

A large, detailed illustration of a fish, possibly a bass, is shown underwater. The fish is looking towards the viewer with a slightly open mouth. The water is a murky greenish-brown color. Scattered around the fish and on the gravelly bottom are numerous discarded cigarette butts, some with filters and some without. An orange speech bubble is positioned in the upper right quadrant of the image.

**I DON'T WANT
YOUR BUTTS.**

You don't throw them in the street.

Any questions?

properly dispose of butts

Rain carries cigarette butts and other litter into storm drains, washes, and ultimately Lake Mead. Dispose of cigarette butts in proper receptacles – and make sure litter doesn't happen.
