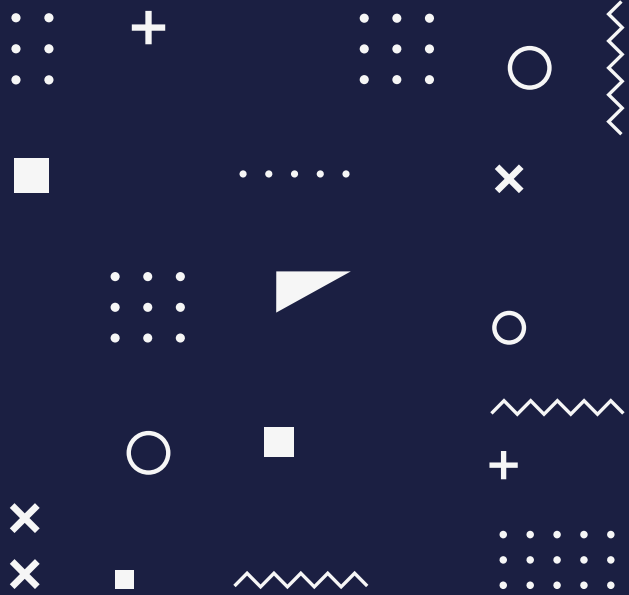

WHOA!

“Turn an eyesore into a vibrant adult playground where fun knows no bounds!”

Why settle for boring when you can unleash your creativity?
