Located on an RTC Transit Route? Yes No Route # \_\_\_\_\_

### STANDARD TRAFFIC CONTROL CONDITIONS:

1. Inspections are required. Call minimum 24-hours in advance 702-455-4610
2. Any changes made to the Traffic Control Plan or Traffic Control Zone by any agency other than Clark County Department of Public Works will cause the permit to be null and void.
3. Clark County Department of Public Works reserves the right to change or adjust any zone or plan in the interest of public safety.
4. Proper signs, barriers, barricades, and lights shall be placed and maintained in accordance with the latest "Manual on Uniform Traffic Control Devices (MUTCD) for Streets and Highways" as published by the Federal Highway Administration and be MASH compliant.
5. By implementing accepted Traffic Control Plans with required traffic signal adjustments, (Including but not limited to; detection modification, bagging of signal and/or pedestrian heads, re-phasing/re-timing of the signal and/or bagging of traffic control signs on the mast arms), the Contractor agrees to be responsible for ALL COSTS incurred by Clark County Traffic Operations required to implement and remove the required adjustments. A minimum of three (3) business days advance notice to Traffic Operations is required prior to plan being implemented or removed if within 500ft of traffic signal. 702-455-7546.
6. Traffic or street signs of any kind are not to be moved for any reason without first obtaining permission from the Clark County Department of Public Works.
7. No open trench shall be allowed across any street or within ten feet of any travel-way. Areas covered by acceptable steel plates are not to be construed as trench. Any excavation deeper and wider than one foot within ten feet of travel-ways shall require barrier rail placed in accordance with Clark County (CC) Drawing 602. All excavations shall be fenced, backfilled, or plated after hours.
8. Steel plates used to cover excavations in the road shall only be allowed for two weeks, unless prior approval is obtained from this office. Steel plates shall be placed and maintained per CC USS 208.03.21
9. TCPs are valid for work performed within a common half-mile (.5) grid. Any work, related or otherwise, outside of this must be permitted separately or receive prior approval.
10. When issued, the permit and Traffic Control Plan must be onsite at all times. All work in the County right-of-way must be completed within the time limit of the permit. It is the Permittee's responsibility to maintain a current approved Traffic Control Plan for the work done under the appropriate permit.

**By signing this TCP Application the Permittee agrees to the terms and conditions of this Traffic Control Plan and all of the applicable State and County laws and/or specifications and further agree that the County and its officers and employees shall be saved harmless by the Permittee from any liability or responsibility from any accident, loss, or damage to persons or property happening or occurring as the proximate result of any of the work herein, under the terms of this permit (plan), and that all of said liabilities are hereby assumed by the Permittee.**

**For extensions, the traffic control company hereby certifies that there is no deviation or changes that have occurred with the request for an extension of time. Should this plan be set-up with no active work occurring, investigative fees will be assessed until removed.**
