Mission (Our current mission)

Clark County Public Arts Office's mission is to promote, encourage and connect the community with culture and public art around the valley.

Purpose - The purpose is to identify what groups and what activities can request funding and for what purpose.

On occasion, there have been requests from agencies for Arts Plan funding. The following groups are acceptable to ask for funding; other local entities, non-profits, or universities. The following activities are acceptable for a request for funding, public art education opportunity, or the advancement of public art within the County of Clark, such as a sculpture festival or a joint initiative. Funding should not be used for public art projects, i.e., murals or sculptures, as these projects are funded through calls that make the opportunities fair and equitable for all visual artists. If funding is available, the following departments, Parks and Recreation, Finance, and District Attorney, must approve the funding request and finally approved by the Art Committee.

Goal

\$10,000 will be set aside for funding public art educational opportunities or for activities that advance Public art within our community from other local entities, non-profits, or universities.

Funding requests procedure

If an entity, non-profit, or university requests funding for public art educational purposes or the advancement of public art within the County of Clark, such as a sculpture festival or a joint initiative, the requesting agency shall request approval from the Parks and Recreation Department and follow A.12 Agreement Policy. Once District Attorney approves language, the requestor will be required to present in front of the Art Committee for final approval.
